INTRODUCTION

Canaccord Genuity Investment Funds plc (the “Company”) is an umbrella fund with segregated liability between sub-funds established as an open-ended investment company with variable capital under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, as amended, (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, as amended, (the “Central Bank UCITS Regulations”) and has been authorised by the Central Bank of Ireland (the “Central Bank”) as an Undertaking for Collective Investment in Transferable Securities (“UCITS”). Different sub-funds (the “Funds”) may be established from time to time by the Directors with the prior approval of the Central Bank.

The Funds of the Company that have been established and were in existence during the financial year ended 31 March 2024 are outlined below:

CANACCORD GENUITY CAUTIOUS FUND

The investment objective of the Fund is to generate income and capital growth by investing in an internationally diversified portfolio of shares and units in investment funds and individual high quality fixed interest instruments.

The Fund is primarily a fund of funds that seeks to achieve its investment objective and policy by exposure to international equity markets equal to a maximum of 50% of its net assets by investing in the securities of regulated investment funds and fixed interest securities; and by an exposure to international debt markets equal to a maximum of 40% of its net assets may be invested in direct assets, primarily in debt securities consisting of bonds (both corporate and sovereign, fixed and floating) and to a lesser extent in equities.

CANACCORD GENUITY BALANCED FUND

The investment objective of the Fund is to generate capital growth by investing in an internationally diversified portfolio of shares and units in investment funds and individual high quality fixed interest instruments.

The Fund is primarily a fund of funds that aims to achieve its objective by indirect exposure to international equity markets equal to a maximum of 60% of its net assets by investing in the securities of regulated investment funds. The Base Currency of the Fund is US Dollars but investments may be denominated in other currencies.

CANACCORD GENUITY GROWTH FUND

The investment objective of the Fund is to generate capital growth by investing in an internationally diversified portfolio of shares and units in investment funds and individual high quality fixed interest instruments.

The Fund is primarily a fund of funds that aims to achieve its objective by indirect exposure to international equity markets equal to a maximum of 85% of its net assets by investing in the securities of regulated investment funds. The Base Currency of the Fund is US Dollars but investments may be denominated in other currencies.

CANACCORD GENUITY OPPORTUNITY FUND

The investment objective of the Fund is to generate capital growth by investing in an internationally diversified portfolio of shares and units in investment funds and individual high quality fixed interest instruments.

The Fund is primarily a fund of funds that pursues its investment objective by investing primarily in a portfolio of regulated investment funds and fixed interest securities. The Base Currency of the Fund is US Dollars but investments and shares may be denominated in other currencies.

CANACCORD GENUITY BOND FUND

The investment objective of the Fund is to generate positive total returns from a diversified portfolio of bonds and other debt securities and investment funds.

The Fund aims to achieve this objective by investing into a portfolio of high quality bonds, investment funds and money market instruments, with a bias towards sterling denominated assets across all permitted asset classes. In normal circumstances, the Fund will aim to deliver income in excess of the average rate achievable through a one-year cash deposit.

CANACCORD GENUITY GLOBAL EQUITY FUND

The investment objective of the Fund is to generate long-term capital growth for investors.

The Fund seeks to achieve this objective by investing in a diversified portfolio of equities from around the globe. At least 80% of the Fund's net assets will at all times be invested in listed securities.

While the Fund aims to invest directly in equities, it may, to the extent permitted by the Fund's investment restrictions, also periodically hold cash and invest in other types of instruments such as other transferable securities, money market instruments, deposits or other investment funds. Such types of investments would be bought by the Fund to either protect, diversify or enhance returns. Where the Fund invests in other funds, such funds would typically be regulated and domiciled in western markets.

INTRODUCTION (CONTINUED)

CANACCORD GENUITY THEMATIC ESG FUND

The investment objective of the Fund is to generate long-term capital growth by investing primarily in a portfolio of regulated investment funds and fixed interest securities that have a clear and unambiguous focus on sustainability.

The Fund is primarily a fund of funds that pursues its investment objective by investing primarily in a diversified range of thematic funds that deliver competitive returns, mitigate environmental, social and governance ("ESG") risks, pursue ESG opportunities and focus on measurable impact solutions.

In seeking to achieve its investment objective and policy, the Fund seeks an indirect exposure to international equity markets equal to a maximum of 100% of its net assets by investing in the securities of regulated investment funds.

CANACCORD GENUITY 60% EQUITY PASSIVE SELECTOR FUND

(Launched 15 January 2024)

The investment objective of the Fund is to generate capital growth by investing in an internationally diversified portfolio of regulated index-tracking exchange traded investment funds.

The Fund is primarily a fund of funds that pursues its investment objective by investing primarily in a portfolio of regulated index-tracking exchange traded and passively managed investment funds.

In seeking to achieve its investment objective the Fund seeks an indirect exposure to international equity markets equal to a maximum of 60% of its net assets.

CANACCORD GENUITY 97.5% EQUITY PASSIVE SELECTOR FUND

(Launched 15 January 2024)

The investment objective of the Fund is to generate capital growth by investing in an internationally diversified portfolio of regulated index-tracking exchange traded investment funds.

The Fund is primarily a fund of funds that pursues its investment objective by investing primarily in a portfolio of regulated index-tracking exchange traded and passively managed investment funds.

In seeking to achieve its investment objective the Fund seeks an indirect exposure to international equity markets equal to a maximum of 97.5% of its net assets.

DIRECTORS' REPORT

For the financial year ended 31 March 2024

Incorporation

Canaccord Genuity Investment Funds plc (the "Company") is an umbrella type open-ended investment company with variable capital incorporated with limited liability in Ireland on 26 February 2003 and authorised under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, as amended, (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, as amended, (the "Central Bank UCITS Regulations").

The Directors are pleased to present their report on the activities of the Company for the financial year ended 31 March 2024. The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union.

Review of Business and Future Developments

A review of the activities of each of the Funds and the Key Performance Indicators are provided in the Investment Manager's Reports. The reports are prepared by the portfolio manager of each of the Funds. The Directors consider that the reports prepared are appropriate for each of the Funds.

Financial Risk Management

The principal risks and uncertainties faced by the Company are market price risk, liquidity risk, foreign currency risk, credit risk and interest rate risk. Further information on the Company's risk management policies is provided in Note 6.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' report and the financial statements in accordance with the Companies Act 2014 and the Central Bank UCITS Regulations.

Irish company law requires the Directors to prepare financial statements for each financial year. Under the law, the Directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("relevant financial reporting framework"). Under company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company as at the financial year end date and of the profit or loss of the Company for the financial year and otherwise comply with the Companies Act 2014.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies for the Company financial statements and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for ensuring that the Company keeps or causes to be kept adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy, enable them to ensure that the financial statements and Directors' report comply with the Companies Act 2014, the Central Bank UCITS Regulations and the Listing Rules of the Euronext Dublin and enable the financial statements to be audited. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Accounting Records

The measures that the Directors have taken to secure compliance with the requirements of sections 281 to 285 of the Companies Act 2014 with regard to the keeping of accounting records, are the employment of appropriately qualified accounting personnel and the maintenance of computerised accounting systems. The Directors have appointed Waystone Management Company (IE) Limited (WMC), which in turn has appointed Northern Trust International Fund Administration Services (Ireland) Limited to maintain proper books of account. The address at which this business is located is as follows: George's Court, 54-62 Townsend Street, Dublin 2, Ireland.

