BNY Mellon Investment Funds - Interim Report & Accounts Report of the Authorised Corporate Director (ACD)

This is the interim report for the BNY Mellon Investment Funds ICVC ("the Company") for the six month period to 31 December 2024.

Stock markets rose in the second half of the year supported by slowing inflation and policy interest rate cuts. Generally positive corporate earnings also pushed company share prices higher, especially in the US. In November, the re-election of Donald Trump as US president was met with enthusiasm by US equity markets. Investors welcomed his pro-growth policies replete with potentially lower taxes and looser regulations. Many major stock markets, including those in the US, Europe and Japan, hit all-time highs during the six months under review. Developed markets did better than emerging markets.

While economic growth was in evidence in major economies like the US and India, it remained weak elsewhere. The UK economy failed to grow in the third quarter as both consumers and businesses prepared for higher taxes. The eurozone's economy grew modestly, but business activity and consumer spending were both subdued. China's GDP growth was moderately below the government's target in the second and third quarters, in part due to ongoing challenges in the real estate sector. Japan's economic momentum also disappointed.

In most major economies, inflation slowed down. This led to a rise in company shares. The prices of natural gas and oil retreated over the period. This made central banks more comfortable about cutting interest rates. The European Central Bank lowered interest rates three times following its initial June cut. The US Federal Reserve made its first cut in September. It implemented further cuts in November and December. The Bank of England also lowered rates twice before pausing in December. The Bank of Japan was the exception. Having raised interest rates for the first time in 17 years in March, it raised rates again in July. This move was due to inflation rising above the central bank's target level. Wage negotiations due to take place in the spring could also cause inflation to rise.

Bond markets performed well. Bond prices rose, although they did not rise as significantly as company shares. Corporate bonds performed better than government bonds on average. The strength in the bond markets reflected the start of interest rate cutting cycles and slowing inflation.

Value Assessment and Report

In October 2024, BNY Mellon Fund Managers Limited published its report on the assessment of value for the period ending 30 June 2024. The report is available to view on our website, at <u>www.bny.com/investments</u>.

C Judd Director For and on behalf of BNY Mellon Fund Managers Limited Authorised Corporate Director

26 February 2025

BNY Mellon Investment Funds - Interim Report & Accounts Market background

Introduction

Stock markets did well in the last six months of 2024. A supportive mix of lower policy interest rates, slowing inflation and solid corporate earnings drove markets higher. Worries about the global economy occasionally caused markets to fall, most notably in early August. Concern about war in Gaza and Ukraine, as well as tensions between the US and China, ultimately did little to shake investors' enthusiasm.

Developed markets did better than emerging markets. The US was once again one of the top performers. The UK and Japan generated only mildly positive returns in sterling terms, and Europe ex UK markets fell. This reflected concerns about a lack of economic expansion in the region. Europe was also beset by significant political issues, particularly in France and Germany. Japan was unsettled by fluctuations in the yen and the Bank of Japan (BoJ) raising interest rates. The UK was plagued by economic weakness and rising tax burdens on both households and corporations. In emerging markets, China recovered in late September after a slow start to the review period, and ultimately provided strong returns. This was largely thanks to the announcement of fiscal measures meant to boost economic growth, although a lack of detail about how this would be achieved ultimately disappointed investors.

Fixed income markets (bonds issued by governments or companies) rose mildly. A backdrop of falling inflation, interest rate cuts and economic weakness helped bond prices rise, which meant bond yields fell. Generally speaking, bonds issued by companies did better than government bonds.

Inflation fell in most parts of the world toward central bank targets, and so the world's major central banks started to lower interest rates. The first to do so was the European Central Bank (ECB) which reduced rates in June, and then three more times before the end of the year. Having disappointed investors by not cutting rates in the summer, the US Federal Reserve (Fed) finally obliged in September. The Fed reduced rates again in November and December. The Bank of England (BoE) also cut rates on two occasions before pausing in December.

With the exception of the US and India, most regions recorded relatively low GDP growth. The UK economy did not grow at all in the third quarter of 2024.

Key events included:

North America

- The US market surged over the year, frequently hitting new highs. It was supported by the Fed's interest rate cuts and robust company earnings. Donald Trump's victory in the US presidential election sent markets higher in November. Investors were cheered by his potentially pro-growth policies, including fewer regulations and lower taxes.
- Headline inflation fell to a three-year low of 2.4% in September, though had inched up a bit by year's end. Falling gasoline prices were a key factor behind the lower inflation rate.
- The Fed cut its policy interest rate on three occasions, taking it from 5.5% to 4.5%. However, it warned in December that the pace and extent of rate cuts will be less pronounced in 2025.
- The US economy grew by 3.1%, respectively, in the third quarter of the year. This was a big improvement from early 2024. Unemployment rose, but never enough to threaten economic growth.

Europe (including UK)

- European markets fell. Generally poor economic trends, as well as political upheaval (especially in France and Germany) shook investors. The UK market did better than its Continental European peers, rising mildly on optimism about political change.
- Inflation fell across the region. Eurozone and UK inflation both hit 1.7% in September, the lowest reading each region had seen since early 2021.
- The ECB and BoE cut interest rates as inflation fell and GDP growth slowed. The ECB cut its benchmark rate from 4.25% to 3.15% during the six months. The BoE was a little more cautious, cutting just twice and taking interest rates to 4.75%.
- Economic growth was subdued. The eurozone saw a pick-up in growth in the third quarter of 2024. This was, however, its highest growth rate for two years. The UK economy slowed. GDP rose in the second quarter but not at all in the third.

Asia

- Asian markets rose but underperformed developed markets. China's stock market generated strong returns as investors cheered the announcement of a new economic stimulus programme. Taiwan was buoyed by strength in its technology sector. Korean stocks, on the other hand, were notably weak thanks to an economic downturn and political strife. Indian equities fell as economic growth slowed and inflation rose. The Japan market was flat in local-currency terms, but rose mildly in sterling and US dollars.
- Inflation fell in most Asian economies. India was an exception; rising food prices drove inflation higher in the autumn.
- Both the People's Bank of China and the Bank of Korea cut interest rates. The BoJ raised interest rates in July.

BNY Mellon Investment Funds - Interim Report & Accounts

Market background

(continued)

• Economic growth in the region was tepid. India was the exception; the economy expanded by 6.7% on an annualised basis in the second quarter of the year, and by 5.4% in the third. China's economy remained plagued by its real estate sector.

Fixed Income

- Bond markets rose. Falling interest rates and inflation helped bond prices rise early in the review period, but fears about inflation reaccelerating sent bond yields higher into year-end.
- Corporate bonds (debt issued by companies) did better than government bonds.

Currency and Commodities

- The US dollar strengthened against other currencies. The resilience of the US economy and the Fed's initial caution about cutting rates supported the dollar. Donald Trump's election victory sent it higher in November.
- Sterling was strong on expectations that interest rates in the UK would remain higher than rates elsewhere. The pound rose against the euro and was only slightly weaker than the US dollar.
- The Japanese yen weakened substantially against the US dollar, and hit a 38-year low in early July. It appreciated strongly in late July, but again weakened from mid-September in year-end. Overall, the currency appreciated moderately against the US dollar during the period.
- Commodity prices rose mildly. Certain industrial metals, such as zinc and aluminium, saw their prices rise thanks to tight supply conditions. The price of copper fell.
- The price of gold rose by nearly US\$300 per ounce over the six months under review. The precious metal was supported by falling interest rates and its 'safe-haven' status.
- The price of oil declined on concerns about the global economy. While OPEC reined in production, demand remained subdued.

BNY Mellon Investment Funds - Interim Report & Accounts

Notes applicable to the financial statements of all Sub-funds

for the period ended 31 December 2024

Accounting policies

The financial statements have been prepared using the historical cost convention in accordance with United Kingdom Generally Accepted Accounting Practice (UK GAAP) and the Statement of Recommended Practice 'Financial Statements of UK Authorised Funds' issued by the Investment Association (formerly Investment Management Association) in May 2014 and amended in June 2017 (the SORP). In applying UK GAAP, the financial statements have been prepared in compliance with Financial Reporting Standard 102 (FRS 102).

As set out in the circulars sent to shareholders dated 25 August 2023, and following the passing of those proposals in a shareholder meeting, the ACD of the Company merged BNY Mellon Equity Income Booster Fund and BNY Mellon Equity Income Fund, each a Sub-fund of the Company, with BNY Mellon UK Income Fund, also a Sub-fund of the Company. Following completion of the mergers, those Sub-funds no longer have any shareholders and therefore the ACD will proceed to terminate those Sub-funds. Additionally, the ACD of the Company decided to close the BNY Mellon Sustainable Sterling Bond Fund, also a sub-fund of the Company, effective 13 December 2023, following FCA Approval. The financial statements of those Sub-funds are not prepared on a going concern basis for the period ended 31 December 2024, but are prepared on a break-up basis. Under this basis, all assets are recorded at their estimated realisable amount and all liabilities at their estimated settlement amount. The liquidation costs are borne by the ACD.

As set out in the circulars sent to shareholders dated 19 July 2024, and following the passing of those proposals in shareholder EGM meetings, the ACD of the Company merged BNY Mellon 50/50 Global Equity Fund into BNY Mellon Global Equity Fund, and BNY Mellon US Opportunities Fund into BNY Mellon US Equity Income Fund, all Sub-funds of the Company, on 7 September 2024. Following completion of the mergers, those Sub-funds no longer have any shareholders and therefore the ACD will proceed to terminate those Sub-funds. The financial statements of those Sub-funds are not prepared on a going concern basis for the period ended 31 December 2024, but are prepared on a break-up basis. Under this basis, all assets are recorded at their estimated realisable amount and all liabilities at their estimated settlement amount. The liquidation costs are borne by the ACD.

The ACD of the Company decided to close the BNY Mellon Global Dynamic Bond Income Fund, BNY Mellon Long Gilt Fund, BNY Mellon Sustainable Global Emerging Markets Fund and BNY Mellon Sustainable Global Equity Fund, all sub-funds of the Company, effective 15 January 2025, following FCA approval. The financial statements of those Sub-funds are not prepared on a going concern basis for the period ended 31 December 2024, but are prepared on a break-up basis. Under this basis, all assets are recorded at their estimated realisable amount and all liabilities at their estimated settlement amount. The liquidation costs are borne by the ACD.

All other accounting policies used to prepare the interim financial statements are as per the audited financial statements for the year ended 30 June 2024.

Holdings in other Sub-funds of the Company

As at 31 December 2024, the BNY Mellon Global Dynamic Bond Fund held 12,916,459 shares in BNY Mellon Global High Yield Bond Fund. No other Sub-funds held shares in any other Sub-fund of the Company.

As at 30 June 2024, the BNY Mellon Global Dynamic Bond Fund held 18,247,551 shares in the BNY Mellon Global High Yield Bond Fund. No other Sub-funds held shares in any other Sub-fund of the Company.

Fund Report (continued)

Portfolio Summary

- The Sub-fund merged into the BNY Mellon Global Equity Fund on 7 September 2024.
- In the period from 1 July 2024 to the merger, Newton Institutional Shares 1 (Accumulation) share class of the BNY Mellon 50/50 Global Equity Fund returned -1.84%, net of fees, compared with -0.86% for its benchmark a composite index, comprising 50% FTSE All-Share TR Index,16.67% FTSE World North America TR Index,16.67% FTSE Europe ex-UK TR Index and 16.67% FTSE Asia Pacific TR Index, both in sterling terms.
- The manager's decision to invest more heavily in both the UK and Europe than the benchmark weighed on returns. A large position in the healthcare sector also lessened returns, since the sector did poorly at the end of the year. Not owning any shares in electric vehicle maker Tesla also hurt returns. The Sub-fund's shares of Samsung Electronics and healthcare provider Novo Nordisk detracted, too.
- The manager bought shares of marketing communications firm Omnicom; engineering solutions provider Weir; among others. Exposure to the consumer sectors was reduced. Sales included Accenture, Novartis, Linde and XP.

Sector:	The Investment Association Asia Pacific ex Japan

Key Dates: Fund Launch

30 November 2005

Investment Objective

The Sub-fund aims to achieve income together with capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest in the Asia Pacific region (including Australia and New Zealand but excluding Japan);

- invest at least 75% of the portfolio in equities (company shares), including ordinary shares, preference shares and other equity-related securities; and

- typically invest in company shares within the Asia Pacific region which meet minimum yield thresholds set with reference to the Benchmark and will sell company shares if their yield consistently drops below minimum threshold levels.

The Sub-fund may:

- invest in money markets instruments, deposits, cash and near cash;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Interim Report & Accounts - BNY Mellon Asian Income Fund Fund Report (continued)

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Fund Report

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund rose by 3.21%, net of fees, against a return of 2.69% for the FTSE Asia Pacific ex Japan TR Index.
- The stocks the manager chose to invest in performed well. Company shares from India and Singapore did well. By sector, industrials and
 consumer staples were strong. Financials stocks had a very good second half of the year; among the Sub-fund's best performers were DBS,
 Singapore Exchange, and Ping An Insurance of China. In general, investments in Singapore helped drive returns.
- On the downside, telecommunications stocks detracted from returns. Company shares from Spark New Zealand and Telkom Indonesia Persero underwhelmed. Not holding shares in large Chinese stocks Tencent and Alibaba hurt returns, as they were strong in the period. Being less invested in China than the benchmark was proved a detriment. Being more invested in telecommunications than the index also hurt performance.
- The manager bought more shares in the financials sector, including in Hong Kong Exchanges & Clearing and HSBC. A few utilities and consumer discretionary stocks were added as well. A number of shares in certain technology firms were sold in order to book profits. These included Taiwan Semiconductor Manufacturing, Infosys and Advantech.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales	
NARI Technology	Taiwan Semiconductor Manufacturing	
ANTA Sports Products	ITC	
HSBC	United Overseas Bank	
AIA	DBS	
Hong Kong Exchanges & Clearing	CLP	
Singapore Exchange	Sonic Healthcare	
Power Grid of India	Infosys	
Macquarie Korea Infrastructure Fund	National Australia Bank	
Chailease	ComfortDelGro	
	Ping An Insurance of China

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

General Information

Investment Adviser: Fund Size:	Newton Investment Management Limited £78.84m
Comparative Index:	FTSE Asia Pacific ex Japan TR
Sector:	The Investment Association Asia Pacific ex Japan

Key Dates: Fund Launch

30 November 1990

Investment Objective

The Sub-fund aims to achieve capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest in the Asia Pacific region (including Australia and New Zealand but excluding Japan); and

- invest at least 75% of the portfolio in equities (company shares) of issuers domiciled, incorporated or with significant business in Asian and Pacific markets (including Australia and New Zealand but excluding Japan), including ordinary shares, preference shares and other equity-related securities.

The Sub-fund may:

- invest in money markets instruments, deposits, cash and near cash;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Interim Report & Accounts - BNY Mellon Asian Opportunities Fund Fund Report

(continued)

Portfolio Summary

- In the six months under review, the Sub-fund's B Shares (Accumulation) share class generated a return of 5.78%, net of fees, against a return of 2.69% for the FTSE Asia Pacific ex Japan TR Index.
- The manager's choice of which company shares to invest in was the key factor behind the Sub-fund's strong return. At the sector level, the best performances came from technology, industrials and energy stocks. Having substantial exposure to technology stocks helped returns, too, as the industry did especially well in the second half of the year. Being less invested in the basic materials sector than the benchmark also boosted returns.
- At the stock level, the best performers were Chinese battery maker Contemporary Amperex Technology and travel firm Trip.com. Shares of Indian companies, such as Infosys and Info Edge India, helped bring the Sub-fund's return higher.
- On the downside, strength in large Chinese stocks that the Sub-fund did not hold, such as Meituan and Alibaba, proved to be a headwind to performance. A poor choice of financials stocks also weighed on returns.
- In the technology sector, the manager bought some shares of semiconductor maker SK Hynix and cable and connector firm Sinbon Electronics. Shares of Chinese sportswear company ANTA Sports Products were purchased, too. Fast-food chain operator Yum China was sold on weaker consumer demand in China, and shares of Prudential were sold after its share price rose.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales	
SK Hynix	Sungrow Power Supply	
MediaTek	HDFC Life Insurance

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon Emerging Income Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser: Fund Size:	Newton Investment Management Limited £106.27m
Comparative Index:	MSCI Emerging Markets NR
Sector:	The Investment Association Global Emerging Markets

Key Dates: Fund Launch

4 October 2012

Investment Objective

The Sub-fund aims to achieve income together with capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest in emerging market countries across the world;

- invest at least 75% in emerging market equities (company shares), including ordinary shares, preference shares and other equity-related securities;

- invest in company shares targeting higher than average dividends (dividends are the proportion of company profits paid out to shareholders) and with good prospects for growth; and

- typically invest in company shares within emerging markets which meet minimum yield thresholds set with reference to the Benchmark and will sell company shares if their yield consistently drops below minimum threshold levels.