Revenue

The results of operations for the financial year are set out in the Statement of Comprehensive Income on pages 31 and 32.

Distributions

Distributions for the financial year are disclosed in Note 13 to the financial statements.

UK Reporting Fund Regime

The United Kingdom HM Revenue and Customs ("HMRC") has confirmed that the Company and each of its Funds and share classes is in the UK Reporting Fund Regime from 1 January 2011 onwards. It is the Directors' intention to make all required submissions for Reporting Status for the financial year ended 31 March 2024 within the required timeframe.

DIRECTORS' REPORT (CONTINUED)

For the financial year ended 31 March 2024

Directors and Secretary

The following Directors who held office on 31 March 2024, under the Memorandum and Articles of Association, are not required to retire by rotation:

Brian McDermott (Irish) (Non-executive)
Bronwyn Wright (Irish) (Independent, non-executive)
Andrew Finch (British) (Non-executive)
Grahame Lovett (British) (Non-executive)

The Company secretary is Goodbody Secretarial Limited.

Directors' Interests in Shares of the Company

No Director, nor the Company Secretary, had any beneficial interest in the shares or any significant contracts with the Company during the financial year or in the prior financial year.

Connected Persons

Any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or sub-delegates of the UCITS or management company or depositary, and any associated or group company of such a UCITS or management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the shareholders.

The Directors are satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and are satisfied that transactions with connected persons entered into during the financial year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

Directors Compliance Statement

It is the policy of the Company to secure compliance by the Company with its "Relevant Obligations" (as defined in Section 225 of the Companies Act 2014).

The policy includes, but is not limited to, using all reasonable endeavours to:

- implement appropriate arrangements and structures that are, in the opinion of the Directors of the Company (the Directors), designed to secure material compliance with the Company's Relevant Obligations;
- engage personnel who appear to the Directors to have the requisite knowledge and experience to monitor the Company's compliance with its Relevant Obligations;
- appoint external professional legal and tax advisers, from time to time, as appropriate, who in the opinion of the Directors have the requisite knowledge and experience to advise the Company on the material compliance by it with its Relevant Obligations in particular circumstances;

In each case and at all times, such measures being in the opinion of the Directors, appropriate to the Company. It is also the policy of the Company to review annually the arrangements and structures referred to above which have been implemented with a view to determining if they provide a reasonable assurance of compliance in all material respects with the Company's Relevant Obligations.

Audit Committee

The Directors believe that it is not necessary to form an audit committee as the Board is formed of non-executive Directors with one independent Director and the Company complies with the provisions of the Corporate Governance Code. The Directors have delegated the day to day investment management and administration of the Company to Waystone Management Company (IE) Limited (the "Manager"), which in turn has delegated to Canaccord Genuity Wealth (International) Limited (the "Investment Manager") and to Northern Trust International Fund Administration Services (Ireland) Limited (the "Administrator") respectively and the Directors have appointed Northern Trust Fiduciary Services (Ireland) Limited (the "Depositary") as depositary of the assets of the Company.

Directors Statement on Relevant Audit Information

The Directors confirm:

- So far as the Directors are aware, there is no relevant audit information of which the Company's statutory auditor is unaware, and
- The Directors have taken all the steps he or she ought to have taken as a Director in order to make himself or herself aware of any relevant audit information and to establish that the Company's statutory auditor is aware of that information.

Political and Charitable Donations

The Electoral Act, 1997 (as amended by the Electoral Amendment Political Funding Act, 2012) requires companies to disclose all political donations over EUR200 in aggregate made during a financial year. The Directors, on enquiry have satisfied themselves that no such political or charitable donations in excess of this amount have been made by the Company during the financial year ended 31 March 2024 (31 March 2023: Nil).

DIRECTORS' REPORT (CONTINUED)

DIRECTORS' REPORT (CONTINUED)

For the financial year ended 31 March 2024

Significant Events Since the Financial Year End Date (continued)

Director Changes

On 18 July 2024, Andrew Finch resigned as Non-executive Director of the Company and, at the same date, Stephen Prout an employee of Canaccord Genuity Wealth (International) Limited was appointed as Non-executive Director of the Company.

Up to the date of approval of these financial statements, no other significant events have occurred in respect of the Company subsequent to the financial year end that may be deemed relevant to the accuracy of these financial statements.

Independent Auditor

Grant Thornton, Chartered Accountants and Statutory Audit Firm have signified their willingness to be reappointed as the auditor for the financial year ended 31 March 2024 in accordance with Section 383(2) of the Companies Act 2014.

Corporate Governance Statement

The European Communities (Directive 2006/46/EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010) (the "Regulations") requires the inclusion of a corporate governance statement in the Directors' Report.

Although there is no specific statutory corporate governance code applicable to Irish investment funds whose shares are admitted to trading on Euronext Dublin, the Company is subject to corporate governance practices imposed by:

- (i) The Irish Companies Act 2014 which is available for inspection at the registered office of the Company;
- (ii) The Articles of Association of the Company which are available for inspection at the registered office of the Company at 3 Dublin Landings, North Wall Quay, Dublin 1, Ireland and at the Companies Registration Office in Ireland;
- (iii) The Central Bank UCITS Regulations which can be obtained from the Central Bank of Ireland website and are available for inspection at the registered office of the Company; and
- (iv) Euronext Dublin through its Code of Listing Requirements and Procedures.

The Board of Directors voluntarily complies with the Corporate Governance Code for Irish Domiciled Investment Funds as published by Irish Funds ("IF") with effect from 1 January 2013. This forms the basis of the Company's corporate governance code. The Board of Directors have previously assessed the measures included in the Irish Funds Code as being consistent with its corporate governance practices and procedures for the financial year and have formally adopted this code. Please see pages 135 to 145 for information regarding to the environmental, social, and governance (ESG) Policy of the Company.

Internal Control and Risk Management Systems in Relation to Financial Reporting

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has procedures in place to ensure all relevant books of account are properly maintained and are readily available, including the production of annual and half-yearly financial statements. The Board of Directors has appointed the Manager which has appointed the Administrator to maintain the books and records of the Company. The Administrator is authorised and regulated by the Central Bank of Ireland and must comply with the rules imposed by the Central Bank. The financial statements are prepared by the Administrator in accordance with International Financial Reporting Standards ("IFRS") as adopted by European Union.

The Administrator uses various internal controls and checklists to ensure that the financial statements include complete and appropriate disclosures required under IFRS and relevant legislation. The annual financial statements of the Company are required to be approved by the Board of Directors of the Company and the annual and half yearly financial statements of the Company are required to be filed with the Central Bank of Ireland and Euronext Dublin. The statutory annual financial statements are required to be audited by independent auditor who report annually to the Board of Directors on their findings. The Board of Directors monitors and evaluates the independent auditor's performance, qualifications and independence.

Dealings with Shareholders

The convening and conduct of shareholders' meetings are governed by the Articles of Association of the Company and the Companies Act 2014. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting of the Company each year ensuring that it is held within fifteen months of the date of the previous annual general meeting. Not less than twenty one clear days' notice of every annual general meeting and any extraordinary general meeting convened for the passing of a special resolution must be given to shareholders and fourteen clear days' notice must be given in the case of any other extraordinary general meeting unless the auditor of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice.