The Sub-fund may:

- invest in money markets instruments, deposits, cash and near cash;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six-month period under review, the B Shares (Accumulation) share class of the Sub-fund returned -1.36%, net of fees, against 0.95% for the MSCI Emerging Markets NR Index.
- The stocks the manager chose to invest in, particularly in certain sectors, were the key factor behind the Sub-fund's negative return. In the
 financials sector, shares of Bank Mandiri Persero and Grupo Financiero Banorte did poorly. In communication services, shares of Telkom
 Indonesia Persero disappointed. Not holding shares in large Chinese stocks Tencent and Alibaba also hurt returns, as both were strong in
 the second half of 2024.
- The Sub-fund's shares in Samsung Electronics dented returns. The firm's share price fell when its earnings came in below forecasts.
- On the upside, company shares from India helped to temper losses. The Sub-fund's holdings in ITC and Infosys did well. In the financials sector, Ping An Insurance of China and Credicorp performed well.
- The manager bought some shares in the financials sector, including in Hong Kong Exchanges & Clearing and AIA. A stake in China's Anta Sports Products was bought, since the company boasts a strong dividend yield. Meanwhile, profits were taken in several technology firms. These included Taiwan Semiconductor Manufacturing, Infosys and Advantech, which all performed well.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon FutureLegacy 3 Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Newton Investment Management Limited
Fund Size:	£23.92m
	15% SONIA GBP, 55% ICE BofA Global Broad Index GBP Hedged and 30% MSCI ACWI
Comparative Index:	GBP NR
Sector:	The Investment Association Volatility Managed
Key Dates: Fund Launch	7 February 2023

Investment Objective

To achieve capital growth and potential for income over the long term (5 years or more) while being managed to a pre-defined level of risk. The Sub-fund will aim to maintain a risk profile classification of 3 from a scale of 1 (lowest) to 10 (highest) which is assessed against the risk ratings scale provided by an external third party risk rating agency.

Investment Policy

The Sub-fund will:

- invest in a portfolio of UK and international securities;

- typically, in normal market conditions, maintain an exposure to equities (through physical and derivative exposure) of between 10%-50% of the Sub-fund's Net Asset Value (NAV) which in the Investment Manager's view is consistent with its risk profile;

- invest at least 70% of its NAV in companies and sovereign issuers that meet the Investment Manager's sustainability criteria. More information on the Investment Manager's sustainability criteria can be found in the Prospectus;

- exclude direct investment in securities with material involvement in activities the Investment Manager deems harmful from an environmental and/or social perspective;

- follow a broad 'multi-asset' portfolio approach e.g. company shares (equities) and similar investments, bonds and similar debt investments and cash;

- invest in bonds, issued by governments and companies, with high and low credit ratings (i.e. investment grade and/or sub-investment grade bonds as rated by Standard and Poor's or similar agencies);

- target a risk profile of 3 (this is not guaranteed), based on a risk profile scale of 1 (lowest) to 10 (highest). This risk profile is not the same as that shown in the Synthetic Risk & Reward table. The risk profile of the Sub-fund is currently assessed against the risk ratings scale provided by Dynamic Planner, but is subject to change at the ACD's discretion;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- limit investment in other collective investment schemes (including but not limited to another sub-fund or sub-funds of the Company) to 10% of the Sub-fund's Net Asset Value (NAV) in aggregate.

The Sub-fund may:

- invest more than 35% of its Net Asset Value (NAV) in government and public securities issued or guaranteed by a single state, local authority or public international body;

- invest up to 10% of its Net Asset Value (NAV) in contingent convertible securities (CoCo's);

- allocate up to 8.5% of its Net Asset Value (NAV) to alternative risk premia strategies. Such strategies seek to gain exposure to risk premia (the return or reward an investor earns to bear risk) through instruments such as structured notes, derivative instruments and collective investment schemes;

- invest in emerging markets;

- invest significantly in cash and cash-like investments; and

- invest up to 30% of its NAV in assets that do not meet the Investment Manger's sustainability criteria. This includes; Cash, near cash asset and money market instruments (including deposits, loans), Collective Investment Schemes, warrants, derivatives, transferable securities (such as company shares, convertible bonds, contingent convertible bonds, listed investment trusts, REITs, bonds and structured notes).

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund produced a return of 3.10%, net of fees, against a return of 3.77% for the benchmark a composite index, comprising 15% SONIA GBP, 55% ICE BofA Global Broad Index GBP Hedged and 30% MSCI ACWI GBP NR.
- The use of derivative instruments contributed positively. This was mainly thanks to short positions on government bonds, which gained value as bond prices fell towards the end of the year.
- Being less invested in company shares and more invested in bonds (debt issued by governments and companies) than the benchmark dented returns a little. The manager's choice of individual stocks and bonds also detracted from returns.
- Certain short-dated US bonds with maturity dates in the near future hurt performance. A long-dated Japanese Government Bond (due to mature some decades into the future) detracted as interest rates rose in Japan. Not owning shares in Tesla also weighed on results.
- The manager bought shares in Tetra Tech, a leading provider of high-end consulting and engineering services. Other key purchases
 included shares of energy solutions providers GE Vernova, E.ON and SPIE.
- The manager lowered the Sub-fund's duration (which determines how sensitive it is to interest rates) through most of the period, but
 raised it in December. The Sub-fund's shares of Edwards Lifesciences were sold on the manager's doubt about the firm's ability to grow.
 Other sales included Paychex and Lonza.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Portfolio Statement

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Newton Investment Management Limited
Fund Size:	£36.44m
	10% SONIA GBP, 45% ICE BofA Global Broad Index GBP Hedged and 45% MSCI ACWI
Comparative Index:	GBP NR
Sector:	The Investment Association Volatility Managed
Key Dates: Fund Launch	7 February 2023

Investment Objective

The Sub-fund aims to achieve capital growth and potential for income over the long term (5 years or more) while being managed to a predefined level of risk. The Sub-fund will aim to maintain a risk profile classification of 4 from a scale of 1 (lowest) to 10 (highest) which is assessed against the risk ratings scale provided by an external third party risk rating agency.

Investment Policy

The Sub-fund will:

- invest in a portfolio of UK and international securities;

- typically, in normal market conditions, maintain an exposure to equities (through physical and derivative exposure) of between 25%-65% of the Sub-fund's Net Asset Value (NAV) which in the Investment Manager's view is consistent with its risk profile;

- invest at least 70% of its NAV in companies and sovereign issuers that meet the Investment Manager's sustainability criteria. More information on the Investment Manager's sustainability criteria can be found in the Prospectus;

- exclude direct investment in securities with material involvement in activities the Investment Manager deems harmful from an environmental and/or social perspective;

- follow a broad 'multi-asset' portfolio approach e.g. company shares (equities) and similar investments, bonds and similar debt investments and cash;

- invest in bonds, issued by governments and companies, with high and low credit ratings (i.e. investment grade and/or sub-investment grade bonds as rated by Standard and Poor's or similar agencies);

- target a risk profile of 4 (this is not guaranteed), based on a risk profile scale of 1 (lowest) to 10 (highest). This risk profile is not the same as that shown in the Synthetic Risk & Reward table. The risk profile of the Sub-fund is currently assessed against the risk ratings scale provided by Dynamic Planner, but is subject to change at the ACD's discretion;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- limit investment in other collective investment schemes (including but not limited to another sub-fund or sub-funds of the Company) to 10% of the Sub-fund's Net Asset Value (NAV) in aggregate.

The Sub-fund may:

- invest more than 35% of its Net Asset Value (NAV) in government and public securities issued or guaranteed by a single state, local authority or public international body;

- invest up to 10% of its Net Asset Value (NAV) in contingent convertible securities (CoCo's);

- allocate up to 8.5% of its Net Asset Value (NAV) to alternative risk premia strategies. Such strategies seek to gain exposure to risk premia (the return or reward an investor earns to bear risk) through instruments such as structured notes, derivative instruments and collective investment schemes;

- invest in emerging markets;

- invest significantly in cash and cash-like investments; and

- invest up to 30% of its NAV in assets that do not meet the Investment Manger's sustainability criteria. This includes; Cash, near cash asset and money market instruments (including deposits, loans), Collective Investment Schemes, warrants, derivatives, transferable securities (such as company shares, convertible bonds, contingent convertible bonds, listed investment trusts, REITs, bonds and structured notes).

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Interim Report & Accounts - BNY Mellon FutureLegacy 4 Fund Fund Report

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund generated a return of 3.73%, net of fees, against a
 return of 4.37% for the benchmark a composite index, comprising 10% SONIA GBP, 45% BAML Global Broad Index GBP Hedged and 45%
 MSCI ACWI GBP NR.
- The use of derivative instruments contributed positively. This was mainly thanks to short positions on government bonds, which gained value as bond prices fell towards the end of the year. In equities, the Sub-fund's shares in GE Vernova surged.
- Being less invested in company shares and more invested in bonds (debt issued by governments and companies) than the benchmark dented returns a little. The manager's choice of individual stocks and bonds to invest in also detracted from returns.
- Certain short-dated US bonds with maturity dates in the near future hurt performance. A long-dated Japanese Government Bond (due to mature some decades in the future) detracted as interest rates rose in Japan. Not owning shares in Tesla also weighed on results.
- The manager bought shares in several electrical engineering and energy solutions firms. These included Tetra Tech, GE Vernova, E.ON and SPIE. Long S&P 500 futures were added in November.
- The manager lowered the Sub-fund's duration (which determines how sensitive it is to interest rates) through most of the period, but raised it in December. Shares of Edwards Lifesciences, Zurich Insurance and Lonza were sold.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

General Information	
Investment Adviser:	Newton Investment Management Limited
Fund Size:	£46.08m
	5% SONIA GBP, 35% ICE BofA Global Broad Index GBP Hedged and 60% MSCI ACWI
Comparative Index:	GBP NR
Sector:	The Investment Association Volatility Managed
Key Dates: Fund Launch	7 February 2023

Investment Objective

The Sub-fund aims to achieve capital growth and potential for income over the long term (5 years or more) while being managed to a predefined level of risk. The Sub-fund will aim to maintain a risk profile classification of 5 from a scale of 1 (lowest) to 10 (highest) which is assessed against the risk ratings scale provided by an external third party risk rating agency.

Investment Policy

The Sub-fund will:

- invest in a portfolio of UK and international securities;

- typically, in normal market conditions, maintain an exposure to equities (through physical and derivative exposure) of between 40%-80% of the Sub-fund's Net Asset Value (NAV) which in the Investment Manager's view is consistent with its risk profile;

- invest at least 70% of its NAV in companies and sovereign issuers that meet the Investment Manager's sustainability criteria. More information on the Investment Manager's sustainability criteria can be found in the Prospectus;

- exclude direct investment in securities with material involvement in activities the Investment Manager deems harmful from an environmental and/or social perspective;

- follow a broad 'multi-asset' portfolio approach e.g. company shares (equities) and similar investments, bonds and similar debt investments and cash;

- invest in bonds, issued by governments and companies, with high and low credit ratings (i.e. investment grade and/or sub-investment grade bonds as rated by Standard and Poor's or similar agencies);

- target a risk profile of 5 (this is not guaranteed), based on a risk profile scale of 1 (lowest) to 10 (highest). This risk profile is not the same as that shown in the Synthetic Risk & Reward table. The risk profile of the Sub-fund is currently assessed against the risk ratings scale provided by Dynamic Planner, but is subject to change at the ACD's discretion;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- limit investment in other collective investment schemes (including but not limited to another sub-fund or sub-funds of the Company) to 10% of the Sub-fund's Net Asset Value (NAV) in aggregate.

The Sub-fund may:

- invest more than 35% of its Net Asset Value (NAV) in government and public securities issued or guaranteed by a single state, local authority or public international body;

- invest up to 10% of its Net Asset Value (NAV) in contingent convertible securities (CoCo's);

- allocate up to 8.5% of its Net Asset Value (NAV) to alternative risk premia strategies. Such strategies seek to gain exposure to risk premia (the return or reward an investor earns to bear risk) through instruments such as structured notes, derivative instruments and collective investment schemes;

- invest in emerging markets;

- invest significantly in cash and cash-like investments; and

- invest up to 30% of its NAV in assets that do not meet the Investment Manger's sustainability criteria. This includes; Cash, near cash asset and money market instruments (including deposits, loans), Collective Investment Schemes, warrants, derivatives, transferable securities (such as company shares, convertible bonds, contingent convertible bonds, listed investment trusts, REITs, bonds and structured notes).

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Portfolio Summary

- Over the six-month review period, the B Shares (Accumulation) share class of the Sub-fund generated a return of 4.26%, net of fees, against a return of 4.97% for the benchmark a composite index, comprising 5% SONIA GBP, 35% BofA Global Broad Index GBP Hedged and 60% MSCI ACWI GBP NR.
- The use of derivative instruments contributed positively. This was mainly thanks to short positions in government bonds, which gained
 value as bond prices fell towards the end of the year. In equities, the Sub-fund's shares in GE Vernova surged. Shares of Gilead Sciences,
 CME and Cisco Systems also did well.
- The manager's choice of individual stocks and bonds (debt issued by governments and companies) to invest in detracted from returns. The Sub-fund's sizeable cash position proved unhelpful as markets rose.
- Certain short-dated US bonds with maturity dates in the near future hurt performance. Not owning shares in Tesla and Broadcom, which did very well in the period, also dented returns. Healthcare firm ICON detracted, too.
- The manager bought shares in Tetra Tech, a leading provider of high-end consulting and engineering services. Other key purchases included energy solutions providers GE Vernova, E.ON and SPIE.
- The manager lowered the Sub-fund's duration (which determines how sensitive it is to interest rates) through most of the period, but
 raised it in December. The Sub-fund's shares of Edwards Lifesciences were sold on the manager's doubt about the firm's ability to grow.
 Other sales included Paychex and Lonza.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Newton Investment Management Limited
Fund Size:	£43.94m
Comparative Index:	25% BofA Global Broad Index GBP Hedged and 75% MSCI ACWI GBP NR
Sector:	The Investment Association Volatility Managed
Key Dates: Fund Launch	7 February 2023

Investment Objective

The Sub-fund aims to achieve capital growth and potential for income over the long term (5 years or more) while being managed to a predefined level of risk. The Sub-fund will aim to maintain a risk profile classification of 6 from a scale of 1 (lowest) to 10 (highest) which is assessed against the risk ratings scale provided by an external third party risk rating agency.

Investment Policy The Sub-fund will:

- invest in a portfolio of UK and international securities;

- typically, in normal market conditions, maintain an exposure to equities (through physical and derivative exposure) of between 55%-95% of the Sub-fund's Net Asset Value (NAV) which in the Investment Manager's view is consistent with its risk profile;

- invest at least 70% of its NAV in companies and sovereign issuers that meet the Investment Manager's sustainability criteria. More information on the Investment Manager's sustainability criteria can be found in the Prospectus;

- exclude direct investment in securities with material involvement in activities the Investment Manager deems harmful from an environmental and/or social perspective;

- follow a broad 'multi-asset' portfolio approach e.g. company shares (equities) and similar investments, bonds and similar debt investments and cash;

- invest in bonds, issued by governments and companies, with high and low credit ratings (i.e. investment grade and/or sub-investment grade bonds as rated by Standard and Poor's or similar agencies);

- target a risk profile of 6 (this is not guaranteed), based on a risk profile scale of 1 (lowest) to 10 (highest). This risk profile is not the same as that shown in the Synthetic Risk & Reward table. The risk profile of the Sub-fund is currently assessed against the risk ratings scale provided by Dynamic Planner, but is subject to change at the ACD's discretion;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- limit investment in other collective investment schemes (including but not limited to another sub-fund or sub-funds of the Company) to 10% of the Sub-fund's Net Asset Value (NAV) in aggregate.

The Sub-fund may:

- invest more than 35% of its Net Asset Value (NAV) in government and public securities issued or guaranteed by a single state, local authority or public international body;

- invest up to 10% of its Net Asset Value (NAV) in contingent convertible securities (CoCo's);

- allocate up to 8.5% of its Net Asset Value (NAV) to alternative risk premia strategies. Such strategies seek to gain exposure to risk premia (the return or reward an investor earns to bear risk) through instruments such as structured notes, derivative instruments and collective investment schemes;

- invest in emerging markets;

- invest significantly in cash and cash-like investments; and

- invest up to 30% of its NAV in assets that do not meet the Investment Manger's sustainability criteria. This includes; Cash, near cash asset and money market instruments (including deposits, loans), Collective Investment Schemes, warrants, derivatives, transferable securities (such as company shares, convertible bonds, contingent convertible bonds, listed investment trusts, REITs, bonds and structured notes).