DIRECTORS' REPORT (CONTINUED)

For the financial year ended 31 March 2024

Corporate Governance Statement (continued)

Dealings with Shareholders (continued)

Two members present either in person or by proxy constitute a quorum at a general meeting provided that the quorum for a general meeting convened to consider any alteration to the class rights of shares is two shareholders holding or representing by proxy at least one third of the issued shares of the relevant fund or class. Every member holding shares present in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every member holding participating shares present in person or by proxy is entitled to one vote in respect of each share held by him.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a shareholders' meeting. An ordinary resolution of the Company or of the shareholders of a particular fund or class requires a simple majority of the votes cast by the shareholders voting in person or by proxy at the meeting at which the resolution is proposed. A special resolution of the Company or of the shareholders of a particular fund or class requires a majority of not less than 75% of the shareholders present in person or by proxy and voting in general meeting in order to pass a special resolution including a resolution to amend the Articles of Association.

Board Composition and Activities

Unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. Currently the Board of Directors of the Company is composed of four Directors, being those listed in the directory in these financial statements.

The business of the Company is managed by the Directors, who exercise all such powers of the Company as are required by the Companies Act 2014, the UCITS Regulations, the Central Bank UCITS Regulations or by the Articles of Association of the Company to be carried out in general meeting. A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the chairman has a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

On behalf of the Board

INVESTMENT MANAGER'S REPORTS

For the financial year ended 31 March 2024

Canaccord Genuity Cautious Fund

Fund's performance

For the 12 months to 31 March 2024, the Fund rose 5.85% (R class). This compared to a 6.30% rise for the Fund's peer group, the Morningstar EAA GBP Moderately Cautious Allocation sector.

Market review

While stock markets started the first half of the reporting period strongly, the majority ended September at or below their end of March levels, as rising yields ultimately took their toll on valuations. Japan was one of the few markets to buck the trend, as strong earnings momentum and attractive valuations continued to buoy stock prices. However, 2023 ended with a bang, and November and December proved to be richly rewarding months for investors. Global equities rose by 14.4% in the last two months of 2023, with global bonds also rising an impressive 6.7%. The change in tone at the end of the year compared to the miserable month of October was due to a major shift in messaging from the US Federal Reserve ("Fed") in terms of interest rates, and the US Treasury over bond issuance. From November, there was a consensus shift in expectations, with markets expecting significant policy loosening (interest rate cuts) in 2024 and while there was a modicum of pushback towards the very end of the year, the Fed did not try overly hard to change investors' minds.

The positive momentum with which financial markets ended 2023, extended into the first quarter of 2024. Once again, technology stocks led the way, with the "Magnificent Seven" (Alphabet, Amazon, Apple, Meta, Microsoft, Nvidia and Tesla) gaining just over 17% in aggregate in US dollar terms. However, a greater divergence of returns was noticeable; for example, Nvidia gained 82% in the first three months of the year, while Tesla's shares have fallen 29%.

Activity/review

The Fund marginally underperformed its peer group over the reporting period, albeit it delivered a positive absolute return.

There weren't significant changes made to the Fund during the first half of the reporting period. On the fixed interest side, the most meaningful adjustment came as a position to UK Gilts was added, taking advantage of the continued rise in yields. As far as equity and alternative investments were concerned, there were no complete disposals, or new positions established.

Over the second half of the reporting period, an allocation was made to commodities via the Invesco Bloomberg Commodity ETF. During March, the cash weighting of the fund fell from 5.9%, to 2%, as a result of the decision to increase the fixed income exposure through additional purchases of the Invesco Sterling Bond fund and the Jupiter Dynamic Bond fund. There are signs of a return to the diversification benefits from duration in fixed income, and the decision was taken to slightly increase the weights in the Fund's existing investment grade credit funds.

Outlook

When financial markets are performing strongly, there is always a temptation to ignore, or downplay, investment risks. And while the current outlook is far from grim, there are a number of areas which it is important to monitor closely for potential signs of a potential deterioration in the investment landscape.

It is the fate of China which is most intriguing, and which most starkly divides opinion. To achieve the government's target of 'about 5%' growth in 2024 will not be an easy task. Growth in 2023 only reached 5.2%, and that was with the benefit of the lifting of COVID-19 restrictions early in the year. The decline in the Chinese population is a long-term structural headwind for the economy, and the UN estimates that China will see a 60% drop in its working age population over the remainder of the century.

In conclusion, while financial markets have enjoyed a significant rise since October 2023, at the margin there are reasons to be a little more cautious in the short-term. Inflation readings in the US remain higher than desirable, and the balance of probability suggests that current expectations for three interest rate cuts in 2024 may be a little over optimistic. With the odds of an inflationary reacceleration, or a recessionary slowdown being finely balanced, this would argue for not taking on excess investment risk at this particular point of the economic and investment cycle. There are still attractive investment opportunities available, but these are more prevalent in undervalued areas such as Japan, rather than investments which have already enjoyed a significant upward re-rating, such as technology.

INVESTMENT MANAGER'S REPORTS (CONTINUED)

For the financial year ended 31 March 2024

Canaccord Genuity Balanced Fund

Fund's performance

For the 12 months to 31 March 2024, the Fund rose 12.46% (R class). This compared to a 10.19% rise for the Fund's peer group, the Morningstar EAA USD Moderate Allocation sector.

Market review

While stock markets started the first half of the reporting period strongly, the majority ended September at or below their end of March levels, as rising yields ultimately took their toll on valuations. Japan was one of the few markets to buck the trend, as strong earnings momentum and attractive valuations continued to buoy stock prices. However, 2023 ended with a bang, and November and December proved to be richly rewarding months for investors. Global equities rose by 14.4% in the last two months of 2023, with global bonds also rising an impressive 6.7%. The change in tone at the end of the year compared to the miserable month of October was due to a major shift in messaging from the US Federal Reserve ("Fed") in terms of interest rates, and the US Treasury over bond issuance. From November, there was a consensus shift in expectations, with markets expecting significant policy loosening (interest rate cuts) in 2024 and while there was a modicum of pushback towards the very end of the year, the Fed did not try overly hard to change investors' minds.

The positive momentum with which financial markets ended 2023, extended into the first quarter of 2024. Once again, technology stocks led the way, with the "Magnificent Seven" (Alphabet, Amazon, Apple, Meta, Microsoft, Nvidia and Tesla) gaining just over 17% in aggregate in US dollar terms. However, a greater divergence of returns was noticeable; for example, Nvidia gained 82% in the first three months of the year, while Tesla's shares have fallen 29%.

Activity/review

The Fund outperformed its peer group over the reporting period and delivered a positive absolute return.

During May, the holding of the iShares MSCI World Minimum Volatility ETF was sold, and the proceeds used to increase the position in the iShares MSCI World Value Factor ETF. The following month, the US Treasury exposure was increased given the continued rise in yields and belief that value is now on offer in this market. The Fund made additional changes in early July adding to US equities and reducing the gold exposure.

Over the second half of the reporting period, an allocation was made to commodities via the Invesco Bloomberg Commodity ETF. The reason for the allocation to commodities stems from its unique characteristics and benefits as an asset class. Commodities demonstrate low correlation with traditional assets such as bonds and equities and have historically provided real returns during inflationary periods.

Outlook

When financial markets are performing strongly, there is always a temptation to ignore, or downplay, investment risks. And while the current outlook is far from grim, there are a number of areas which it is important to monitor closely for potential signs of a potential deterioration in the investment landscape.

It is the fate of China which is most intriguing, and which most starkly divides opinion. To achieve the government's target of 'about 5%' growth in 2024 will not be an easy task. Growth in 2023 only reached 5.2%, and that was with the benefit of the lifting of COVID-19 restrictions early in the year. The decline in the Chinese population is a long-term structural headwind for the economy, and the UN estimates that China will see a 60% drop in its working age population over the remainder of the century.

In conclusion, while financial markets have enjoyed a significant rise since October 2023, at the margin there are reasons to be a little more cautious in the short-term. Inflation readings in the US remain higher than desirable, and the balance of probability suggests that current expectations for three interest rate cuts in 2024 may be a little over optimistic. With the odds of an inflationary reacceleration, or a recessionary slowdown being finely balanced, this would argue for not taking on excess investment risk at this particular point of the economic and investment cycle. There are still attractive investment opportunities available, but these are more prevalent in undervalued areas such as Japan, rather than investments which have already enjoyed a significant upward re-rating, such as technology.

Canaccord Genuity Wealth (International) Limited
May 2024

INVESTMENT MANAGER'S REPORTS (CONTINUED)

For the financial year ended 31 March 2024

Canaccord Genuity Opportunity Fund

Fund's performance

For the 12 months to 31 March 2024, the Fund rose 19.48%. This compares to a gain of 13.15% for the Fund's peer group, the Morningstar Funds EEA USD Aggressive Allocation sector.

Market review

The last 12 months has been a good period for global stock markets, although gains for most markets were only achieved in the final 5 months of the reporting period. Indeed, at the end of October, few markets were in positive territory when measuring performance from the Fund's March year-end, as investors spent the summer and autumn fretting over the likelihood that interest rates in the US would stay higher for longer than hoped.

However, less-hawkish-than-expected comments from the US Federal Reserve ("Fed") on 1 November and a cooler-than-expected Consumer Price Inflation (CPI) report on 14 November, gave credence to the view that the Fed was done raising interest rates because inflation was heading in the right direction (i.e., down toward 2.0%) and that this could continue to happen without a credit crunch and recession. Equities, most notably in Japan, the US and Europe, rallied strongly on the news, with many market indices reaching all-time highs by the end of the reporting period.

Activity/review

The Fund outperformed its peer group by a healthy margin over the period, with relative gains achieved in both the more challenging initial period for markets as well as the subsequent rally. As we noted in our half yearly report, relative returns were boosted by both the geographic allocation of the Fund, which included an overweight allocation to Japan, and asset selection, as many of our active managers outperformed their respective market benchmarks.

In terms of activity, having reduced the Fund's equity allocation in the first half of the reporting period, we used the subsequent set-back in stock markets to rebuild the Fund's equity positions in the second half of the year. The prime beneficiary of this increased allocation was the US, where we increased holdings in the Fund's existing active US managers and established a new position in the Polar Capital North American Fund.

We also revisited our decision last summer to sell the Fund's holding in the Polar Capital Healthcare Fund, ultimately deciding to re-establish a small weighting to the Fund in February as we see scope for health care stocks to outperform over a 6-to-12month horizon given their defensive nature, favourable valuations, and room for increased pricing power.

There were some sales over the period. We sold the Fund's small allocation to the UK, through the sale of the CT UK Equity Income fund, as prefer the growth opportunities available in the US in the near-term. We also trimmed the Fund's allocation to Asia, by reducing its holding in the Stewart Investors Asia Pacific Leaders Sustainability fund.

Outside of equities, we have established a 3% allocation to gold and general commodities via the iShares Physical Gold ETC and the Invesco Bloomberg Commodity UCITS ETF, believing both will benefit from the cyclical uptick in global growth.

Outlook

While there are, of course, many things in the world that investors should concerns themselves with, the recession that has been feared for much of the last 18 months does not look one look one of them, at least for the foreseeable future. Corporate profits remain robust and there are tentative signs that economic growth is becoming more global in nature, rather than just a US phenomenon. If there are negatives in the short-term, it is that valuations are elevated in some segments of the market and investor sentiment is pushing towards historic highs, with retail investors now piling into equity ETFs.

Of course, neither valuations nor bullish sentiment are as good at marking market tops as bearish sentiment extremes and valuation lows are at marking market troughs; indeed, they might indicate that a melt-up is underway. However, while you are enjoying the party, it never hurts to remind yourself that being the last to leave is rarely a good thing, so maintaining your risk discipline at this time is extremely important. For now, however, it seems unlikely that even a modest correction will do much to dampen the animal spirits of investors

Canaccord Genuity Wealth (International) Limited
May 2024

INVESTMENT MANAGER'S REPORTS (CONTINUED)

For the financial year ended 31 March 2024

Canaccord Genuity Bond Fund

Fund's performance

For the 12 months to 31 March 2024, the Fund rose 5.27% in total return terms (net of all fees and expenses). As a comparative, the Markit iBoxx GBP Gilts 3-5 year index rose 2.49% for the same period.

Market review

Central banks continued to be active during the second quarter of 2023. The Federal Reserve ("Fed") increased rates by 25 basis points (bps) but then stopped in June, with the strong message that there was more to come and markets therefore labelling it a 'skip' rather than a 'pause'. The European Central Bank (ECB) had more to catch up with and raised rates by 50 bps, but the Bank of England (BoE) had the most work to do as inflation reached double digits and stubbornly refused to come down as fast as in other developed countries. The BoE meeting on 22 June delivered a surprise 50 bps hike to add up to 75 bps for the quarter.

During the third quarter the focus shifted from the level of peak rates, to how long central banks would hold rates at restrictive levels, with "higher for longer" increasingly viewed as the necessary scenario to tame stubborn price pressures. Fiscal sustainability was another area of concern for bond investors, with the US Treasury market in particular being hit by concerns over the amount of issuance that would be required to sustain a large fiscal deficit.

The publication in late October of much improved inflation numbers in the US, the UK and Europe prompted a significant change in market sentiment. Investors increasingly considered that we had seen the peak in interest rates and started to factor in cuts in the early part of 2024. This was later reinforced by the US Federal Reserve ("Fed"). Its December post-meeting press conference surprised with its dovish tone. The dawning reality of softer but still positive economic data, with falling inflation and interest rates, gave markets the catalyst they'd been looking for. From late October onwards, bonds enjoyed their best period for almost 50 years.

However, during the first quarter of 2024 inflation was a concern again for markets, with the falls in overall inflation rates starting to slow, and certain pockets of inflation proving stubbornly persistent. As a result, interest rate cut expectations gradually started to be reined in but the next move is almost certainly lower but has been pushed further out into 2024. Whilst the timing of these actions has been challenging, the direction remains clear.