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Fund Report

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund produced a return of 4.77%, net of fees, against a
 return of 5.57% for the benchmark a composite index, comprising 25% BofA Global Broad Index GBP Hedged and 75% MSCI ACWI GBP NR.
- The use of derivative instruments contributed positively. This was mainly thanks to short positions in government bonds, which gained
 value as bond prices fell towards the end of the year. In equities, the Sub-fund's shares in GE Vernova surged. Shares of Gilead Sciences,
 CME and Cisco Systems also did well.
- The manager's choice of individual stocks and bonds (debt issued by governments and companies) to invest in detracted from returns. The Sub-fund's sizeable cash position proved unhelpful as markets rose.
- Certain short-dated US bonds with maturity dates in the near future hurt performance. Not owning shares in Tesla and Broadcom, which did very well in the period, also dented returns. Shares of healthcare firms ICON, Edwards Lifesciences and AstraZeneca were all weak.
- The manager bought shares in Tetra Tech, a leading provider of high-end consulting and engineering services. Other key purchases included energy solutions providers GE Vernova, E.ON and SPIE.
- The manager lowered the Sub-fund's duration (which determines how sensitive it is to interest rates) through most of the period, but
 raised it in December. The Sub-fund's shares of Edwards Lifesciences were sold on the manager's doubt about the firm's ability to grow.
 Other sales included Paychex and Lonza.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Newton Investment Management Limited
Fund Size:	£34.13m
Comparative Index:	10% ICE BofA Global Broad Index GBP Hedged and 90% MSCI ACWI GBP NR
Sector:	The Investment Association Volatility Managed
Key Dates: Fund Launch	7 February 2023

Investment Objective

The Sub-fund aims to achieve capital growth and potential for income over the long term (5 years or more) while being managed to a predefined level of risk. The Sub-fund will aim to maintain a risk profile classification of 7 from a scale of 1 (lowest) to 10 (highest) which is assessed against the risk ratings scale provided by an external third party risk rating agency.

Investment Policy The Sub-fund will:

- invest in a portfolio of UK and international securities;

- typically, in normal market conditions, maintain an exposure to equities (through physical and derivative exposure) of between 70%-100% of the Sub-fund's Net Asset Value (NAV) which in the Investment Manager's view is consistent with its risk profile;

- invest at least 70% of its NAV in companies and sovereign issuers that meet the Investment Manager's sustainability criteria. More information on the Investment Manager's sustainability criteria can be found in the Prospectus;

- exclude direct investment in securities with material involvement in activities the Investment Manager deems harmful from an environmental and/or social perspective;

- follow a broad 'multi-asset' portfolio approach e.g. company shares (equities) and similar investments, bonds and similar debt investments and cash;

- invest in bonds, issued by governments and companies, with high and low credit ratings (i.e. investment grade and/or sub-investment grade bonds as rated by Standard and Poor's or similar agencies);

- target a risk profile of 7 (this is not guaranteed), based on a risk profile scale of 1 (lowest) to 10 (highest). This risk profile is not the same as that shown in the Synthetic Risk & Reward table. The risk profile of the Sub-fund is currently assessed against the risk ratings scale provided by Dynamic Planner, but is subject to change at the ACD's discretion;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- limit investment in other collective investment schemes (including but not limited to another sub-fund or sub-funds of the Company) to 10% of the Sub-fund's Net Asset Value (NAV) in aggregate.

The Sub-fund may:

- invest more than 35% of its Net Asset Value (NAV) in government and public securities issued or guaranteed by a single state, local authority or public international body;

- invest up to 10% of its Net Asset Value (NAV) in contingent convertible securities (CoCo's);

- allocate up to 8.5% of its Net Asset Value (NAV) to alternative risk premia strategies. Such strategies seek to gain exposure to risk premia (the return or reward an investor earns to bear risk) through instruments such as structured notes, derivative instruments and collective investment schemes;

- invest in emerging markets;

- invest significantly in cash and cash-like investments; and

- invest up to 30% of its NAV in assets that do not meet the Investment Manger's sustainability criteria. This includes; Cash, near cash asset and money market instruments (including deposits, loans), Collective Investment Schemes, warrants, derivatives, transferable securities (such as company shares, convertible bonds, contingent convertible bonds, listed investment trusts, REITs, bonds and structured notes).

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund generated a return of 5.24%, net of fees, against a return of 6.16% for the benchmark a composite index, comprising 10% BofA Global Broad Index GBP Hedged and 90% MSCI ACWI GBP NR.
- The use of derivative instruments contributed positively. This was mainly thanks to short positions in government bonds, which gained
 value as bond prices fell towards the end of the year. In equities, the Sub-fund's shares in GE Vernova surged. Shares of Gilead Sciences,
 CME and Cisco Systems also did well.
- The manager's choice of individual stocks and bonds (debt issued by governments and companies) to invest in detracted from returns. While shares of overseas companies did well, the Sub-fund's UK stocks did poorly compared with the benchmark's.
- Certain short-dated US bonds with maturity dates in the near future hurt performance. Not owning shares in Tesla and Broadcom, which did very well in the period, also dented returns. Shares of healthcare firms ICON, Edwards Lifesciences and AstraZeneca were weak, too.
- The manager bought shares in Tetra Tech, a leading provider of high-end consulting and engineering services. Other key purchases included energy solutions providers GE Vernova, E.ON and SPIE.
- The manager lowered the Sub-fund's duration (which determines how sensitive it is to interest rates) through most of the period, but raised it in December. The Sub-fund's shares of Edwards Lifesciences were sold on the manager's doubt about the firm's ability to grow. Other sales included shares of Paychex, Ecolab and Lonza.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Gilt Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General InformationInvestment Adviser:Insight Investment Management (Global) Limited
£118.54mFund Size:£118.54mComparative Index:FTSE Actuaries UK Conventional Gilts All StocksKey Dates: Fund Launch16 November 2024

Investment Objective

The Sub-fund aims to achieve income together with the potential for capital growth over the long term (5 years or more).

The Sub-fund aims to outperform the FTSE Actuaries UK Conventional Gilts All Stocks Index after fees on a rolling annualised 5-year basis (meaning a period of 5 years, no matter which day you start on). However, performance is not guaranteed, and a capital loss may occur.

Investment Policy The Sub-fund will:

- invest at least 70% of the Net Asset Value (NAV) of the portfolio directly (i.e excluding the effect of any exposure obtained via derivatives) in Sterling denominated conventional bonds issued by the UK government (any standard UK government bonds excluding gilts that are index-linked).

The Sub-fund may:

- invest in assets other than gilts, in order to help achieve the investment objective;

- invest up to 10% of its NAV directly or indirectly in emerging market debt;

- invest up to 100% of the NAV in government and public securities issued by or on behalf of the Government of the UK, the Scottish Administration, the Executive Committee of the Northern Ireland Assembly and the National Assembly of Wales;

- invest more than 35% of its NAV in government and public securities issued or guaranteed by a single state, local authority or public international body;

- invest up to 10% of its NAV directly or indirectly invest in corporate bonds with low credit ratings (i.e., sub-investment grade bonds as rated by Standard and Poor's or similar agencies);

- invest up to 10% of its NAV in collective investment schemes;

- invest in loans, deposits, cash and cash-like instruments, money market instruments and other transferable securities; and

- use derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of managing duration, risk or cost reduction or to generate additional capital or income.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.	

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Fund Report (continued)

Portfolio Summary

- From the Sub-fund's launch on 16 November 2024 to 31 December 2024, the Institutional Shares W (Accumulation) share class of the fund produced a return of -0.47%, net of fees, versus a return of -0.51% for the FTSE Actuaries UK Conventional Gilts All Stocks Index.
- Adjusting the Sub-fund's duration (which measures its sensitivity to interest rates) in response to moves in the market helped it do better than its benchmark.
- The manager opted to invest in short-dated UK government bonds (or Gilts) that have maturity dates in the next five years. The Sub-fund also invests in longer-dated Gilts that mature in 15 years or more.
- The Sub-fund was less invested in Gilts that will mature in between five and 15 years.
- The Sub-fund also holds corporate bonds, or those issued by a company as opposed to by a government. In this area, the manager bought shorter-dated bonds with maturity dates in the near future.

Effective 16 November 2024, the Insight Investment UK Government All Maturities Bond Fund merged into newly launched "BNY Mellon Gilt Fund".

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

Institutional Shares W (Income)	0.31
*The Operating Charges figure as at 21 December 2024 is an annualised figure	

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon Global Absolute Return Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Insight Investment Management (Global) Limited
Fund Size:	£93.07m
Comparative Index:	SONIA (90-day compounded) + 4%
Sector:	The Investment Association Targeted Absolute Return
Key Dates: Fund Launch	9 February 2013

Investment Objective

The Sub-fund seeks to deliver positive returns on an annual basis. The Sub-fund aims to deliver returns before fees within a range of cash (SONIA (90-day compounded)) on a rolling 12-month basis and cash (SONIA (90-day compounded)) + 4% per annum on a rolling annualised five year basis. However, a positive return is not guaranteed and a capital loss may occur.

Investment Policy

The Sub-fund will:

- gain exposure to a wide range of asset classes such as company shares (i.e. equities) and similar investments, bonds and similar debt investments and cash including investing in collective investment schemes that themselves invest anywhere in the world;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- gain exposure to commodities (e.g. gold) and property through stock exchange listed investments and/or derivatives.

The Sub-fund may:

- directly invest in a wide range of asset classes;

- employ strategies known as 'long/short' strategies which means that it will increase exposure (i.e. go long) to an investment it favours and short (using derivatives) other investments which it does not favour. These strategies may result in the Sub-fund being leveraged. Leverage magnifies the exposure of the Sub-fund to greater than the underlying investments. In such situations, returns may rise or fall more than they would have done otherwise, reflecting such additional exposure;

- invest significantly in cash and cash-like investments;

- invest up to 10% of its assets in collective investment schemes, including those which are managed or operated by the authorised corporate director (ACD) or an associate of the ACD; and

- invest in closed-ended funds which have their own operating costs. These operating costs are not included in the ongoing charges but are reflected in the Sub-fund's performance.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

*Effective 1 October 2021, the benchmark changed from the London Interbank Offered Rate (LIBOR) to the Sterling Overnight Index Average (SONIA). All benchmark past performance prior to this date was calculated against LIBOR.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- Over the six months under review, the Sub-fund's B Shares (Accumulation) share class returned -1.88%, net of fees, compared with 4.52% for the SONIA (90-day compounded) +4% benchmark.
- Global share prices were volatile in the third quarter of the year. This followed the Bank of Japan's decision to raise interest rates at the end of July and some disappointing earnings announcements from major technology firms. Company shares held by the Sub-fund lost ground over this period.
- In the last three months of 2024, the Sub-fund's holdings in the US and Asian markets helped returns. But this was outweighed by weakness in European and emerging market investments. After the US election, investors were preoccupied by the risk of a global trade dispute, with the incoming Trump administration proposing to levy tariffs on imports.
- After the US Federal Reserve cut interest rates in September, the Sub-fund's holdings in government and corporate bonds performed well. Although bond markets lost ground later in the year, the income generated from the Sub-fund's holdings in riskier, higher-yielding corporate bonds boosted returns.
- In contrast with the Sub-fund's bond holdings, investments in currency markets did not work well in the third quarter as the US dollar weakened. Performance was much stronger in the last three months of the year, however, as the US dollar rallied.

Institutional Shares W (Income)	0.69	0.63
Sterling Accumulation Shares	1.60	1.55

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

^Comparative figures have been restated. For further details, refer to note 22 of notes to the financial statements within the Annual Report & Accounts, for the financial year ending 30 June 2024.

The IA SORP requires comparative figures for the end of the half yearly period of the prior year for the above statement. For interim financial statements this will result in the closing comparative net assets not being equal to net assets at the start of the current period as these are not consecutive periods.

BNY Mellon Investment Funds

BNY Mellon Global Dynamic Bond Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Newton Investment Management Limited
Fund Size:	£762.58m
Comparative Index:	SONIA (30-day compounded) + 2%
Sector:	The Investment Association Targeted Absolute Return
Key Dates: Fund Launch	28 April 2006

Investment Objective

The objective of the Sub-fund is to maximise the total return, comprising income and capital growth. The Sub-fund is managed to seek a minimum return of cash SONIA (30-day compounded) +2% per annum over five years before fees. In doing so, it aims to achieve a positive return on a rolling three year basis (meaning a period of three years, no matter which day you start on). However, a positive return is not guaranteed and a capital loss may occur.

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest in emerging markets;

- invest predominantly (meaning at least 75% of the portfolio) in abroad universe of bonds and similar debt investments (i.e. bonds issued by governments, companies and other public entities);

- invest in bonds which at the time of purchase may have a minimum credit rating of BBB- as rated by Standard & Poor's (or equivalent recognised rating agency) or if unrated, have been determined by the Investment Manager to be of an equivalent quality;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- limit investment in other collective investment schemes to 10%.

The Sub-fund may:

- invest more than 35% of its assets in government and public securities (those issued or guaranteed by a single state, local authority or public international body); and

- invest significantly in cash and cash-like investments.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

*Effective 1 October 2021, the benchmark changed from the London Interbank Offered Rate (LIBOR) to the Sterling Overnight Index Average (SONIA). All benchmark past performance prior to this date was calculated against LIBOR.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Fund Report

(continued)

Durchasos

Portfolio Summary

- During the six months under review, the B Shares (Accumulation) share class of the Sub-fund produced a return of 4.53%, net of fees, versus 2.66% for the SONIA (30-day compounded) +2% benchmark.
- The biggest contribution to the Sub-fund's returns came from high yield bonds (lower-quality bonds issued by companies). Investment grade bonds (high-quality bonds issued by companies) and emerging market government bonds did well too. Bonds from South Africa, Peru and Mexico were notably strong.
- The Sub-fund also had good contributions from currency hedging (designed to protect the Sub-fund from sharp currency moves) and derivatives (designed to protect the Sub-fund from moves in underlying assets).
- On the negative side, the Sub-fund's government bonds weighed on returns. Long-dated Japanese bonds (those with maturity dates a long
 way in the future) were especially weak. The largest detractor was a short-dated bond (one due to mature in the next few years) from
 Brazil.
- Early in the period, the manager reduced the Sub-fund's sensitivity to interest rates before raising it in the last two months of the year. The manager also increased the Sub-fund's exposure to government bonds from Poland, Indonesia and Brazil. In the final three months of the year, the manager added some new bonds issued by companies.
- The manager added a long position in the US dollar and reduced the long position in the Japanese yen.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon Global Dynamic Bond Income Fund

Interim Report for the period ended 31 December 2024

for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£11.06m
Sector:	The Investment Association Strategic Bond
Key Dates: Fund Launch	9 May 2016
Fund Closure	15 January 2025

Investment Objective

The Sub-fund aims to achieve income over the medium term (3-5 years).

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest at least 70% of the portfolio in global fixed income securities (bonds) issued by governments, companies and other public entities;

- invest in property and commodities through exchange-listed securities, other transferable securities and/or collective investment schemes; and

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income.

The Sub-fund may:

- invest in emerging markets;

- hold high levels of cash and liquid near cash assets during extreme market conditions;

- invest more than 35% of its assets in government and public securities issued or guaranteed by a single state, local authority or public international body;

- invest in bonds that are rated below investment grade (BBB-) by Standard & Poor's (or other such recognised rating agency);

- invest in Contingent Convertible Securities (CoCo's); and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the Sub-fund's B Shares (Income) share class rose by 5.03%, net of fees. The Sub-fund will not measure its performance against a benchmark because it is not possible to state a comparator that will be relevant at all times.
- Long positions in two-and five-year US bond futures (included under derivative instruments) contributed most to returns. The Sub-fund's
 high yield bonds (lower-quality bonds issued by companies) also contributed to the positive return. In this asset class, bonds from Dutch
 food group Flora Food Management performed well. Investment grade bonds (higher-quality bonds issued by companies) also helped.
 Food delivery firm Ocado also did well. Certain emerging market government bonds also added to returns. These included bonds from
 South Africa, Indonesia and Peru.
- Currency hedging (which is used to protect the Sub-fund from sharp currency moves) and derivative instruments also contributed to returns.
- On the downside, certain government bonds detracted. Long-dated Japanese bonds (those due to mature many years in the future) were especially weak. Longer-dated US Treasury, UK Gilt and Australasian issues also weighed on returns.
- The Sub-fund's duration, which measures its sensitivity to interest rates, was reduced early in the review period but was increased in the final two months of the year. Profits were taken on a long position in the Japanese yen, while long positions in the Korean won and Australian dollar were added.
- If you would like help understanding the definition of certain terms, please refer to our online Glossary www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales
United States Treasury Inflation Indexed Notes 1.75% 15/1/2034	United States Treasury Notes 3.5% 15/2/2033
Brazil Letras do Tesouro Nacional 0% 1/1/2028	Mexico Cetes 0% 3/10/2024
Spain Government Bond 3.45% 30/7/2043	United States Treasury Inflation Indexed Notes 0.125% 15/1/2031
Japan Government Forty Year Bond 1% 20/3/2062	Brazil Letras do Tesouro Nacional 0% 1/1/2028
United Kingdom Gilt 4.25% 7/12/2049	Spain Government Bond 3.45% 30/7/2043

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon Global Emerging Markets Opportunities Fund

Interim Report for the period ended 31 December 2024

Interim Report & Accounts - BNY Mellon Global Emerging Markets Opportunities Fund Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£157.54m
Comparative Index:	MSCI Emerging Markets NR
Sector:	The Investment Association Global Emerging Markets

Key Dates: Fund Launch

25 July 2015

Investment Objective

The Sub-fund aims to achieve capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest in emerging markets globally; and

- invest at least 75% of the portfolio in equities (company shares) and equity-related securities in companies listed, traded, located or deriving at least half of their revenue or income from emerging market countries across the world. Emerging market countries are countries, which are progressing towards becoming advanced, usually displayed by some development in financial markets, the existence of some form of stock exchange and a regulatory body.