Activity/review

The allocation to Sterling AAA rated/quasi-government bonds which gives some ballast to the fund has an average yield-to-maturity of 4.67% which compares very favourably with 5 year UK Gilts at 3.82%. Sterling investment grade bonds account for approximately 40% of the fund. The Sterling investment grade bucket is targeted around single A rated debt and offers an overall yield to maturity for the Fund of 5.55%. There is also a 5% allocation to US Treasuries with an average yield to maturity of 4.41%. The specialist fund allocation is approximately 25%.

The key to achieving optimum risk-reward is diversification, encompassing a blend of traditional plain-vanilla bond assets, complemented by specialist/thematic bond fund strategies. The Fund's headline yield to maturity (YTM) is currently at 5.32% and we are currently targeting an income delivery of around 3.40% per annum. The Fund's duration is 3.19 years. The Fund's credit quality is strong with a weighting to the highest quality assets of 35% (AAA/AA/cash).

The focus has remained in shorter-dated maturities as inverted (higher yields in shorter-dated maturities compared to longer-dated) yield curves leaves little risk appetite for heading into longer maturity bonds.

Outlook

Across fixed interest markets, we have a growing appetite for embracing different investments in the asset class within the Fund. The difference in our view towards fixed interest has changed markedly in the last few years, as valuations and yields have increased massively in investors' favour, and we continue to expect the asset class to be a happy hunting ground for Fund returns in the next few years.

Canaccord Genuity Wealth (International) Limited

May 2024

INVESTMENT MANAGER'S REPORTS (CONTINUED)

For the financial year ended 31 March 2024

Canaccord Genuity Global Equity Fund

Fund's performance

For the 12 months to 31 March 2024, the Fund rose 16.2% (R USD Acc share class). This compared to a 23.6% increase for the benchmark, the FTSE All World Total Return USD. The fund did not keep up with the benchmark as we were relatively underweight the mega cap technology stocks. The likes of Nvidia in the USA and Novo Nordisk in Europe (although also held by the fund in smaller weights to manage stock specific risk) continued to drive up global index returns.

Market review

For most of 2023, the US Fed continued with its higher for longer rhetoric, leading to rising US Treasury yields even as the risk of global recession increased. Initially, equity markets struggled, and the US Dollar strengthened. Data out of China continued to disappoint and Europe in particular saw its economies stagnating.

However, the USA, Europe and the UK all released inflation data during the final quarter of 2023 that came in lower than market expectations. This helped fuel expectations for interest rate cuts in 2023. The Chairman of the US Federal Reserve ("Fed") added fuel to the fire as he presented a more dovish tone at the December press conference. This was a complete contrast to his previous messaging. The 10-year US treasury yield fell from a peak of 4.99% in October to 3.79% towards the end of December 2023. This helped to drive an 'everything rally' with equity and bond markets both performing well.

The rally continued into 2024. Although consensus expectations for the number and magnitude of rate cuts was dampened by persistent inflation, market positivity switched to accelerating GDP growth and AI euphoria, especially in the USA. Large caps continued to outperform smaller companies.

Activity/review

Mega caps dominated global equity performance. In particular, Nvidia has continued its meteoric rise as demand for its AI chips surged. Eli Lilly and Novo Nordisk also saw huge revenue growth from the launch of their weight-loss drugs. Whilst we own all of these names, we do not have them in the same weightings as our benchmark. Other top performers in the fund included Arista Networks, the leader in advanced networking solutions for data centres, Lotus Bakeries and global cement company CRH.

Having initially rallied, many consumer facing stocks have struggled as the impact of persistent inflation and higher interest rates started to bite. The effects were felt across the travel sector (WH Smith, Sixt), Luxury sector (LVMH, Richemont, Porsche) and even medtech (Carl Zeiss Meditec, Straumann). These are all strong franchises that have continued to invest and look well placed to benefit as consumer spending power returns.

Outlook

Since the start of the year, expectations for rate cuts have changed remarkably. Having initially forecasted up to 6 rate cuts, more recently the market was even pricing in the small possibility of a rate rise in the US. Stickier inflation and strong growth driven by huge fiscal stimulus makes the current scenario in North America unsustainable. So far, the data for inflation is less troublesome in Europe and similarly in the UK. Jerome Powell has recently sent a dovish message to the market, suggesting that both goals of stable unemployment and inflation will become important. The US is slowing the pace of QE in an attempt to halt the rising cost of debt. This has led to a slight weakening of the US Dollar. In Europe, the inflation backdrop looks much more positive and could pave the way for rate cuts/stimulus sooner than the USA. This is helpful for the fund to an extent but a global synchronization of rate cuts in the major economies over a 12 month period will be even better.

Hargreave Hale Limited

May 2024

INVESTMENT MANAGER'S REPORTS (CONTINUED)

For the financial year ended 31 March 2024

Canaccord Genuity Thematic ESG Fund

Fund's performance

For the 12 months to 31 March 2024, the Fund rose 7.9% (X class). This compared to a 13.1% rise for the Fund's peer group, the Morningstar EAA GBP Aggressive Allocation sector.

Market review

Despite the positive overall market performance for the year, it was a more challenging time on a relative basis for managers focused on sustainability themes with comparatively few of the thematic managers that focus on delivering positive impact keeping up with the broader market due to a lack of "Magnificent 7" exposure. The MSCI ACWI Sustainable Impact Index rose 1.28% over the 12 month period with exposure to renewables and healthcare being a drag on performance. Clean energy and electric vehicle stocks particularly struggled, as concerns around capacity and interest rates grew. The S&P Clean Energy Index was down 28.99% for the 12 month period. While we never want to underperform, we do think the active managers we have allocated to have navigated a tricky performance period sensibly, and we think a market that broadens out from a relatively small group of stocks will be a more attractive one for the managers we own.

Activity/review

The largest positive contributor was Regnan Water & Waste fund in the resource efficiency theme which rose 23.76% during the 12 month period. This fund has now outperformed the MSCI World over the past 12 months despite not having any of the advantages of owning the Magnificent 7 or being an obvious AI play. Water and waste have the same long-term structural drivers, offer the same solutions and work well together from an investment perspective. Water and waste management companies were relatively left behind in the market concentration that favoured the technology sector in 2023. The increase of market breadth will help stocks in these sectors. The longer term outlook for both the water and waste themes remains strong, supported by investments needed in both essential areas.

The main detractors to performance were funds exposed to the clean energy and electric vehicle theme, with both 91 Global Environment and Impax Environmental Markets having weak years by their standards. There is no doubt that newsflow in this area was not good over the past 12 months. EVs are certainly seeing decelerating growth rates, but this is largely a feature of short term macroeconomic factors impacting the entire automotive sector. If we zoom out a little we still see EVs increasing their market share (at the expense of petrol and diesel) with 14.5% of new cars sold globally now purely electric according to Bloomberg Green. Both managers have long track records in this space and have navigated this difficult backdrop in their theme with a prudent mindset.

A few changes were made to the Fund during the 12 month period. We added two distinctive thematic managers to provide the portfolio with wider return opportunities. Additions were made to the Stewart GEM Sustainability fund which we see as an attractive way to play the growth of sustainable products and services in emerging economies. This fund also provides a useful exposure to the Indian stockmarket which provides a diversification benefit. We also added an exposure to a pure play clean energy fund which invests in electricity generation with a focus on solar and batteries. Guinness Sustainable Energy have an equal weighted concentrated portfolio and offer a compelling return profile in their niche. To make room for these managers we reduced exposure to the Kayne Andersen Renewable Infrastructure fund which we see as having too heavy a utility focus when compared to the broader opportunity set Guinness Sustainable Energy target.