The Sub-fund may:

- invest in money market instruments, deposits, cash and near cash;

- invest in other transferable securities;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Interim Report & Accounts - BNY Mellon Global Emerging Markets Opportunities Fund Fund Report

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund rose by 3.10%, net of fees, against a return of 0.95% for the MSCI Emerging Markets NR Index.
- Choices about which stocks and sectors to invest in added value. By sector, shares of industrial companies boosted returns; shares of Contemporary Amperex Technology and Sungrow Power Supply were notably strong. By region, Indian stocks did well, with shares of Zomato and Info Edge India all gaining. The manager's decision to avoid materials and energy stocks also worked well, as these sectors were weak during the six months under review.
- On the downside, the Sub-fund's stocks in financials and consumer staples did poorly on average. A lack of investment in Chinese stocks Xiaomi and Meituan also detracted from returns.
- The manager bought shares in chipmaker SK Hynix. It is a significant supplier of memory devices to Nvidia. Elsewhere in the technology sector, the manager bought shares of Sinbon Electronics, ASE Technology, and MediaTek. China's ANTA Sports Products was added, too.
- Fast-food firm Yum China was sold due to rising competition. B3 and Pidilite were sold following strong share price performance. The Subfund's shares in Samsung Electronics, XP and Chailease were exited to fund better opportunities elsewhere.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales
MediaTek	Samsung Electronics
ANTA Sports Products	Taiwan Semiconductor Manufacturing
SK Hynix	Zomato
MakeMyTrip	Tencent
Tube Investments of India	Sungrow Power Supply
Sinbon Electronics	AIA
ASE Technology	Shenzhen Inovance Technology
TOTVS	Wal-Mart de Mexico
Raia Drogasil	HDFC Bank
Titan	Trip.com

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Global Equity Fund

Interim Report for the period ended 31 December 2024

Interim Report & Accounts - BNY Mellon Global Equity Fund

Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£1,525.49m
Comparative Index:	MSCI AC World NR
Sector:	The Investment Association Global

Key Dates: Fund Launch

1 June 1987

Investment Objective

The Sub-fund aims to achieve capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest anywhere in the world; and

- invest at least 75% in global equities (company shares), including ordinary shares, preference shares and other equity-related securities.

The Sub-fund may:

- invest in emerging markets;

- invest in money market instruments, deposits, cash and near cash;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund rose by 5.95%, net of fees, compared with a return of 6.55% for the MSCI AC World NR GBP Index.
- The manager made some good choices regarding which company shares to invest in, and this helped generate a positive return. Shares in
 industrials firms were most helpful from a sector perspective.
- By region, US shares added most to returns. A position in energy solutions provider GE Vernova was particularly beneficial after the firm reported strong earnings. Elsewhere, shares of Netflix and Goldman Sachs boosted returns.
- The manager's decision to invest more heavily in both the UK and Europe than the benchmark weighed on returns. A large position in the healthcare sector also lessened returns, since the sector did poorly at the end of the year. Not owning any shares in electric vehicle maker Tesla also hurt returns. The Sub-fund's shares of Samsung Electronics and healthcare provider Novo Nordisk detracted, too.
- The manager bought shares of marketing communications firm Omnicom; engineering solutions provider Weir; Chinese fast-food chain Yum China; and analytics company Equifax, among others. Exposure to the consumer sectors was reduced. To that end, the manager sold the Sub-fund's shares of luxury brand firm LVMH. Other sales included Accenture, Novartis, Linde and XP.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales
Fiserv	Nestle
Omnicom	Novartis
Yum China	LVMH Moet Hennessy Louis Vuitton
Equifax	Accenture
Weir	Linde
TE Connectivity	Dassault Systemes
AstraZeneca	Novonesis (Novozymes) B
adidas	XP
AMETEK	Unilever
CME	Progressive

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon Global High Yield Bond Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£56.42m
	ICE Bank of America Global High Yield ex Bank Capital & Junior Subordinated GBP
Comparative Index:	(Hedged) TR
Sector:	The Investment Association £ High Yield
Key Dates: Fund Launch	2 October 2000

Investment Objective

The Sub-fund aims to achieve income over the medium term (3-5 years).

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest at least 80% of the portfolio in sterling-denominated or hedged back to sterling fixed income securities (bonds) and other debt instruments;

- typically invest at least 75% of the portfolio in bonds rated below investment grade (BBB-) by Standard & Poor's (or equivalent recognised rating agency); and

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income.

The Sub-fund may:

- invest in emerging markets;
- invest in money markets instruments, deposits, cash and near cash;
- invest in Contingent Convertible Securities (CoCo's);
- invest up to 10% in other collective investment schemes; and

- invest in closed-ended funds which have their own operating costs. These operating costs are not included in the ongoing charges but are reflected in the Sub-fund's performance.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund rose by 5.47%, net of fees, against a return of 5.35% from the ICE Bank of America Global High Yield ex Bank Capital & Junior Subordinated (100% Hedged into sterling) TR Index.
- The best returns came from high yield bonds from Greenland Global Investment and Windstream Escrow. Certain names from the financials sector, such as UBS, Petrobras Global Finance and Direct Line Insurance, also did well. Currency hedging (which is used to reduce risk from currency movements) proved helpful as well.
- On the downside, the manager's decision to own fewer high yield bonds than the index was a negative factor. Brazilian government bonds
 held in the Sub-fund dented returns. A long-dated US Treasury bond with a maturity date some decades in the future was a poor
 performer.
- The manager participated in several new issues in the second half of the year. These included grocery business Ocado, French utility Electricite de France, poultry company Boparan Finance, logistics firm Edge Finco, and services business Techem Verwaltungsgesellschaft.
- A holding in an exchange-traded fund and certain low-yielding positions were reduced to fund these purchases.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Portfolio Statement

as at 31 December 2024

General Information

Investment Adviser:Newton Investment Management LimitedFund Size:£3,270.11mComparative Index:FTSE World TRSector:The Investment Association Global Equity Income

Key Dates: Fund Launch

30 November 2005

Investment Objective

The Sub-fund aims to achieve income over an annual period together with capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest at least 75% of the portfolio in global equities (company shares), including ordinary shares, preference shares and other equity-related securities; and

- typically invest in company shares that, at time of purchase, are paying a higher yield than the Benchmark and will sell company shares if their yield consistently drops below the yield of the Benchmark.

The Sub-fund may:

- invest in emerging markets;

- invest in money market instruments, deposits, cash and near cash;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Interim Report & Accounts - BNY Mellon Global Income Fund Fund Report

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund rose by 5.71%, net of fees, against a return of 6.73% for the FTSE World TR Index.
- The manager's decisions about which company shares to invest in added to returns. By sector, healthcare stocks were most helpful. The top seven best-performing positions were all stocks based in the US. These included biotechnology firm Gilead Sciences and network equipment company Cisco Systems. Not owning shares in Microsoft also proved to be beneficial.
- Having a much bigger holding in developed Europe than the benchmark weighed on returns. The large position in healthcare was also a detriment, despite the strong performance of Gilead Sciences.
- At the stock level, not owning any shares in Apple or Tesla detracted. Owning shares of Samsung Electronics was also unhelpful, since its earnings were not as strong as expected.
- The manager bought shares of two Swedish industrial companies, SKF and Sandvik. Shares of brewer Molson Coors Beverage, pharmaceutical manufacturer Bristol-Myers Squibb, car maker Stellantis, and coffee company Starbucks were also purchased.
- The Sub-fund's position in the financials sector was reduced in the second half of the year. The manager sold all the Sub-fund's shares of JP Morgan and Zurich Insurance. Positions in Nestle, Paychex, Infosys, and CMS Energy were exited, too.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales
Hong Kong Exchanges & Clearing	Paychex
Omnicom	Goldman Sachs
Stellantis	Procter & Gamble
Molson Coors Beverage	Infosys ADR
Starbucks	Newmont
Estee Lauder	JPMorgan Chase
MetLife	British American Tobacco

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

General Information

Investment Adviser: Fund Size:	Newton Investment Management North America LLC £19.77m
Comparative Index:	S&P Global Infrastructure NR
Sector:	The Investment Association Infrastructure

Key Dates: Fund Launch

7 August 2018

Investment Objective

The Sub-fund aims to achieve income and capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest at least 80% of its assets in a concentrated portfolio of equities (company shares), equity-related securities and listed real estate investment trusts ("REIT"s) of companies located worldwide that are engaged in infrastructure and related operations; and

- invest at least 51% of the portfolio in higher yielding companies in order to provide income in the form of dividends to the Sub-fund.

The Sub-fund may:

- invest up to 25% of the portfolio in emerging markets (excluding Russia);

- invest in non-traditional infrastructure sectors such as telecoms, senior housing, health care and real estate industries;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Interim Report & Accounts - BNY Mellon Global Infrastructure Income Fund Fund Report

(continued)

Portfolio Summary

- In the six months under review, the Institutional Shares W (Accumulation) share class of the Sub-fund rose by 8.53%, net of fees, versus a gain of 11.25% for the S&P Global Infrastructure NR Index.
- Holdings in the utilities sector helped the Sub-fund make a positive return. Company shares from independent power and renewable energy firms boosted returns as well. Being less invested in industrials firms than the index also proved helpful.
- A poor choice of stocks in the energy sector dented the Sub-fund's returns. Holdings in communication services that the benchmark did not hold also did poorly.
- The manager bought more shares in the industrials and utilities sectors during the six months under review. By the end of the year, the Sub-fund owned fewer shares in the communication services and real estate industries than it did at the start of the period.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

F Shares (Income)	0.53	0.53
Institutional Shares W (Accumulation)	0.81	0.81
Institutional Shares W (Income)	0.81	0.81

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Investment Objective

The Sub-fund seeks to achieve capital growth.

Investment Policy The Sub-fund will:

- gain exposure to a wide range of asset classes such as company shares (i.e. equities) and similar investments, bonds and similar debt investments and cash including investing in collective investment schemes that themselves invest anywhere in the world;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- gain exposure to commodities (e.g. gold) and property through stock exchange listed investments and/or derivatives.

The Sub-fund may:

- directly invest in a wide range of asset classes;

- employ strategies known as 'long/short' strategies which means that it will increase exposure (i.e. go long) to an investment it favours and short (using derivatives) other investments which it does not favour. These strategies may result in the Sub-fund being leveraged. Leverage magnifies the exposure of the Sub-fund to greater than the underlying investments. In such situations, returns may rise or fall more than they would have done otherwise, reflecting such additional exposure;

- invest significantly in cash and cash-like investments;

- invest up to 10% of its assets in collective investment schemes, including those which are managed or operated by the authorised corporate director (ACD) or an associate of the ACD; and

- invest in closed-ended funds which have their own operating costs. These operating costs are not included in the ongoing charges but are reflected in the Sub-fund's performance.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund produced a return of 0.29%, net of fees, against a return of 2.36% for the UK Investment Association Mixed Investment 20-60% Shares NR Sector average.
- Company shares the Sub-fund was invested in detracted from returns. However, the manager's decision to invest more heavily in US
 company shares in the run up to the November elections helped to stem losses.
- Bond yields rose over the six months under review, and so bond prices fell. This was unhelpful for the government bonds held within the Sub-fund and also hurt the performance of the Sub-fund's infrastructure holdings.
- On the upside, corporate bonds (those issued by a company) did better and helped returns as bond spreads tightened (reduction in the difference in yield between two bonds, often a lower-rated and a higher-rated bond).
- The Sub-fund's total-return strategies struggled to a degree, but the absolute-return positions performed well.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser: Fund Size:	Newton Investment Management Limited £38.40m
Comparative Index:	MSCI AC World NR
Sector:	The Investment Association Global

Key Dates: Fund Launch

1 July 2005

Investment Objective

The Sub-fund aims to achieve capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest at least 75% of its assets in a concentrated portfolio of global equities (company shares), including ordinary shares, preference shares and other equity-related securities; and

- invest in companies of all sizes (e.g. small, medium and large companies) and in any sector (e.g. pharmaceuticals, financials, etc).

The Sub-fund may:

- invest in emerging markets;

- invest in money market instruments, deposits, cash and near cash;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Interim Report & Accounts - BNY Mellon Global Opportunities Fund Fund Report

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund rose by 5.40%, net of fees, against a return of 6.55% for the MSCI AC World NR Index.
- Company shares from the Europe ex UK region did well and helped the Sub-fund achieve a positive return. Software firm SAP was most helpful. Not owning shares in healthcare provider Novo Nordisk also proved to be beneficial. The manager's choice of industrials stocks also boosted returns. Energy services company GE Vernova helped the Sub-fund do well thanks to a positive earnings release.
- The manager's decision to invest more heavily in both the UK and Europe than the benchmark weighed on returns. A large position in the healthcare sector also lessened returns, since the sector did poorly at the end of the year.
- At a sector level, stock-picking had a negative impact on returns. In the information technology space, the Sub-fund's shares of Samsung Electronics and Applied Materials were notably weak. Not owning any shares in electric vehicle maker Tesla also hurt returns.
- The manager bought shares in London Stock Exchange; Zoetis, which makes medicine for pets; Chinese fast-food chain Yum China; and GE Vernova, among others. Shares of Ecolab, Dassault Systemes, Diageo and Novonesis were sold.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales	
GE Vernova	Diageo	
Zoetis	Ecolab	
Yum China	Trane Technologies	
London Stock Exchange	Novonesis (Novozymes) B	
Amazon.com	Dassault Systemes	
Alcon	Microsoft	
Universal Music	SAP	
Microsoft	Sony	
Apple	Lonza	
Alphabet	Accenture

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon Index Linked Gilt Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
	5
Fund Size:	£27.95m
Comparative Index:	FTSE Actuaries UK Index-Linked Gilts over 5 Years TR
Sector:	The Investment Association UK Index Linked Gilts

Key Dates: Fund Launch

23 February 1998

Investment Objective

The Sub-fund aims to achieve income together with the potential for capital growth over the medium term (3-5 years).

Investment Policy The Sub-fund will:

- invest at least 75% of the portfolio in sterling-denominated index-linked gilts (bonds issued by the UK government.

The Sub-fund may:

- invest in money market instruments, deposits, cash and near cash;

- invest more than 35% of its assets in government and public securities issued or guaranteed by a single state, local authority or public international body;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Fund Report

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund produced a return of -6.09%, net of fees, against -5.89% for the FTSE Actuaries UK Index- Linked Gilts Over 5 Years TR Index.
- The Sub-fund's investments in UK government bonds (Gilts) that mature between 20 and 30 years from now detracted most. These included 2048 and 2052 Gilts, which were the two weakest positions. The Sub-fund's duration (which measures its sensitivity to interest rates) was longer than that of the benchmark. This hurt returns, mainly in the last three months of the year, when yields rose.
- The best-performing positions in the Sub-fund were short-dated Gilts with maturity dates in the near future. The 2026 and 2029 issues made strong contributions to returns. Gilts with maturity dates 10 to 15 years from now also did well.
- The manager lowered the Sub-fund's duration throughout most of the period. Exposure to long-dated Gilts was reduced; 2054 and 2055 index-linked Gilts were swapped for 2026 index-linked Gilts. The manager reduced the Sub-fund's holdings in bonds that the index did not own. Among these were High Speed Rail and Affordable Housing Finance bonds. However, after the marked rise in yields at the end of the year, the manager upped duration again.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Insight Investment Management (Global) Limited
Fund Size:	£61.45m
Comparative Index:	The Investment Association Sterling Strategic Bond NR
Sector:	The Investment Association Sterling Strategic Bond
Key Dates: Fund Launch	9 February 2013

Investment Objective

The Sub-fund aims to generate income and capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest at least 80% of the portfolio in inflation-linked corporate bonds and/or the following assets which in combination provide the investment characteristics of inflation-linked corporate bonds: corporate bonds, government and public securities and other debt securities;

- invest mainly in sterling denominated and non-sterling denominated bonds and similar debt investments. For those investments not denominated in sterling, the Sub-fund will use techniques to try to eliminate the effects of changes in the exchange rate between sterling and other currencies (i.e. hedging). This aims to protect the Sub-fund against losses caused by currency movements between the Sub-fund's base currency, sterling, and the currency of the underlying assets of the Sub-fund; and

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income.

The Sub-fund may:

- invest in money market instruments, deposits, cash and near cash;

- invest more than 35% of its assets in government and public securities issued or guaranteed by a single state, local authority or public international body;

- invest in bonds that are rated below investment grade (BBB-) by Standard & Poor's (or other such recognised rating agency); and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the Sub-fund's B Shares (Accumulation) share class returned 2.26%, net of fees. This compared with a return of 3.01% for the Sub-fund's benchmark, the UK Investment Association Sterling Strategic Bond NR Sector average.
- Keeping a close eye on the Sub-fund's investments in both government bonds and corporate bonds (bonds issued by a company), and adjusting them in response to movements in the markets, helped achieve a positive return.
- In the autumn months, central banks began cutting interest rates. This boosted the Sub-fund's investments in corporate bonds.
- The manager sold several holdings in banks and insurers, which had performed well. New issues of bonds issued by a leading auto manufacturer and a major UK telecommunications firm were added.
- In the last three months of 2024, both corporate bonds and government bonds lost ground. The US Federal Reserve warned the pace of interest rate cuts was likely to slow in 2025. Investors grew concerned that inflation would remain high for longer than was previously forecast.
- The manager adopted a more cautious approach, reducing investments in sectors that are sensitive to economic growth. This helped returns.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Unless otherwise indicated, the holdings in the Portfolio Statement represents the ordinary shares, ordinary stock units, common shares or debt securities of the relevant companies or issuers.

*Net of investment liabilities.

Statement of Total Return

for the period ended 31 December 2024

	31/12/2024		31/12/2023	
	£	£	£	£
Income				
Net capital gains		230,862		3,069,370
Revenue	1,742,399		1,243,083	
Expenses	(211,242)		(149,456)	
Interest payable and similar charges	(158,405)		(161,713)	
Net revenue before taxation	1,372,752		931,914	
Taxation	(12)		(15)	
Net revenue after taxation		1,372,740		931,899
Total return before distributions		1,603,602		4,001,269
Distributions		(1,375,170)		(932,006)
Change in net assets attributable to Shareholders from				
investment activities		228,432		3,069,263

Statement of Change in Net Assets Attributable to Shareholders

for the period ended 31 December 2024

	31/12/2024		31/12/2023	
	£	£	£	£
Opening net assets attributable				
to Shareholders		67,377,380		42,274,788
Amounts receivable on issue of shares	10,947,072		12,442,432	
Amounts payable on cancellation of shares	(18,205,482)		(8,713,835)	
		(7,258,410)		3,728,597
Dilution adjustment		8,378		1,200
Change in net assets attributable to Shareholders from				
investment activities		228,432		3,069,263
Retained distributions on accumulation shares		1,094,859		810,242
Closing net assets attributable to Shareholders		61,450,639		49,884,090

The IA SORP requires comparative figures for the end of the half yearly period of the prior year for the above statement. For interim financial statements this will result in the closing comparative net assets not being equal to net assets at the start of the current period as these are not consecutive periods.

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£245.75m
Comparative Index:	JP Morgan Global Government Bond Index (GBI) (Unhedged) TR
Sector:	The Investment Association Global Government Bond

Key Dates: Fund Launch

1 February 1991

Investment Objective

The Sub-fund aims to achieve income and capital growth over the medium term (3-5 years).

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest at least 75% in global fixed income securities (bonds) issued by governments and other public entities;

- invest in bonds with a high credit rating (i.e. investment grade bonds with a minimum credit rating of BBB- as rated by Standard and Poor's (or other such recognised rating agency); and

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income.

The Sub-fund may:

- invest in money market instruments, deposits, cash and near cash;

- invest more than 35% of its assets in government and public securities issued or guaranteed by a single state, local authority or public international body;

- invest in Contingent Convertible Securities (CoCo's); and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund generated a return of 1.84%, net of fees, against a return of 1.91% for the JP Morgan Global GBI Unhedged TR Index.
- The greatest contribution to the Sub-fund's returns came from its short-dated government bonds (government bonds that reach their maturity dates in the near future). These included Denmark 2033 and Peru 2032 bonds. In general, bonds with maturities of five to 10 years performed best. Bonds with maturities of 10 to 15 years also did well. The long position in the US dollar proved to be beneficial, too. A long position in the Japanese yen added value early in the period.
- On the negative side, several long-dated Gilts (UK government bonds due to mature some decades in the future) detracted from the Subfund's returns. Long-dated Japanese Government Bonds (namely the 2063 and 2056 issues) also had a negative effect. Having more sensitivity to interest rates than the benchmark hurt returns, especially in the second half of the period. A short position in the euro detracted, too.
- The manager lowered the Sub-fund's duration for most of the period. Profits were taken in US Treasuries. Long-dated Gilts were added late in the year as bond yields rose. The manager removed the long yen position as the yen started to weaken towards the end of the year.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

General Information

Investment Adviser: Fund Size:	Newton Investment Management Limited £9.74m	
Comparative Index:	FTSE Actuaries UK Conventional Gilts Over 15 years T	
Sector:	The Investment Association UK Gilt	
Key Dates: Fund Launch	1 March 1979	
Fund Closure	15 January 2025	

Investment Objective

The Sub-fund aims to achieve income together with the potential for capital growth over the medium term (3-5 years).

Investment Policy The Sub-fund will:

- invest in fixed income securities (bonds) issued or guaranteed by the UK Government or the Governments of foreign countries or corporate bodies.

The Sub-fund may:

- invest in money market instruments, deposits, cash and near cash;

- invest more than 35% of its assets in government and public securities issued or guaranteed by a single state, local authority or public international body;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the Newton Institutional Shares 2 (Accumulation) share class of the Sub-fund returned -4.14%, net of fees, against a return of -4.69% for the FTSE Actuaries UK Conventional Gilts Over 15 Years Index.
- Investment grade corporate bonds, UK government bonds (Gilts) maturing in under 15 years, and Japanese and Australian government bonds that the benchmark did not hold, contributed positively.
- The Sub-fund's duration, which measures how sensitive it is to interest rates, was longer than that of the benchmark. This hurt returns in both the first two and the final months of the period as Gilt yields rose. It was beneficial in September and October. The main detractors were Gilts with maturity dates in the 20- to 30-year range, including 2051 and 2049 Gilt issues. Long-dated Gilts (those with maturity dates some decades in the future) with maturities of over 30 years also detracted from returns. The 2071 Gilt detracted most.
- The manager lowered the Sub-fund's duration throughout the period, particularly just ahead of the Autumn Budget announced in late October. Exposure to long-dated Gilts was reduced, with 2071 Gilts switched into 2032 Gilts. Holdings in corporate bonds and Japanese Government Bonds that the index did not hold were reduced too. However, after the marked rise in yields at the end of the year, the manager increased duration again.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

Operating Charges

	31/12/2024*	30/06/2024
Share class	%	%
Institutional Shares W (Accumulation)	0.41	0.41
Newton Institutional Shares 2 (Accumulation)	0.30	0.29

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Investment Objective

The Sub-fund aims to achieve capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest in global equities (company shares), including ordinary shares, preference shares and other equity-related securities; and

- be fully invested at all times, with typically no more than 5% of the portfolio in cash.

The Sub-fund may:

- invest in emerging markets;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Portfolio Summary

- During the six months under review, the B Shares (Accumulation) share class of the Sub-fund rose by 1.31%, net of fees, versus 7.19% for its benchmark, the MSCI World NR Index.
- Owning more shares in the healthcare sector than the benchmark index detracted most from performance. The sector was weak during
 the six-month period, particularly after the re-election of Donald Trump as US president. President Trump quickly appointed a US health
 secretary known to be sceptical of the pharmaceutical business.
- The manager's choice of stocks in the information technology and consumer discretionary sectors was unhelpful too. Owning fewer shares in the financials sector than the index also dragged on performance.
- On the other hand, not holding any shares in the energy sector helped the Sub-fund make a positive return. The sector was somewhat subdued in the latter half of the year as the oil price stayed low.
- By region, the manager's choice of company shares from Europe, the US, Canada, and Japan dented returns. The Sub-fund's shares in businesses from the UK and emerging markets did better than the benchmark's holdings from these areas and so helped the Sub-fund make a positive return.
- The manager bought shares of payments provider Visa during the period. The Sub-fund's shares in Nestle and Prudential were sold.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales
Visa	Nestle
Moody's	Prudential
Copart	Taiwan Semiconductor Manufacturing ADR
ASML	Amphenol
AIA	Compass
Stryker	Costco Wholesale
LVMH Moet Hennessy Louis Vuitton	O'Reilly Automotive
	Canadian National Railway
	Experian
	Booking

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Key Dates: Fund Launch

4 November 1986

Investment Objective

The Sub-fund aims to achieve a balance between income and capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest at least 75% of the portfolio in UK and international securities across a range of global asset classes including, without limitation, equities (company shares), fixed income securities (bonds), infrastructure, renewable energy, property, commodities and near cash;

- gain exposure to alternative asset classes, such as infrastructure, renewable energy, property and commodities, through stock exchange listed investments, other transferable securities and/or collective investment schemes; and

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income.

The Sub-fund may:

- invest in emerging markets;

- invest in money market instruments, deposits, cash and near cash;

- invest in bonds rated below investment grade (BBB-) by Standard & Poor's (or equivalent recognised rating agency);

- invest in Contingent Convertible Securities (CoCo's); and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

•Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund returned 2.14%, net of fees, compared with 2.81% for the IA Mixed Investment 40-85% Shares NR benchmark.
- Being less invested in bonds (debt issued by governments or companies) than the benchmark proved a benefit. In addition to this, some of
 the Sub-fund's company shares did very well. One of the best performers was energy firm GE Vernova, thanks to a positive earnings
 report. Shares in financial stocks Goldman Sachs and Mastercard were also strong. Banks did well thanks to US President Trump's calls for
 looser regulations in the industry.
- Overall, however, stock-picking had a negative effect. This was also the case for the manager's choice of bonds.
- At the stock level, the weakest performers were the Sub-fund's shares of technology firms Applied Materials and Samsung Electronics. Not owning any shares in Tesla, which performed well in the six months under review, also dented returns.
- The manager purchased shares of Amazon.com due to improving profitability in its retail business. Other key purchases included Zoetis, which makes medicine for pets, and Chinese fast-food chain operator Yum China. In bonds, the manager increased the Sub-fund's duration, which makes the Sub-fund more sensitive to changes in interest rates. Shares of Ecolab, Albemarle, Dassault Systemes and Diageo were sold.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Interim Report for the period ended 31 December 2024

Interim Report & Accounts - BNY Mellon Multi-Asset Diversified Return Fund

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Newton Investment Management Limited
Fund Size:	£402.72m
Comparative Index:	SONIA (30-day compounded) + 3%
Sector:	The Investment Association Targeted Absolute Return
Key Dates: Fund Launch	27 November 2006

Investment Objective

The objective of the Sub-fund is to achieve long-term capital growth over a period of at least 5 years from a portfolio diversified across a range of assets. The Sub-fund is managed to seek a return in excess of cash (SONIA (30-day compounded)) + 3% per annum over five years before fees. In doing so, it aims to achieve a positive return on a rolling three year basis (meaning a period of three years, no matter which day you start on). However, a positive return is not guaranteed and a capital loss may occur.

Investment Policy The Sub-fund will:

- invest anywhere in the world:

- follow a broad multi-asset portfolio approach;

- invest in company shares (i.e. equities) and similar investments;

- invest in bonds, issued by governments and companies, with high and low credit ratings (i.e. investment grade and/or sub-investment grade bonds as rated by Standard and Poor's or similar agencies);

- gain exposure to commodities (e.g. gold), property and other alternative investments through stock exchange listed investments and/or collective investment schemes;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- limit investment in other collective investment schemes to 10%.

The Sub-fund may:

- invest in emerging markets;

- invest more than 35% of its assets in government and public securities issued or guaranteed by a single state, local authority or public international body;

- invest in Contingent Convertible Securities (CoCo's);

- invest significantly in cash and cash-like investments; and

- invest in closed-ended funds which have their own operating costs. These operating costs are not included in the ongoing charges but are reflected in the Sub-fund's performance.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

*Effective 1 October 2021, the benchmark changed from the London Interbank Offered Rate (LIBOR) to the Sterling Overnight Index Average (SONIA). All benchmark past performance prior to this date was calculated against LIBOR.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Interim Report & Accounts - BNY Mellon Multi-Asset Diversified Return Fund Fund Report (continued)

Portfolio Summary

- Over the six-month review period, the B Shares (Accumulation) share class of the Sub-fund generated a return of -0.05%, net of fees, against 3.14% for the SONIA (30-day compounded) +3% benchmark.
- The Sub-fund's positions in alternatives (assets such as real estate and commodities) detracted from its returns. Holdings in Pershing Square and Gresham House Energy Storage Fund were also weak. In equities, the holdings in technology stocks Samsung Electronics and Applied Materials weighed on performance. Shares in oil and gas firms Shell and Marathon Petroleum were weak too.
- On the positive side, the Sub-fund's holdings in shares did well overall. Among the top contributors were UK stocks such as British American Tobacco and Barclays. The Sub-fund also had good returns from two financial stocks: Ping An Insurance of China and CME. Currency hedging worked well too. This is used to protect the Sub-fund from sharp currency moves.
- The manager added shares in Amazon.com to the Sub-fund as the profitability of its retail division looks set to improve. A stake in Samsung SDI was increased in light of the strong outlook for its batteries from companies that make electric cars in Europe. Among the other new buys were Zoetis and Diamondback Energy. Late in the period, the manager raised the Sub-fund's duration (sensitivity to interest rates) through the purchase of long-dated Gilts (debt issued by the UK government with maturities some decades in the future). Sales included Dassault Systemes and Hipgnosis Songs Fund.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Investment Objective

The Sub-fund aims to achieve a balance between income and capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest anywhere in the world:

- invest at least 75% of the portfolio across a range of global asset classes including, without limitation, equities (company shares), fixed income (bonds), infrastructure, renewable energy, property, commodities and near cash; and

- gain exposure to alternative asset classes, such as infrastructure, renewable energy, property and commodities, through stock exchange listed investments, other transferable securities and/or collective investment schemes.

The Sub-fund may:

- invest in emerging markets;
- invest in money market instruments, deposits, cash and near cash;
- invest in bonds rated below investment grade (BBB-) by Standard & Poor's (or equivalent recognised rating agency);
- invest in Contingent Convertible Securities (CoCo's);

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

*Effective 1 October 2021, the benchmark changed from the London Interbank Offered Rate (LIBOR) to the Sterling Overnight Index Average (SONIA). All benchmark past performance prior to this date was calculated against LIBOR.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the Institutional W Shares (Accumulation) share class of the Sub-fund produced a return of 2.26%, net of fees, against a return of 3.26% from the benchmark composite index, comprising 37.5% FTSE All-Share TR Index, 37.5% FTSE World ex UK TR Index, 20% FTSE Actuaries UK Conventional Gilts All Stocks TR Index, and 5% 7-Day Compounded SONIA.
- The Sub-fund's performance was helped by the bonds the manager chose to invest in. Being less invested in UK bonds than the benchmark was also positive, as was holding fewer long-dated bonds (those with maturity dates many years in the future).
- Overall, the Sub-fund's holdings in company shares had a negative effect on its returns. In equities, the holdings in technology stocks Samsung Electronics and Applied Materials weighed on performance. Not holding Tesla, which makes electric cars, hurt returns too. Its stock price performed well on CEO Elon Musk's close relationship with Donald Trump.
- The holding in energy firm GE Vernova did well. The company could benefit from strong demand. Shares in technology company SAP rose on good results.
- The manager added shares in Amazon.com; it looks set to improve its profits from retail. To increase exposure to the Chinese consumer, a new holding was bought in fast food operator Yum China. The holdings in chemical firm Albemarle and drinks company Diageo were sold. The manager also sold out of green technology company Ecolab after strong performance.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Newton Institutional Shares 3 (Accumulation)	0.50	0.50
Newton Institutional Shares 3 (Income)	0.50	0.50

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

General Information

Investment Adviser: Fund Size:	Newton Investment Management Limited £2,258.27m
Comparative Index:	The Investment Association Flexible Investment NR
Sector:	The Investment Association Flexible Investment

Key Dates: Fund Launch

16 March 1990

Investment Objective

The Sub-fund aims to achieve capital growth and income over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest at least 75% of the portfolio in UK and international securities across a range of global asset classes including, without limitation, equities (company shares), fixed income (bonds), infrastructure, renewable energy, property, commodities and near cash; and

- gain exposure to alternative asset classes, such as infrastructure, renewable energy, property and commodities, through stock exchange listed investments, other transferable securities and/or collective investment schemes.

The Sub-fund may:

- invest in emerging markets;

- invest in money market instruments, deposits, cash and near cash;

- invest in bonds rated below investment grade (BBB-) by Standard & Poor's (or equivalent recognised rating agency);

- invest in Contingent Convertible Securities (CoCo's);

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income;

- invest up to 10% in other collective investment schemes; and

- invest in closed-ended funds which have their own operating costs. These operating costs are not included in the ongoing charges but are reflected in the Sub-fund's performance.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Fund Report

(continued)

Portfolio Summary

- In the six months under review, the B shares (Accumulation) share class of the Sub-fund generated a return of 1.29%, net of fees, versus 2.74% for the UK Investment Association Flexible Investment NR Sector average.
- Being less invested in bonds (debt issued by governments or companies) than the benchmark proved a benefit. In addition to this, some of
 the Sub-fund's company shares did very well. One of the best performers was energy firm GE Vernova, thanks to a positive earnings
 report. Shares in financial stocks Barclays, Ping An Insurance of China and Goldman Sachs were also strong.
- Overall, however, stock-picking had a negative effect. This was also the case for the manager's choice of bonds.
- At the stock level, the weakest performers were the Sub-fund's shares of technology firms Applied Materials, Samsung Electronics, Microsoft and SK Hynix. Not owning any shares in Tesla, which did very well in the six months under review, also dented returns.
- The manager bought some shares of industrial company Hubbell, which stands to benefit from the ongoing push for cleaner energy. Other key purchases included Zoetis, which makes medicine for pets; Chinese fast-food chain operator Yum China; London Stock Exchange; Amazon.com; and GE Vernova.
- The manager sold shares of Ecolab, Dassault Systemes, Diageo, and Novonesis.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales
Amazon.com	Diageo
Yum China	Toll Brothers
Zoetis	Dassault Systemes
Hubbell	Trane Technologies
JD.com 0.25% 1/6/2029	Microsoft
GE Vernova	Ecolab
ANLLIAN Capital 0% 5/2/2025	Accenture
United Kingdom Gilt 3.5% 22/1/2045	Eli Lilly
London Stock Exchange	Albemarle
Samsung Electronics Preference Shares	Novonesis (Novozymes) B

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£232.64m
Comparative Index:	60% MSCI AC World NR, 40% ICE BofA Global Broad Market GBP Hedged
Sector:	The Investment Association Mixed Investment 40-85% Shares
Key Dates: Fund Launch	4 February 2015
Rey Dates. I and Edunen	+ 1 CD1 dd1 y 2015

Investment Objective

The Sub-fund aims to achieve income together with the potential for capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest at least 75% of the portfolio in UK and international securities across a range of global asset classes including, without limitation, equities (company shares), fixed income (bonds), infrastructure, renewable energy, property, commodities and near cash;

- gain exposure to alternative asset classes, such as infrastructure, renewable energy, property and commodities, through stock exchange listed investments, other transferable securities and/or collective investment schemes; and

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income.