Outlook

Despite a challenging year versus broader benchmarks, our underlying fund managers have generally delivered a strong relative performance in their respective peer groups for investors and their portfolios do not trade in our view at particularly expensive valuations. Following the fall in inflation, sentiment in global sustainable equities is more positive with markets expecting that central bank tightening is nearing its end. This environment should be more supportive for the generally smaller and more growth orientated impact thematic managers we invest in.

Canaccord Genuity Wealth (International) Limited

May 2024

INVESTMENT MANAGER'S REPORTS (CONTINUED)

For the financial year ended 31 March 2024

Canaccord Genuity 60% Equity Passive Selector Fund*

Fund's performance

From launch on 15 January 2024 to 31 March 2024, the Fund rose 3.15% (E class).

Market review

2023 ended with a bang, and November and December proved to be richly rewarding months for investors. Global equities rose by 14.4% in the last two months of 2023, with global bonds also rising an impressive 6.7%. The change in tone at the end of the year compared to the miserable month of October was due to a major shift in messaging from the US Federal Reserve ("Fed") in terms of interest rates, and the US Treasury over bond issuance. From November, there was a consensus shift in expectations, with markets expecting significant policy loosening (interest rate cuts) in 2024 and while there was a modicum of pushback towards the very end of the year, the Fed did not try overly hard to change investors' minds.

The positive momentum with which financial markets ended 2023, extended into the first quarter of 2024. Once again, technology stocks led the way, with the "Magnificent Seven" (Alphabet, Amazon, Apple, Meta, Microsoft, Nvidia and Tesla) gaining just over 17% in aggregate in US dollar terms. However, a greater divergence of returns was noticeable; for example, Nvidia gained 82% in the first three months of the year, while Tesla's shares have fallen 29%.

Activity/review

The Fund began to be invested in-line with its Strategic Asset Allocation, with investments made into the Vanguard USD Treasury Bond ETF and Vanguard FTSE All-World ETF.

Outlook

When financial markets are performing strongly, there is always a temptation to ignore, or downplay, investment risks. And while the current outlook is far from grim, there are a number of areas which it is important to monitor closely for potential signs of a potential deterioration in the investment landscape.

It is the fate of China which is most intriguing, and which most starkly divides opinion. To achieve the government's target of 'about 5%' growth in 2024 will not be an easy task. Growth in 2023 only reached 5.2%, and that was with the benefit of the lifting of COVID-19 restrictions early in the year. The decline in the Chinese population is a long-term structural headwind for the economy, and the UN estimates that China will see a 60% drop in its working age population over the remainder of the century.

In conclusion, while financial markets have enjoyed a significant rise since October 2023, at the margin there are reasons to be a little more cautious in the short-term. Inflation readings in the US remain higher than desirable, and the balance of probability suggests that current expectations for three interest rate cuts in 2024 may be a little over optimistic. With the odds of an inflationary reacceleration, or a recessionary slowdown being finely balanced, this would argue for not taking on excess investment risk at this particular point of the economic and investment cycle. There are still attractive investment opportunities available, but these are more prevalent in undervalued areas such as Japan, rather than investments which have already enjoyed a significant upward re-rating, such as technology.

When financial markets are performing strongly, there is always a temptation to ignore, or downplay, investment risks. And while the current outlook is far from grim, there are a number of areas which it is important to monitor closely for potential signs of a potential deterioration in the investment landscape.

It is the fate of China which is most intriguing, and which most starkly divides opinion. To achieve the government's target of 'about 5%' growth in 2024 will not be an easy task. Growth in 2023 only reached 5.2%, and that was with the benefit of the lifting of COVID-19 restrictions early in the year. The decline in the Chinese population is a long-term structural headwind for the economy, and the UN estimates that China will see a 60% drop in its working age population over the remainder of the century.

In conclusion, while financial markets have enjoyed a significant rise since October 2023, at the margin there are reasons to be a little more cautious in the short-term. Inflation readings in the US remain higher than desirable, and the balance of probability suggests that current expectations for three interest rate cuts in 2024 may be a little over optimistic. With the odds of an inflationary reacceleration, or a recessionary slowdown being finely balanced, this would argue for not taking on excess investment risk at this particular point of the economic and investment cycle. There are still attractive investment opportunities available, but these are more prevalent in undervalued areas such as Japan, rather than investments which have already enjoyed a significant upward re-rating, such as technology.

Canaccord Genuity Wealth (International) Limited May 2024

*On 15 January 2024, Canaccord Genuity 97.5% Equity Passive Selector Fund was launched.

ANNUAL DEPOSITARY REPORT TO SHAREHOLDERS

We, Northern Trust Fiduciary Services (Ireland) Limited, appointed Depositary to Canaccord Genuity Investment Funds plc (the "Company") provide this report solely in favour of the shareholders of the Company for the year ended 31 March 2024 (the "Annual Accounting Period"). This report is provided in accordance with the UCITS Regulations European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011), as amended, which implemented Directive 2009/65/EU into Irish Law (the "Regulations"). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the Regulations, we have enquired into the conduct of the Company for the Annual Accounting Period and we hereby report thereon to the shareholders of the Company as follows;

We are of the opinion that the Company has been managed during the annual accounting period, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documents and by the Regulations; and

(ii) otherwise, in accordance with the provisions of the constitutional documents and the Regulations.

For and on behalf of:

Northern Trust Fiduciary Services (Ireland) Limited

30 July 2024

Independent auditor's report to the members of Canaccord Genuity Investment Funds Plc

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Canaccord Genuity Investment Funds Plc (the "Company"), which comprise the Statement of Financial Position as at 31 March 2024 and the Statement of Comprehensive Income, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares and the Statement of Cash Flows for the financial year then ended, and the related notes to the financial statements, including the summary of significant accounting policies.

The financial reporting framework that has been applied in the preparation of the financial statements is Irish law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion, the Company's financial statements:

- give a true and fair view in accordance with IFRS as adopted by the European Union of the assets, liabilities and financial position of the Company as at 31 March 2024 and of its financial performance and cash flows for the financial year then ended; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ('ISAs (Ireland)') and applicable law. Our responsibilities under those standards are further described in the 'Responsibilities of the auditor for the audit of the financial statements' section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, including the Ethical Standard for Auditors (Ireland) issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and the ethical pronouncements established by Chartered Accountants Ireland, applied as determined to be appropriate in the circumstances for the Company. We have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors' assessment of the Company's ability to continue as a going concern basis of accounting included:

- Obtaining an understanding of the process and relevant controls over the Company's going concern assessment;
- Obtaining the directors' formal assessment of going concern and challenged key assumptions within the assessment. This included reviewing each of the sub-funds' post year end performance and business activities including post year end subscriptions and redemptions, post year distributions, and NAV movements in order to support the appropriateness of the Company's going concern assessment;
- Making enquiries and discussions with management, and reviewing the board minutes during the financial year end up to the date of approval of the financial statements, in order to understand the future plans for the company and to identify potential contradictory information; and
- Assessing the adequacy of the disclosures made in the financial statements with respect to the going concern assumption.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue. Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current financial year and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit, and the directing of efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and therefore we do not provide a separate opinion on these matters.