The Sub-fund may:

- invest in emerging markets;

- invest in money markets instruments, deposits, cash and near cash;

- invest more than 35% of its assets in government and public securities issued or guaranteed by a single state, local authority or public international body;

- invest in bonds rated below investment grade (BBB-) by Standard & Poor's (or equivalent recognised rating agency);

- invest in Contingent Convertible Securities (CoCo's);

- invest up to 10% in other collective investment schemes; and

- invest in closed-ended funds which have their own operating costs. These operating costs are not included in the ongoing charges but are reflected in the Sub-fund's performance.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Fund Report

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund produced a return of -0.31%, net of fees, against 5.02% for the benchmark a composite index, comprising 60% MSCI AC World NR Index and 40% ICE BofA Global Broad Market GBP Hedged Index, a comparator the manager utilises when measuring the Fund's income yield.
- Investments in alternative assets (like real estate and commodities) detracted from returns. A holding in Gresham House Energy Storage Fund was weak. Within equities, shares in technology stocks Samsung Electronics and Applied Materials weighed on results. Oil and gas firms Shell and Marathon Petroleum were also weak.
- Other company shares helped to stem losses, though. The Sub-fund's shares of certain UK stocks, such as British American Tobacco and Barclays, performed well. Shares in select financial stocks, namely Ping An Insurance of China and CME, did well, too. Currency hedging (which is used to protect the Sub-fund from sharp currency moves) also added value.
- The manager added to shares in Samsung SDI owing to strong demand for its batteries, which are used in electric vehicles. The manager also bought shares in technical services provider SPIE and Gore Street Energy Storage Fund. Duration, which measures the Sub-fund's sensitivity to interest rates, was upped late in the year through the purchase of long-dated Gilts (UK government bonds with maturity dates some decades in the future). The manager sold the Sub-fund's shares in Albemarle to fund the increase in Samsung SDI.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales		
United Kingdom Gilt 3.5% 22/1/2045	United States Treasury Notes 1.125% 15/1/2025		
SPIE	Nationwide Building Society 5.875% Perpetual		
CME	Housing New Zealand 3.36% 12/6/2025		
Phoenix	Applied Materials		
Greencoat UK Wind	Ferguson Enterprises

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Multi-Asset Moderate Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Newton Investment Management Limited
Fund Size:	£47.28m
Comparative Index:	The Investment Association Mixed Investment 20-60% Shares NR
Sector:	The Investment Association Mixed Investment 20-60% Shares
Key Dates: Fund Launch	30 August 2023

Investment Objective

The Sub-fund aims to achieve capital growth and income over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest in a diversified portfolio of UK and international securities across a broad range of diversified asset classes, including equities (company shares), fixed interest securities (bonds), alternative asset classes (such as infrastructure, renewable energy, property, commodities), currencies, cash, near cash, deposits, warrants and approved money market instruments to provide a moderate level of risk and commensurate return;

- gain exposure to assets through a combination of transferable securities, collective investment schemes and derivatives;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- invest between 20-60% of its asset value in equities.

The Sub-fund may:

- invest in emerging markets;

- invest significantly in cash and cash-like investments;

- invest more than 35% of its Net Asset Value (NAV) in government and public securities issued or guaranteed by a single state, local authority or public international body;

- maintain a minimum of 30% of its Net Asset Value (NAV) in fixed interest securities and currencies;

- invest up to 15% of its Net Asset Value (NAV) in closed end funds;

- invest up to 10% of its Net Asset Value (NAV) in other collective investment schemes;

- invest up to 10% of its Net Asset Value (NAV) in contingent convertible securities (CoCo's); and

- invest in closed-ended funds which have their own operating costs. These operating costs are not included in the ongoing charges but are reflected in the Sub-fund's performance.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Fund Report

(continued)

.

Portfolio Summary

- In the six months under review, B Shares (Accumulation) share class of the Sub-fund generated a return of 1.02%, net of fees, against 2.36% for the UK Investment Association's Mixed Investment 20-60% Shares NR Sector average.
- Being more invested in company shares than the benchmark helped the Sub-fund make a positive return. Some of these shares performed very well. One of the best performers was energy firm GE Vernova, thanks to positive earnings reports. Shares in financial stocks Goldman Sachs and Zurich Insurance were also strong.
- Overall, however, stock-picking had a negative effect. This was also the case for the manager's choice of bonds (debt issued by governments or companies).
- At the stock level, the weakest performers were the Sub-fund's shares of technology firms Applied Materials and Samsung Electronics. Not owning any shares in Tesla, which did very well in the six months under review, also detracted from returns.
- The manager bought shares of GE Vernova, which proved wise. The firm could continue to benefit from the ongoing rise in power demand and transition to cleaner energy. Other key purchases included Zoetis, which makes medicine for pets; insurance firm Phoenix; electrical supplier SPIE and Amazon.com. Positions in Diageo and Eli Lilly were both sold.
- In fixed income, the manager increased the Sub-fund's duration, which makes it more sensitive to changes in interest rates. The manager bought UK and US government bonds with maturity dates further in the future.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon Real Return Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Newton Investment Management Limited
Fund Size:	£2,379.93m
Comparative Index:	SONIA (30-day compounded) + 4%
Sector:	The Investment Association Targeted Absolute Return
Key Dates: Fund Launch	1 September 1993

Investment Objective

The Sub-fund seeks to deliver positive returns on a rolling 3 year basis after fees. The Sub-fund aims to deliver positive returns before fees within a range of cash (SONIA (30-day compounded)) on a rolling 3 year basis and cash (SONIA (30-day compounded)) + 4% per annum on a rolling 5 year basis (meaning a period of three years or five years respectively, no matter which day you start on). However, positive returns are not guaranteed and a capital loss may occur.

Investment Policy The Sub-fund will:

- invest anywhere in the world:

- follow a broad 'multi-asset' portfolio approach (e.g. company shares (i.e. equities) and similar investments, bonds and similar debt investments and cash);

- invest in bonds, issued by governments and companies, with high and low credit ratings (i.e. investment grade and/or sub-investment grade bonds as rated by Standard and Poor's or similar agencies);

- gain exposure to currencies, commodities (e.g. gold) and property through stock exchange listed investments and/or derivatives;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- limit investment in other collective investment schemes to 10%.

The Sub-fund may:

- invest in emerging markets;

- invest more than 35% of its assets in government and public securities issued or guaranteed by a single state, local authority or public international body;

- allocate up to 8.5% of its assets to alternative risk premia strategies. Such strategies seek to gain exposure to risk premia (the return or reward an investor earns to bear risk) through instruments such as structured notes, derivative instruments and collective investment schemes;

- invest in Contingent Convertible Securities (CoCo's);

- invest significantly in cash and cash-like investments; and

- invest in closed-ended funds which have their own operating costs. These operating costs are not included in the ongoing charges but are reflected in the Sub-fund's performance.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

*Effective 1 October 2021, the benchmark changed from the London Interbank Offered Rate (LIBOR) to the Sterling Overnight Index Average (SONIA). All benchmark past performance prior to this date was calculated against LIBOR.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Fund Report (continued)

Portfolio Summary

- Over the six-month period under review, the B Shares (Accumulation) share class of the Sub-fund generated a return of 2.11%, compared with a return of 3.62% for the SONIA (30-day compounded) +4%, both in sterling terms.
- The Sub-fund's return was driven by its 'return-seeking' core. This consists of shares, bonds issued by companies. Shares performed well. The Sub-fund was helped by strength in companies that were benefiting from optimism about artificial intelligence. Among these were Apple and Taiwan Semiconductor Manufacturing. Detractors included Lam Research, which fell back after a strong first half of 2024, and Samsung Electronics, on sluggishness in its core market and competition from China.
- Alternatives did well too. The strongest returns came from specialist lender BioPharma Credit, while renewable energy assets weakened slightly. Corporate bonds also performed well, helped by the 'risk-on' (market environment where investors are willing to take on more risk in their investments) environment over much of the period.
- The Sub-fund's stabilising layer, which aims to reduce volatility, had a positive effect on returns, though less so than the core. Here, holdings in cash and gold helped the Sub-fund's returns. As central banks cut interest rates and geopolitical concerns persisted, gold performed strongly. On the other side, the Sub-fund had derivatives in place to protect against falls in share prices. These instruments hurt performance as stocks did well over the six months.
- Over the period, the manager reduced the size of the Sub-fund's 'return-seeking' core. In the stabilising layer, the manager added UK Gilts, which looked more attractive on higher yields. After its very strong performance, the holding in gold was reduced.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon Sustainable European Opportunities Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£137.03m
Comparative Index:	FTSE World Europe ex UK TR
Sector:	The Investment Association Europe ex UK

Key Dates: Fund Launch

1 June 1987

Investment Objective

The Sub-fund aims to achieve capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest at least 75% of its assets in a concentrated portfolio of continental European companies that meet the Investment Manager's sustainability criteria, where environmental, social, governance ("ESG") considerations are an integral part of the criteria. The Investment Manager's sustainability criteria exclude certain companies and involve other general and company level ESG-related analysis of a company's activities;

- invest in continental Europe (excluding the UK); and

- invest in equities (company shares), including ordinary shares, preference shares and other equity-related securities.

The Sub-fund may:

- invest in European emerging market countries;

- invest in money market instruments, deposits, cash and near cash;

- hold warrants, convertible bonds and partly paid securities where these have been acquired by the Sub-fund as a result of corporate actions;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% of its assets in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Interim Report & Accounts - BNY Mellon Sustainable European Opportunities Fund Fund Report (continued)

(continueu)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund produced a return of -4.65%, net of fees, against a return of -3.82% for the FTSE World Europe ex UK TR Index.
- The Sub-fund's positions in the healthcare and technology sectors were the biggest detractors from performance. In healthcare, shares of Icon and Novo Nordisk detracted, but this was partially offset by strength in Belgian pharmaceutical company UCB. Shares of ICON were hurt by earnings guidance that was weaker than the market was expecting. Shares of Novo Nordisk fell when the firm announced that testing results for the next version of its obesity drug were not as encouraging as expected. UCB continued to publish very strong prescription results for its core psoriasis drug.
- Within the technology space, ASML and ASM International, which make critical machinery for chip makers, suffered when their earnings did not meet the market's high expectations.
- On the other hand, company shares in the industrials and consumer discretionary sectors did well. In industrials, Cie de Saint-Gobain and Bureau Veritas performed strongly. The Sub-fund's holding in Industria de Diseno Textil, a fast-fashion clothing business based in Spain, did well; all the companies it owns beat earnings expectations.
- New positions in SPIE and Schott Pharma were established. SPIE is an electrical services provider. The firm could benefit from electrification trends stemming from the energy transition. Schott Pharma has a strong position in the drug delivery business. The manager also added to the Sub-fund's holdings in Siemens, Novartis, E.ON and Swedbank.
- Positions in Lonza and Smurfit Westrock were sold following strong share-price performance.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

The IA SORP requires comparative figures for the end of the half yearly period of the prior year for the above statement. For interim financial statements this will result in the closing comparative net assets not being equal to net assets at the start of the current period as these are not consecutive periods.

BNY Mellon Investment Funds

BNY Mellon Sustainable Global Dynamic Bond Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Newton Investment Management Limited
Fund Size:	£233.58m
Comparative Index:	SONIA (30-day compounded) + 2%
Sector:	The Investment Association Targeted Absolute Return
Key Dates: Fund Launch	30 January 2020

Investment Objective

The Sub-fund aims to achieve income and capital growth over the medium term (3-5 years). The Sub-fund is managed to seek a minimum return of cash SONIA (30-day compounded) + 2% per annum over five years before fees. In doing so, it aims to achieve a positive return on a rolling three year basis (meaning a period of three years, no matter which day you start on). However, a positive return is not guaranteed and a capital loss may occur.

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest in emerging markets;

- invest predominantly (meaning at least 75% of the portfolio) in global fixed interest securities (bonds) issued by governments, companies and other public entities that meet the Investment Manager's sustainability criteria, where environmental, social and governance ("ESG") considerations are an integral part of the criteria. The Investment Manager's sustainability criteria exclude companies that participate in certain activities and involve other general and company level ESG-related analysis of a company's activities;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- limit investment in other collective investment schemes to 10%.

The Sub-fund may:

- invest more than 35% of its assets in government and public securities (those issued or guaranteed by a single state, local authority or public international body);

- invest in bonds rated below investment grade (BBB-) by Standard & Poor's (or equivalent recognised rating agency); and

- invest significantly in cash and cash-like securities in extreme market conditions.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

*Effective 1 October 2021, the benchmark changed from the London Interbank Offered Rate (LIBOR) to the Sterling Overnight Index Average (SONIA). All benchmark past performance prior to this date was calculated against LIBOR.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund generated a return of 4.48%, against a return of 2.66% for the SONIA (30-day compounded) +2% benchmark.
- The Sub-fund's high yield bonds (low credit-rated bonds issued by companies) added the most to returns. Within that, a bond issued by communications firm Windstream performed well. Investment grade bonds (high rated bonds issued by companies) did well, too. The Irish bank AIB was one of the Sub-fund's best positions.
- The Sub-fund also had good contributions from currency hedging (used to protect against sharp currency moves) and derivatives (used to protect against moves in underlying assets).
- As a group, the Sub-fund's emerging market government bonds (debt issued by governments) had a neutral effect on its performance. Bonds from South Africa and Peru generated some strong returns. On the other hand, the Sub-fund's main detractor was a Brazilian government bond.
- The Sub-fund's government bonds also contributed to the positive performance. The Sub-fund's physical bonds weighed on returns, but
 this was more than offset by its short positions through futures and options in US Treasuries, German Bunds and French government
 bonds.
- Early in the period, the manager reduced the Sub-fund's sensitivity to interest rates before raising it in the last two months of the year. The manager also raised exposure to government bonds from Poland and Brazil. In the last three months of the year, the manager added some new corporate bonds.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon Sustainable Global Emerging Markets Fund

Interim Report for the period ended 31 December 2024

Fund Report for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£8.53m
Comparative Index:	MSCI Emerging Markets NR
Sector:	The Investment Association Global Emerging Markets
Key Dates: Fund Launch	16 December 2021
Fund Closure	15 January 2025

Investment Objective

The Sub-fund aims to achieve capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest in emerging markets globally;

- invest at least 75% of the portfolio in equities (company shares) and equity-related securities in companies listed, traded, located or deriving at least half of their revenue or income from emerging market countries across the world. Emerging market countries are countries, which are progressing towards becoming advanced, usually displayed by some development in financial markets, the existence of some form of stock exchange and a regulatory body; and

- invest in companies that meet the Investment Manager's sustainability criteria, where environmental, social and governance ("ESG") considerations are an integral part of the criteria. The Investment Manager's sustainability criteria exclude companies that participate in certain activities and involve other general and company level ESG-related analysis of a company's activities.

The Sub-fund may:

- invest in money market instruments, deposits, cash and near cash;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund may also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes (including but not limited to another Sub-Fund or Sub-Funds of the Company or BNY Mellon funds).

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Interim Report & Accounts - BNY Mellon Sustainable Global Emerging Markets Fund Fund Report (continued)

Portfolio Summary

- In the six months under review, the Sub-fund's Institutional Shares W (Accumulation) share class returned 1.14%, net of fees, against a return of 0.95% for the MSCI Emerging Markets NR Index.
- The manager's sector preferences had a positive effect on returns. Not being invested in the energy sector proved a benefit. Being less
 invested in the materials sector than the benchmark also helped. In addition, having only a small stake in Korean stocks added value.
- At the stock level, shares in industrial companies Contemporary Amperex Technology and Sungrow Power Supply surged. Not owning shares in Samsung Electronics, which slumped, was a positive.
- Overall stock selection detracted, however, especially in financials. Within the sector, shares in Chailease and AU Small Finance Bank were weak. By region, the Sub-fund's Chinese stocks weighed on returns. Shares of Kanzhun were unhelpful. Not owning positions in Xiaomi and Meituan also dented returns.
- The manager bought shares of a few technology stocks, including MediaTek and Delta Electronics. Shares of Contemporary Amperex Technology, NARI Technology and Supreme Industries were added, too. The manager sold shares of Samsung SDI, believing that its prospects for growth are fading. Profits were taken in SBI Life Insurance, Raia Drogasil and Bank Rakyat Indonesia.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon Sustainable Global Equity Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£7.80m
Comparative Index:	MSCI AC World NR GBP
Sector:	The Investment Association Global Equity
Key Dates: Fund Launch	22 January 2018
Fund Closure	15 January 2025

Investment Objective

The Sub-fund aims to achieve capital growth and income over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest at least 75% of its assets in a concentrated portfolio of global equities (company shares); and

- invest in companies that meet the Investment Manager's sustainability criteria, where environmental, social and governance ("ESG") considerations are an integral part of the criteria. The Investment Manager's sustainability criteria exclude companies that participate in certain activities and involve other general and company level ESG-related analysis of a company's activities.