Independent auditor's report to the members of Canaccord Genuity Investment Funds Plc

Key audit matters (continued)

Overall audit strategy

We designed our audit by determining materiality and assessing the risks of material misstatement in the financial statements. In particular, we looked at where the Directors made subjective judgements, for example, the selection of pricing sources to value the investment portfolio. We also addressed the risk of management override of internal controls, including evaluating whether there was any evidence of potential bias that could result in a risk of material misstatement due to fraud. Based on our considerations as set out below, our areas of focus include existence and valuation of financial assets and liabilities measured at fair value through profit or loss.

How we tailored the audit scope

The Company is an open ended investment company with variable capital and segregated liability between sub-funds. As at 31 March 2024, there were seven sub-funds in existence namely, Canaccord Genuity Cautious Fund, Canaccord Genuity Balanced Fund, Canaccord Genuity Growth Fund, Canaccord Genuity Opportunity Fund, Canaccord Genuity Bond Fund, Canaccord Genuity Global Equity Fund and Canaccord Genuity Thematic ESG Fund, and are listed on the Euronext Dublin.

The Directors control the affairs of the Company and they are responsible for the overall investment policy, which is determined by them. The Company engages Waystone Management Company (IE) Limited (or the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the Company.

The Directors have delegated certain responsibilities to Northern Trust International Fund Administration Services (Ireland) Limited (the "Administrator"). The financial statements, which remain the responsibility of the Directors, are prepared on their behalf by the Administrator. The Company has appointed Northern Trust Fiduciary Services (Ireland) Limited (the "Depository") to act as depository of the Company's assets.

We tailored the scope of our audit taking into account the types of investments held by the Company, the involvement of third party service providers, the accounting processes and controls, and the industry in which the Company operates. We look at each sub-fund at an individual level.

In establishing the overall approach to our audit we assessed the risk of material misstatement at a sub-fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality and audit approach

The scope of our audit is influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, such as our understanding of the Company and its environment, the history of misstatements, the complexity of the Company and the reliability of the control environment, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements as a whole.

Based on our professional judgement, we determined materiality for each of the Company's sub-funds as follows: 1% of the NAV at 31 March 2024. We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a sub-fund level.

We have set performance materiality for the Company at 75% of materiality, having considered business risks and fraud risks associated with the Company and its control environment. This is to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements in the financial statements exceeds materiality for the financial statements as a whole.

We agreed with the Directors that we would report to them misstatements identified during our audit above 5% of each sub-fund's materiality, as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Significant matters identified

The risks of material misstatement that had the greatest effect on our audit, including the allocation of our resources and effort, are set out below as significant matters together with an explanation of how we tailored our audit to address these specific areas in order to provide an opinion on the financial statements as a whole. This is not a complete list of all risks identified by our audit.

Independent auditor's report to the members of Canaccord Genuity Investment Funds Plc

Key audit matters (continued)

Significant matters identified (continued)

Significant matter	Description of significant matter and audit response
<p>Existence and valuation of financial assets and liabilities</p> <p>The Company has an investment portfolio consisting of investments in funds, debt and equity securities and derivatives carried at fair value through profit or loss. As at 31 March 2024, carrying values of these financial assets and liabilities were £954,713,530 and £990,899, respectively (2023: £925,746,326 and £55,848) which represented 98% and 13% (2023: 95% and 0.3%) of the Company's total assets and total liabilities, respectively.</p> <p>Further details to these financial assets and financial liabilities can be found in Note 2 and Note 6 of the financial statements.</p>	<p>There is a risk that the financial assets and liabilities held by the Company do not exist or that the balance included in the Statement of Financial Position as at 31 March 2024 is not valued in line with International Financial Reporting Standards ("IFRS"), as adopted by the European Union.</p> <p>Significant auditor's attention was deemed appropriate because of the materiality of these investments. In addition, this is one of the key areas on which our audit is concentrated as the existence and valuation of investments is a key driver of the Company's performance and net asset value. As a result, we considered these as key audit matters.</p> <p>Existence of financial assets and liabilities at fair value through profit or loss The following audit work has been performed to address the risk:</p> <ul style="list-style-type: none"> • We obtained an understanding and evaluated the design and implementation of the relevant processes in place in relation to the existence of the Company's financial assets and liabilities by conducting a walkthrough of these processes and reviewed the Administrator's controls report; and • We obtained independent confirmations of the existence of the financial assets and liabilities from the Company's Depositary and counterparties, and agreed the amounts held to the accounting records as at 31 March 2024. Reconciling items noted were tested to underlying supporting documentation. <p>Our planned audit procedures were completed without material exception.</p> <p>Valuation of financial assets and liabilities at fair value through profit or loss The following audit work has been performed to address the risk:</p> <ul style="list-style-type: none"> • We obtained an understanding and evaluated the design and implementation of the relevant processes in place in relation to the valuation of the Company's financial assets and liabilities by conducting a walkthrough of these processes and reviewed the Administrator's controls report; • We tested the valuation of securities as at 31 March 2024 to third party vendor sources for the positions held in debt securities, equities, investment funds and derivatives; • To obtain additional assurance on the valuation of open ended investment funds, we selected a sample of those investments and obtained the latest audited financial statements. We compared the audited NAV to the price provided by the Administrator; and • We also assessed the Company's adequacy of related financial statements disclosures in accordance with the requirements of IFRS. <p>Our planned audit procedures were completed without material exception.</p>

Other information

Other information comprises information included in the annual report, other than the financial statements and the auditor's report thereon such as the Directors' Report, Investment Manager's Reports, Annual Depositary Report to Shareholders and Supplementary Information (Unaudited). The Directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Independent auditor's report to the members of Canaccord Genuity Investment Funds Plc

Other information (continued)

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies in the financial statements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by the Companies Act 2014

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion, the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion, the information given in the Directors' report is consistent with the financial statements. Based solely on the work undertaken in the course of our audit, in our opinion, the Directors' report has been prepared in accordance with the requirements of the Companies Act 2014.

Matters on which we are required to report by exception

Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Directors' Report.

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of Directors' remuneration and transactions specified by sections 305 to 312 of the Act have not been made. We have no exceptions to report arising from this responsibility.

Corporate governance statement

In our opinion, based on the work undertaken in the course of our audit of the financial statements, the description of the main features of the internal control and risk management systems in relation to the financial reporting process, specified for our consideration and included in the Corporate Governance Statement, is consistent with the financial statements and has been prepared in accordance with section 1373(2)(c) of the Companies Act 2014.

Based on our knowledge and understanding of the Company and its environment obtained in the course of our audit of the financial statements, we have not identified material misstatements in the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement.

In our opinion, based on the work undertaken during the course of our audit of the financial statements, the information required by section 1373(2)(a), (e) and (f) is contained in the Corporate Governance Statement.