The Sub-fund may:

- invest in emerging markets;

- invest in money market instruments, deposits, cash and near cash;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

Portfolio Summary

- In the six months under review, the Institutional Shares W (Accumulation) share class of the Sub-fund returned 4.66%, net of fees, against a return of 6.55% for the MSCI AC World NR Index.
- The manager's choice of industrials stocks added to returns. Within the sector, shares in US energy solutions provider GE Vernova
 performed well thanks to expectations of rising demand for energy. The Sub-fund's financials stocks also performed strongly. These
 included Mastercard, JP Morgan Chase and Goldman Sachs. Not owning any shares in the traditional energy sector benefited returns.
 Stocks in this area performed poorly as the oil price fell.
- Stock selection detracted from returns in the information technology, healthcare and communication services sectors. At the stock level, not owning shares in Tesla hurt returns. After performing strongly at the start of the year, shares in technology firm ASML slipped. Shares of healthcare stocks ICON, Edwards Lifesciences and AstraZeneca all weakened on the news that the preferred candidate for US health secretary was reported to be skeptical about the use of vaccines.
- The manager bought some shares of eyecare specialist Alcon, which could benefit from upgrades to its core eye-testing equipment in the years to come. US electrical manufacturer Hubbell was purchased, too. Other buys included shares of Tetra Tech, HSBC and CME.
- Shares in Ecolab, Sony and Lonza were sold when their share prices were strong. The Sub-fund's holdings in Technip Energies and Novonesis were exited in order to fund better opportunities elsewhere.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales
Alcon	Microsoft

Institutional Shares W (Income)	0.94	0.92
Newton X Shares (Income)	0.05	0.05

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Fund Report for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£228.08m
Comparative Index:	FTSE World TR
Sector:	The Investment Association Global Equity Income

Key Dates: Fund Launch

18 July 2019

Investment Objective

The Sub-fund aims to achieve income together with the potential for capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest anywhere in the world;

- invest at least 75% of the portfolio in equities (company shares), including ordinary shares, preference shares and other equity-related securities;

- invest in companies of all sizes (e.g. small, medium and large companies) and in any industry (e.g. pharmaceuticals, financials); and

- typically invest in fewer than 70 companies that meet the Investment Manager's sustainability criteria, where environmental, social and governance ("ESG") considerations are an integral part of the criteria. The Investment Manager's sustainability criteria exclude companies that participate in certain activities and involve other general and company level ESG-related analysis of a company's activities.

The Sub-fund may:

- invest in emerging markets;

- invest in money market instruments, deposits, cash and near cash;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income;

- invest up to 10% in other collective investment schemes; and

- invest in closed-ended funds which have their own operating costs. These operating costs are not included in the ongoing charges but are reflected in the Sub-fund's performance.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Interim Report & Accounts - BNY Mellon Sustainable Global Equity Income Fund Fund Report (continued)

Portfolio Summary

Durchases

- In the six months under review, the Institutional Shares W (Accumulation) share class of the Sub-fund rose by 5.80%, net of fees, versus 6.73% from the FTSE World TR Index.
- Owning shares in US firms helped the Sub-fund make a positive return. The top seven holdings were all in companies from the US. They
 included biotechnology firm Gilead Sciences and network equipment firm Cisco Systems. Stock-picking in the healthcare sector also
 helped. Beyond the US, UK stocks GSK and AstraZeneca did well.
- The manager's decision to be more invested in developed Europe than the benchmark weighed on returns.
- Decisions about which consumer discretionary stocks to invest in dented returns, too. Shares of retailer Wal-Mart de Mexico did poorly. Not owning any shares in Tesla or Apple hurt returns; Tesla did especially well in the latter half of the year. A holding in technology firm Samsung Electronics also proved negative.
- The manager bought shares in Hong Kong Exchanges & Clearing, which should be a beneficiary of efforts by the government to stimulate the Chinese economy. Shares of Swedish industrial companies SKF and Sandvik were purchased, too. Other additions were Bristol-Myers Squibb, Universal Music and ASE Technology.
- In the final three months of the year, the manager sold or reduced positions in JP Morgan Chase, Zurich Insurance, Proctor & Gamble, Paychex and Infosys.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

Calar

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon Sustainable Real Return Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Newton Investment Management Limited
Fund Size:	£275.11m
Comparative Index:	SONIA (30-day compounded) + 4%
Sector:	The Investment Association Targeted Absolute Return
Key Dates: Fund Launch	24 April 2018

Investment Objective

The Sub-fund seeks to deliver positive returns on a rolling 3 year basis after fees. The Sub-fund aims to deliver positive returns before fees within a range of cash (SONIA (30-day compounded)) on a rolling 3 year basis and cash (SONIA (30-day compounded)) + 4% per annum on a rolling 5 year basis (meaning a period of three years or five years respectively, no matter which day you start on). However, positive returns are not guaranteed and a capital loss may occur.

Investment Policy

The Sub-fund will:

- invest predominantly, meaning at least 75%, in a portfolio of UK and international securities;

- invest in companies that meet the Investment Manager's sustainability criteria, where environmental, social and governance ("ESG") considerations are an integral part of the criteria. The Investment Manager's sustainability criteria exclude companies that participate in certain activities and involve other general and company level ESG-related analysis of a company's activities;

- follow a broad 'multi-asset' portfolio approach (e.g. company shares (i.e. equities) and similar investments, bonds and similar debt investments and cash);

- gain exposure to property or commodities through exchange listed securities and/or collective investment schemes;

- invest in bonds, issued by governments and companies, with high and low credit ratings (i.e. investment grade and/or sub-investment grade bonds as rated by Standard and Poor's or similar agencies);

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- limit investment in other collective investment schemes to 10% (including but not limited to another Sub-Fund or Sub-Funds of the Company).

The Sub-fund may:

- invest in emerging markets;

- invest more than 35% of its assets in government and public securities issued or guaranteed by a single state, local authority or public international body;

- allocate up to 8.5% of its assets to alternative risk premia strategies. Such strategies seek to gain exposure to risk premia (the return or reward an investor earns to bear risk) through instruments such as structured notes, derivative instruments and collective investment schemes;

- invest in Contingent Convertible Securities (CoCo's); and

- invest significantly in cash and cash-like investments.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

*Effective 1 October 2021, the benchmark changed from the London Interbank Offered Rate (LIBOR) to the Sterling Overnight Index Average (SONIA). All benchmark past performance prior to this date was calculated against LIBOR.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- Over the six-month period under review, the Sub-fund's B Shares (Accumulation) share class generated a return of 0.90%, net of fees, compared with a return of 3.62% for the SONIA (30- day compounded) +4%.
- The Sub-fund's return was driven by its 'return-seeking' core. This consists of shares, bonds issued by companies and alternative investments. Shares performed well. The Sub-fund was helped by strength in companies that were benefiting from optimism about artificial intelligence. Among these were Taiwan Semiconductor Manufacturing and Apple. Detractors included Lam Research, which fell back after a strong first half of 2024, and Samsung Electronics, on sluggishness in its core market and competition from China.
- Alternatives did well too. Specialist lender BioPharma Credit made a good contribution while renewable energy assets weakened slightly. Corporate bonds also performed well, helped by the 'risk-on' (market environment where investors are willing to take on more risk in their investments) environment over much of the period.
- The Sub-fund's stabilising layer, which aims to reduce volatility, had a positive effect on returns, though less so than the core. Here, holdings in cash and gold helped returns. As central banks cut interest rates and geopolitical concerns persisted, gold performed strongly. On the other side, the Sub-fund had derivatives in place to protect against falls in share prices. These instruments hurt performance as stocks did well over the six months.
- Over the period, the manager reduced the size of the Sub-fund's 'return-seeking' core. In the stabilising layer, the manager added UK Gilts, which looked more attractive on higher yields. After its very strong performance, the holding in gold was reduced.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon Sustainable UK Opportunities Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£154.38m
Comparative Index:	FTSE All-Share TR
Sector:	The Investment Association UK All Companies

Key Dates: Fund Launch

8 February 2002

Investment Objective

The Sub-fund aims to achieve capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest at least 70% of its assets in a concentrated portfolio of UK equities that meet the Investment Manager's sustainability criteria, where environmental, social, governance ("ESG") considerations are an integral part of the criteria. The Investment Manager's sustainability criteria exclude certain companies and involve other general and company level ESG-related analysis of a company's activities;

- invest in (company shares), including ordinary shares, preference shares and other equity-related securities; and

- invest in companies of all sizes (e.g. small, medium and large companies) and in any economic sector (e.g. pharmaceuticals, financials, etc).

The Sub-fund may:

- invest in money market instruments, deposits, cash and near cash;

- hold warrants, convertible bonds and partly paid securities where these have been acquired by the Sub-fund as a result of corporate actions;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Interim Report & Accounts - BNY Mellon Sustainable UK Opportunities Fund Fund Report (continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund produced a return of 2.79%, net of fees, against 1.90% for the FTSE All-Share TR Index, in sterling terms.
- Sector preferences helped the Sub-fund do better than the benchmark. Not holding energy shares helped given Royal Dutch Shell and BP
 were weak, as did owning fewer shares in the basic materials sector. Certain financial stocks, including Standard Chartered and Barclays,
 did well.
- Several stocks had a negative effect. Samsung Electronics performed poorly, as its anticipated new memory chips disappointed. The Subfund also suffered from not owning certain stocks that did well. These included British American Tobacco and Rolls-Royce, which could not be owned due to the sustainable mandate of the Sub-fund.
- The manager purchased stakes in AIA and HSBC. Both are benefiting from strong growth in Asian markets. Other buys included Smiths, Marks & Spencer and M&G.
- The manager sold the Sub-fund's holding in Pets at Home, as the company will face increasing staff costs thanks to UK tax rises.
- Shares of Danaher, ConvaTec and Genuit were also sold.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales	
HSBC	AstraZeneca	
Barclays	RELX	
Smiths	Unilever	
Phoenix	Pets at Home	
SPIE	RS	
Land	ConvaTec	
AIA	Danaher	
Anglo American	Genuit	
M&G	Prudential	
Lloyds Banking	Ashtead

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon UK Equity Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£524.25m
Comparative Index:	FTSE All-Share TR
Sector:	The Investment Association UK All Companies

Key Dates: Fund Launch

1 May 1985

Investment Objective

The Sub-fund aims to achieve capital growth and income over the long term (5 years or more).

Investment Policy

The Sub-fund will:

- invest at least 70% of the portfolio in UK equities (company shares), including ordinary shares, preference shares and other equity-related securities.

The Sub-fund may:

- invest in money market instruments, deposits, cash and near cash;

- invest in other transferable securities (including but not limited to shares of non-UK companies);

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Fund Report

(continued)

Portfolio Summary

- Over the six-month period under review, the B Shares (Accumulation) share class of the Sub-fund generated a return of 3.22%, net of fees, against a return of 1.90% for the FTSE All-Share TR Index.
- The choice of shares had a positive effect, especially in the industrials sector. The decision to invest less in basic materials also helped returns.
- The best performing company shares were banks Standard Chartered and Barclays, which benefited from higher interest rates. Shares of DS Smith were also strong, following a takeover. easyJet and Compass performed well.
- Less positively, Samsung Electronics underperformed as its new memory chips disappointed. Not holding British American Tobacco and Rolls-Royce also had a negative impact.
- Shares of BP were added. Other key additions were Dowlais, an automotive supplier, WPP, Phoenix and Premier Foods.
- Shares in RELX, Next, 3i and Cie Financiere Richemont were all sold following strong share-price performances. The manager decided to sell Nestle owing to weaker demand and cost inflation. The Sub-fund's stake in Pets at Home was sold on expectations that staffing costs could rise thanks to initiatives laid out in the Autumn Budget.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales
BP	RELX
Glencore	AstraZeneca
HSBC	Unilever
Phoenix	3i
SCOR	Diageo
WPP	Next
Hammerson	ConvaTec
BNP Paribas	Intermediate Capital
Marks & Spencer	Cie Financiere Richemont
Standard Chartered	Nestle

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

BNY Mellon UK Income Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management Limited
Fund Size:	£1,470.42m
Comparative Index:	FTSE All-Share TR Index
Sector:	The Investment Association UK Equity Income

Key Dates: Fund Launch

1 June 1987

Investment Objective

The Sub-fund aims to achieve income over an annual period together with capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest at least 70% of the portfolio in UK equities (company shares), including ordinary shares, preference shares and other equity-related securities; and

- invest in company shares targeting higher than average dividends (dividends are the proportion of company profits paid out to shareholders) and with good prospects for growth.

The Sub-fund may:

- invest in money market instruments, deposits, cash and near cash;

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the B Shares (Accumulation) share class of the Sub-fund returned 2.48%, net of fees, against a return of 1.90% for the FTSE All-Share TR Index.
- Share selection had a positive effect, especially in industrials and financials. Owning less in healthcare than the benchmark also contributed.
- The Sub-fund's best-performing shares were in banks Standard Chartered and Barclays. Shares in building companies Morgan Sindall and Balfour Beatty outperformed, with both companies reporting strong profit growth. Not owing AstraZeneca also helped relative returns.
- On the negative side, the manager's sector preferences detracted from returns. Being less invested in consumer staples and more invested in energy than the benchmark hurt performance. The share prices of Glencore and Shell weakened along with commodity prices. The position in GSK was also a negative contributor, despite the company achieving its sales and profit targets.
- BNP Paribas shares were bought, the performance of its investment bank looks to be improving. Prudential was also added due to Asian growth opportunities. Other additions were WPP, Whitbread and HUGO BOSS.
- Shares in Unilever and Solvay were sold after strong performance. Positions in Ping An Insurance, DS Smith and Julius Baer were also sold.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales
HSBC	Unilever
Whitbread	DS Smith
BNP Paribas	Lloyds Banking
WPP	Morgan Sindall
GSK	Barclays
Volkswagen preference shares	Standard Chartered
HUGO BOSS	Sanofi
SSP	Coats
B&M European Value Retail	QinetiQ
Bristol-Myers Squibb	Solvay

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Fund Report

for the period ended 31 December 2024

General Information

Investment Adviser:	Newton Investment Management North America LLC
Fund Size:	£627.87m
Comparative Index:	S&P 500 NR
Sector:	The Investment Association North America

Key Dates: Fund Launch

4 December 2018

Investment Objective

The Sub-fund aims to achieve income and capital growth over the long term (5 years or more).

Investment Policy The Sub-fund will:

- invest at least 70% in equities (company shares) and equity-related securities issued by companies which at the time of purchase have a market capitalisation of US\$2 billion or above.

The Sub-fund may:

- gain exposure to equity markets through listed real estate investment trusts ("REIT's");

- invest up to 30% of the portfolio in equity or equity-related securities of companies located in the US which are smaller in capitalisation or in equity or equity-related securities of companies which neither have their registered office in the US nor carry out a predominant part of their economic activities in the US;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 10% in other collective investment schemes.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the Institutional Shares W (Accumulation) share class of the Sub-fund rose by 8.64%, net of fees, compared with a return of 9.23% for the S&P 500 NR Index.
- Choices about which consumer staples shares to invest in helped the Sub-fund make a positive return. Shares of firms that make personal care products did well, too. Stocks from the financials sector also boosted returns.
- On the other hand, being less invested in the consumer discretionary sector than the index had a negative effect on results. Being more invested in the energy sector than the benchmark detracted a bit. Choices about which shares to invest in within that sector proved a detriment, too.
- During the six months under review, the manager bought more shares in the financials and technology sectors. The Sub-fund's positions in the healthcare and energy sectors were reduced.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

Fund Report (continued)

Portfolio Summary

- The Sub-fund merged with the BNY Mellon US Equity Income Fund on 7 September 2024.
- In the period from 1 July 2024 to the merger, the Institutional Shares W (Income) share class of the US Opportunities Fund returned -8.11%, net of fees, compared with a return of -4.51% for the Russell 3000 TR Index.
- Being more invested in the energy sector than the benchmark detracted. Choices about which shares to invest in within that sector proved a detriment, too. The Sub-fund's healthcare stocks also weighed on returns.
- Being less invested in the information technology (IT) sector than the index helped returns. Holdings in the software & semiconductors and semiconductor equipment segments of that sector did well.
- The manager bought more shares in the financials and healthcare sectors. The Sub-fund's position in the IT and consumer discretionary sectors was reduced.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

Purchases	Sales

BNY Mellon Investment Funds

Responsible Horizons Strategic Bond Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Insight Investment Management (Global) Limited
Fund Size:	£73.95m
Comparative Index:	IA Sterling Strategic Bond NR
Sector:	The Investment Association Sterling Strategic Bond
Key Dates: Fund Launch	24 August 2021

Investment Objective

The Sub-fund seeks to generate a return through a combination of income and capital returns, whilst taking environmental, social and governance ("ESG") factors into account.

Investment Policy The Sub-fund will:

- typically invest at least 80% of its assets in Sterling denominated (or hedged back to sterling) fixed or floating global fixed income securities debt securities;

- take ESG factors into account and will assess the overall suitability of an issuer based on an ESG rating and additional sustainability criteria. The Sub-fund will seek to obtain exposure to issuers with stronger ESG ratings and may therefore screen out issuers who are involved in industries/ sectors which have weaker ESG scores;

- invest at least 70% of its Net Asset Value (NAV) in corporate issuers that meet the sustainability criteria focusing on carbon reduction and positive environmental and/or social impact;

- exclude direct investment in corporate issuers with material involvement in activities the Investment Manager deems harmful from an environmental and/or social perspective; and

- limit investment in collective investment schemes to 10%.

The Sub-fund may:

- invest in bonds with low credit ratings (i.e. rated below investment grade (BBB-) by Standard and Poor's or similar agencies);

- invest in emerging markets;

- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Sub-fund's investment objective. The Sub-fund may also use derivatives with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 30% of its NAV in assets that do not meet the Investment Manager's sustainability criteria. This includes government bonds, cash, near cash asset and money market instruments (including deposits, loans), transferable securities (such as commercial paper, convertibles, and certificates of deposit), equity linked securities (such as warrants and preference stock), Collective Investment Schemes and derivatives.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the Sub-fund's Institutional W (Accumulation) share class returned 5.28%, net of fees, compared with 3.01% for the UK Investment Association Sterling Strategic Bond Sector Average.
- The manager's choice of bonds to invest in added to the Sub-fund's returns.
- Close management of the Sub-fund's investments in corporate bonds (those issued by a company as opposed to by a government) and adjusting them in response to market moves proved helpful.
- In the autumn months, bond markets gained ground as the US Federal Reserve (Fed) cut interest rates for the first time in more than four years. The manager's investments in bonds issued by banks and utilities firms performed well.
- The Sub-fund's government bonds also boosted returns, helped by the decision to favour US Treasury bonds.
- Bond markets weakened in the last three months of the year after the Fed warned the pace of interest rate cuts is likely to slow in 2025.
- The manager favoured euro-denominated corporate bonds. This helped performance, as did bonds issued by utility companies, insurers and banks.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds

Responsible Horizons UK Corporate Bond Fund

Interim Report for the period ended 31 December 2024

Fund Report

for the period ended 31 December 2024

General Information	
Investment Adviser:	Insight Investment Management (Global) Limited
Fund Size:	£31.67m
Comparative Index:	S&P iBoxx GBP Collateralized & Corporate Index
Sector:	The Investment Association £ Corporate Bond
Key Dates: Fund Launch	3 November 1997

Investment Objective

The Sub-fund seeks to generate a return through a combination of income and capital returns, whilst taking environmental, social and governance ("ESG") factors into account.

The Sub-fund targets the outperformance of the S&P iBoxx GBP Collateralized & Corporate Index after fees over any rolling three year period (meaning a period of three years, no matter which day you start on). However, performance is not guaranteed and a capital loss may occur.

Investment Policy The Sub-fund will:

- typically invest at least 80% of its assets in sterling denominated (or hedged back to sterling) investment grade (as rated by Standard and Poor's or similar agencies) corporate debt securities;

- take ESG factors into account and will assess the overall suitability of an issuer based on an ESG rating and additional sustainability criteria. The Sub-fund will seek to obtain exposure to issuers with stronger ESG ratings and may therefore screen out issuers who are involved in industries/ sectors which have weaker ESG scores;

- invest at least 80% of its Net Asset Value (NAV) in corporate issuers that meet the sustainability criteria focusing on carbon reduction and positive environmental and/or social impact;

- exclude direct investment in corporate issuers with material involvement in activities the Investment Manager deems harmful from an environmental and/or social perspective; and

- limit investment in collective investment schemes to 10%.

The Sub-fund may:

- invest in corporate bonds with low credit ratings (i.e. sub-investment grade bonds as rated by Standard and Poor's or similar agencies);

- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and

- invest up to 30% of its NAV in assets that do not meet the Investment Manager's sustainability criteria. This includes government bonds, cash, near cash asset and money market instruments (including deposits, loans), transferable securities (such as commercial paper, convertibles, and certificates of deposit), equity linked securities (such as warrants and preference stock), Collective Investment Schemes and derivatives.

Further details of the Sub-fund's Investment Objective and Policy can be found in the Prospectus.

*The investment objective, investment policy and benchmarks for the Sub-fund changed, effective 1 April 2021. Performance prior to this date was achieved under circumstances that no longer apply and is not comparable to performance achieved after this date.

^Full 5 year performance data is not available due to the share class launching/closing during the period.

Source: Lipper as at 31 December 2024 Total return, including reinvested income gross of UK tax and net of annual charges, based on net asset value. All figures are in GBP terms. The impact of an initial charge (currently not applied) can be material on the performance of your investment. Further information is available on request.

Past performance is not a guide to future performance. The value of investments and the revenue from them is not guaranteed and can fall as well as rise due to stock market and currency movements. When you sell your investment you may get back less than you originally invested.

(continued)

Portfolio Summary

- In the six months under review, the Sub-fund's B Shares (Accumulation) share class returned 2.36%, net of fees, compared with 1.95% for the S&P iBoxx Sterling Collateralised & Corporate Index, both in sterling terms.
- Keeping a close eye on the Sub-fund's investments in corporate bonds (bonds issued by a company, as opposed to by a government), and adjusting them in response to movements in the market helped yield this return.
- Corporate bonds did well during the autumn months, boosted by the prospect of interest rate cuts. Bonds issued by banks, as well as by utilities and healthcare firms, helped at this time.
- In the last three months of the year, a focus on corporate bonds with high investment grade ratings aided returns.
- The manager sold some euro-denominated bonds that had done well. A few holdings in new issues (bonds just put on the market) were purchased, notably in banks and utilities.

If you would like help understanding the definition of certain terms, please refer to our online Glossary – www.bny.com/investments/glossary.

The table below shows the top ten (or all) purchases and sales (excluding any derivative and short term cash transactions) for the period.

*The Operating Charges figure as at 31 December 2024 is an annualised figure.

The Operating Charges figure is made up of the Annual Management Charge (AMC) and other operating costs. Other operating costs include the costs for other services paid for by the Sub-fund, such as the fees paid to the Fund Accountant, Fund Administrator, Depositary, Custodian, Auditor and Regulator.

The Operating Charges figure shown is calculated on an ex-post basis over the period, whereas the Ongoing Charges figure shown in the KIID is a calculation as at a point in time, and therefore there could be immaterial differences between the two.

BNY Mellon Investment Funds - Interim Report & Accounts Investor Information

General

BNY Mellon Investment Funds (the Company) is an open-ended investment company with variable capital, incorporated in England and Wales under registered number IC 27 and authorised by the Financial Conduct Authority, with effect from 13 April 1999. BNY Mellon Fund Managers Limited is the ACD. The FCA registered number for the ACD is 122007.

The Company has been established as an "umbrella company" with different Sub-funds. The assets of each Sub-fund of the Company are treated as separate from those of every other Sub-fund and will be invested in accordance with that Sub-fund's own investment objective and policy. For the avoidance of doubt, and as at the date of this interim report, the Company is a UK protected cell company under the Open-Ended Investment Companies Regulations 2001, as amended (OEIC Regulations).

As an umbrella company, the Sub-funds of the Company are segregated portfolios of assets and, accordingly, the assets of each Sub-fund belong exclusively to that Sub-fund and shall not be used to discharge directly or indirectly the liabilities of, or claims against, any other person or body, including the Company, or any other Sub-fund, and shall not be available for any such purpose. Any liability incurred on behalf of or attributable to any Sub-fund shall be discharged solely out of the assets of that Sub-fund.

While provisions of the OEIC Regulations provide for segregated liability between Sub-funds, the concept of segregated liability is relatively new. Accordingly, where claims are brought by local creditors in foreign courts or under foreign law contracts, it is not yet known how those foreign courts will react to the relevant OEIC Regulations. There remains a possibility that a creditor might seek to attach or seize assets of one Sub-fund in satisfaction of an obligation owed in relation to another Sub-fund in a jurisdiction which would not recognise the principle of segregation of liability between Sub-funds.

Each Sub-fund will be charged with the liabilities, expenses, costs and charges of the Company attributable to that Sub-fund and within the Sub-funds charges will be allocated between share classes in accordance with the terms of issue of those share classes.

Any assets, liabilities, expenses, costs or charges not attributable to a particular Sub-fund may be allocated by the ACD in a manner which is fair to shareholders as a whole but they will normally be allocated to all Sub-funds pro rata to the value of the net assets of the relevant Sub-funds. If there is any such re-allocation the ACD will advise shareholders in the next succeeding annual report to shareholders.

Shareholders are not, however, liable for the debts of the Company. A shareholder is not liable to make any further payment to the Company after payment of the purchase price of the Shares.

Significant Events

7/9/2024 - BNY Mellon 50/50 Global Equity Fund merged with BNY Mellon Global Equity Fund.

7/9/2024 - BNY Mellon US Opportunities Fund merged with BNY Mellon US Equity Income Fund.

16/11/2024 - BNY Mellon Gilt Fund launched.

2/12/2024 - BNY Mellon FutureLegacy 3 Fund, BNY Mellon FutureLegacy 4 Fund, BNY Mellon FutureLegacy 5 Fund, BNY Mellon FutureLegacy 7 Fund, Responsible Horizons Strategic Bond Fund and Responsible Horizons UK Corporate Bond Fund - Update to fund supplements, clarifying sustainability characteristics to align with the Financial Conduct Authority's (FCA) naming and marketing criteria under Sustainability Disclosure Requirements (SDR). A two-page consumer-facing information document, outlining the key sustainability characteristics, is available on our website: www.bny.com/investments.

15/1/2025 - BNY Mellon Global Dynamic Bond Income Fund, BNY Mellon Long Gilt Fund, BNY Mellon Sustainable Global Equity Fund and BNY Mellon Sustainable Global Emerging Markets Fund closed.

Task Force on Climate-Related Disclosures (TCFD) Product Reports

Under the rules of the Financial Conduct Authority (FCA), BNY Mellon Fund Managers Limited is required to publish information annually on product level (Sub-fund) TCFD disclosures so that investors may have a better understanding of the climate-related risks and opportunities associated with this Sub-fund and its underlying holdings. This report is published in line with the requirements of the FCA and TCFD.

The individual TCFD Product Reports can be viewed on www.bny.com/investments.

Client classification notice:

Under the FCA's Conduct of Business rules we are required to classify our investors. We have classified you as a Retail Client unless otherwise notified. This means that you will have the maximum amount of protection available for complaints and compensation, and will receive information in a straightforward way. However, some clients, such as professional investors, may not necessarily have the same rights under the Financial Ombudsman Service and the Financial Services Compensation Scheme. Further details may be found on our website – www.bny.com/ investments under Client Classification.

The ACD makes available the daily prices of shares on its website: <u>www.bny.com/investments</u>. The ACD has dispensed with the requirement to convene Annual General Meetings of the Company. However, Extraordinary General Meetings will continue to take place as and when required.

Dilution Adjustment

As set out in the Prospectus, the ACD may make a dilution adjustment when calculating the price of a share. In deciding whether to make a dilution adjustment at any valuation point, the ACD will take into account the number of shares to be created or cancelled. Where the number of shares to be created exceeds the number of shares to be cancelled, the dilution adjustment to the share price will be upwards. Where the number of shares to be created exceeds the number of shares to be created, the dilution adjustment to the share price will be downwards.

Comparative Table - Prices

Highest and Lowest prices shown in the Statistics of the Sub-funds represent the 12pm MID price as released to market.

Equalisation

Equalisation applies only to units purchased during the distribution period (Group 2 units). It is the average amount of revenue included in the purchase price of all Group 2 units and is refunded to holders of these units as a return of capital.

The Synthetic Risk Reward Indicator (SRRI) was changed on the following Sub-funds:

¹The SRRI rating of USD Institutional Shares W (Accumulation) and USD Institutional Shares W (Income) are 5. All other share classes are rated 4. ²The SRRI rating of USD Institutional Shares W (Accumulation) and USD Institutional Shares W (Income) are 6. All other share classes are rated 5. ³The SRRI rating for all share classes changed from 4 to 5, effective 25 September 2024.

⁴The SRRI rating of F Shares (Accumulation), F Shares (Income), Institutional Shares W (Accumulation) and Institutional Shares W (Income) are 5. The SRRI rating of Institutional Shares W (Accumulation) USD is 6.

Please note that these amendments are not due to a change in the investment objectives of the Sub-fund, but are due to market movements during the reporting period.

We have calculated the risk and reward category, as shown above, using a method of calculation derived from EU rules. It is based on the rate at which the value of the Sub-fund has moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Sub fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment.

Sub-funds in category 3 have in the past shown moderately low volatility. With a Sub-fund of category 3, you have a moderately low risk of losing money but your chance for gains is also moderately low.

Sub-funds in category 4 have in the past shown moderate volatility. With a Sub-fund of category 4, you have a moderate risk of losing money but your chance for gains is also moderate.

Sub-funds in category 5 have in the past shown moderately high volatility. With a Sub-fund of category 5, you have a moderately high risk of losing money but your chance for gains is also moderately high.

Sub-funds in category 6 have in the past shown relatively high volatility. With a Sub-fund of category 6, you have a relatively high risk of losing money but your chance for gains is also relatively high.

For further information on the risks that may not be fully captured by the risk and reward indicator, please refer to the current Key Investor Information Document (KIID).

Investor Information

Securities Lending

The following notes apply to all Sub-funds which engaged in securities lending activity during the period.

Collateral received from counterparties in respect of securities lending transactions consists of the following:

- (1) Debt obligations and securities issued or guaranteed by the following governments, agencies and instrumentalities where rated either (i) AA or better by Standard & Poor's or (ii) AA or better by Fitch or (iii) Aa2 or better by Moody's Rating Agencies respectively: Australia; Austria; Belgium; Canada; Denmark; Finland; France; Germany; Ireland; Italy; Japan; Luxembourg; Netherlands; New Zealand; Norway; Portugal; Spain; Sweden; Switzerland; United Kingdom; United States of America;
- (2) Debt obligations where rated either (i) AAA or better by Standard & Poor's or (ii) AAA or better by Fitch or (iii) Aaa2 or better by Moody's Rating Agencies respectively for the following Supranational issuers: European Bank for Reconstruction and Development; European Investment Bank; European Union; Inter-American Development Bank; International Bank for Reconstruction and Development; International Finance Corporation;
- (3) Equity securities from the following indices: AEX 25 (Netherlands), CAC 40 (France), DAX 30 (Germany), Euro 50 (Eurozone), FTSE 100 (United Kingdom), Nikkei 225 (Japan), SMI 20 (Switzerland), S&P 500 (United States of America);
- (4) FTSE100 DBV (Class F10) as defined in the CREST Reference Manual; and
- (5) Unstripped British Government Stock (Class UBG) as defined in the CREST Reference Manual

Securities lending collateral is not reinvested.

The collateral is held in pooled accounts.

The maturity tenor analysis shown in the following pages for each Sub-fund has been based on the respective transaction contractual maturity date. Securities on loan have an open maturity tenor as they are recallable or terminable on a daily basis.

All securities lending transactions entered into by a Sub-fund are subject to a written legal agreement between the Sub-fund and the Lending Agent, and separately between the Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is delivered to an account in the name of the Depositary on behalf of the Sub-fund. Collateral received is segregated from the assets belonging to the Sub-fund's Depositary or the Lending Agent.

The total income earned from securities lending transactions is split between the relevant Sub-fund and The Bank of New York Mellon, London Branch. The Sub-fund receives 81% while The Bank of New York Mellon, London Branch receives 19% of such income with all operational costs borne out of the The Bank of New York Mellon's, London Branch share. Income earned during the year by each Sub-fund from securities lending transactions is disclosed as part of Revenue in the Statement of Total Return in the financial statements of each Sub-fund.

At the period end, the following Sub-funds did not engage in securities lending activity; BNY Mellon FutureLegacy 3 Fund, BNY Mellon FutureLegacy 4 Fund, BNY Mellon FutureLegacy 5 Fund, BNY Mellon FutureLegacy 6 Fund, BNY Mellon FutureLegacy 7 Fund, BNY Mellon Gilt Fund, BNY Mellon Global Multi-Strategy Fund, BNY Mellon Global Opportunities Fund, BNY Mellon Index Linked Gilt Fund, BNY Mellon Multi-Asset Moderate Fund, BNY Mellon Sustainable European Opportunities Fund, BNY Mellon Sustainable Global Dynamic Bond Fund, BNY Mellon Sustainable Global Emerging Markets Fund, BNY Mellon Sustainable Global Equity Fund, BNY Mellon Sustainable Global Equity Income Fund, BNY Mellon Sustainable Real Return Fund, BNY Mellon Sustainable UK Opportunities Fund, Responsible Horizons Strategic Bond Fund and Responsible Horizons UK Corporate Bond Fund.