Responsibilities of management and those charged with governance for the financial statements

As explained more fully in the Directors' responsibilities statement, the Directors are responsible for the preparation of the financial statements which give a true and fair view in accordance with IFRS as adopted by the European Union, and for such internal control as they determine necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Independent auditor's report to the members of Canaccord Genuity Investment Funds Plc

Responsibilities of the auditor for the audit of the financial statements

The objectives of an auditor are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Irish Auditing and Accounting Supervisory Authority's website at: <https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/>. This description forms part of our auditor's report.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. Owing to the inherent limitations of an audit, there is an unavoidable risk that material misstatement in the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the ISAs (Ireland). The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

Based on our understanding of the Company and industry, we identified that the principal risks of non-compliance with laws and regulations related to compliance with Listing Rules of the Euronext Dublin, Central Bank of Ireland ("CBI") Acts, AIFMD Regulations, Sustainable Finance Disclosure Regulation ("SFDR") and Irish and EU Legislation, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2014 and Irish tax legislation. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to manipulate financial performance and management bias through judgements and assumptions in significant accounting estimates, in particular in relation to significant one-off or unusual transactions. We apply professional scepticism through the audit to consider potential deliberate omission or concealment of significant transactions, or incomplete/inaccurate disclosures in the financial statement.

In response to these principal risks, our audit procedures included but were not limited to:

- enquiries of management on the policies and procedures in place regarding compliance with laws and regulations, including consideration of known or suspected instances of non-compliance and whether they have knowledge of any actual, suspected or alleged fraud;
- inspection of the Company's regulatory and legal correspondence and review of minutes of board meetings during the year to corroborate inquiries made;
- gaining an understanding of the internal controls established to mitigate risk related to fraud;
- discussion amongst the engagement team in relation to the identified laws and regulations and regarding the risk of fraud, and remaining alert to any indications of non-compliance or opportunities for fraudulent manipulation of financial statements throughout the audit;
- identifying and testing journal entries to address the risk of inappropriate journals and management override of controls;
- designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing;
- challenging assumptions and judgements made by management in their significant accounting estimates;
- review of the financial statement disclosures to underlying supporting documentation and inquiries of management; and
- engagement partner's assessment of the engagement team's collective competence and capabilities to identify or recognise non-compliance with the laws and regulation.

The primary responsibility for the prevention and detection of irregularities including fraud rests with those charged with governance and management. As with any audit, there remains a risk of non-detection or irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations or override of internal controls.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

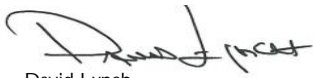

Independent auditor's report to the members of Canaccord Genuity Investment Funds Plc

Report on other legal and regulatory requirements

We were appointed by the Board of Directors on 23 May 2022 to audit the financial statements for the year ended 31 March 2022. This is the third year we have been engaged to audit the financial statements of the Company.

We have not provided non-audit services prohibited by the IAASA's Ethical Standard and have remained independent of the Company in conducting the audit.

The audit opinion is consistent with the additional report to the board of directors.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 March 2024

1. GENERAL

Canaccord Genuity Investment Funds plc (the “Company”) is an open-ended investment company with variable capital structured as an umbrella fund with segregated liability between sub-funds. It was incorporated with limited liability in Ireland on 26 February 2003 and is authorised under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, as amended, (the “Central Bank UCITS Regulations”).

The Company is structured as an umbrella fund, in that different sub-funds (the “Funds”) may be established from time to time by the Directors with the prior approval of the Central Bank. During the financial year ended 31 March 2024, the Funds of the Company were:

Canaccord Genuity Cautious Fund (Formerly CGWM Cautious Fund) (launched 26 September 2008)
Canaccord Genuity Balanced Fund (Formerly CGWM Diversity Fund) (launched 26 September 2008)
Canaccord Genuity Growth Fund (Formerly CGWM Affinity Fund) (launched 26 September 2008)
Canaccord Genuity Opportunity Fund (Formerly CGWM Opportunity Fund) (launched 26 September 2008)
Canaccord Genuity Bond Fund (Formerly CGWM Bond Fund) (launched 16 January 2014)
Canaccord Genuity Global Equity Fund (Formerly CGWM Global Equity Fund) (launched 30 June 2016)
Canaccord Genuity Thematic ESG Fund (launched 19 December 2022)
Canaccord Genuity 60% Equity Passive Selector Fund (launched on 15 January 2024)
Canaccord Genuity 97.5% Equity Passive Selector Fund (launched on 15 January 2024)

The redeemable shares (“shares”) in each Fund may be divided into a number of different share classes. The Directors may also add other share classes, which will be notified in advance to the Central Bank. Each Fund will represent a separate portfolio of assets and liabilities, which will be invested in accordance with the investment objectives applicable to each Fund.

All the share classes that are listed in the Share Capital note on pages 49 to 55 are either listed or approved for listing on the Euronext Dublin.

2. PRINCIPAL ACCOUNTING POLICIES

The significant accounting policies adopted by the Company are as follows:

Basis of preparation

The financial statements have been prepared on a going concern basis. The financial statements have been prepared in accordance with the Companies Act 2014, International Financial Reporting Standards (“IFRS”), as adopted by the European Union and the UCITS Regulations and the Central Bank UCITS Regulations.

New and amended accounting standards in issue that have been adopted:

“Reference to the Conceptual Framework (Amendments to IFRS 3)’ updates an outdated reference in IFRS 3. The amendments are effective for annual periods beginning on or after 1 January 2023, with earlier application permitted. The adoption of the standard has not had a material impact on the Company.

‘Annual Improvements 2018-2020’ makes amendments to IFRS 1, IFRS 9 and IAS 41. The amendments are effective for annual periods beginning on or after 1 January 2023. The adoption of the standard has not had a material impact on the Company.

IFRS 17 Insurance Contracts, Disclosure of Accounting Policies – Amendments to IAS 1 and IFRS Practice Statement 2, Definition of Accounting Estimate – Amendments to IAS 8 and Deferred Tax related to Assets and Liabilities arising from a single transaction – Amendments to IAS 12. The adoption of the standard has not had a material impact on the Company.

Accounting standards in issue that are not yet effective and have not been early adopted:

Amendments to IAS 1 – Non-current liabilities with Covenants, Amendments to IFRS 16 – Leases on Sale and Leaseback, Amendments to IAS 7 and IFRS 7 – Supplier Finance Arrangements, Amendments to IAS 21 – Lack of exchangeability, IFRS 18 Presentation and Disclosure in Financial Statements, IFRS S1 - General Requirements for Disclosure of Sustainability-related Financial Information, and IFRS S2 - Climate-related Disclosures are in issue, are not yet effective and have not been early adopted by the Company. The impact of the amendments on the Company is currently being assessed.

There are no other standards, amendments to standards or interpretations that are not yet effective for annual periods beginning on or after 1 January 2024 which have had a material effect on the financial statements of the Company.

Use of Estimates and Judgements

The preparation of the financial statements in conformity with IFRS requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the financial year ended 31 March 2024

2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

Use of Estimates and Judgements (Continued)

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future years if the revision affects both current and future years.

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements are included in the functional currency disclosed in Note 2.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the financial year ended 31 March 2024 is included in Note 6 and relates to the determination of fair value of financial instruments with significant unobservable inputs if any.

Financial Instruments

Classification

The Company classifies financial assets and liabilities into the following categories:

Financial assets and liabilities at fair value through profit and loss ("FVTPL"):

Assets

The Company classifies its investments based on both the Company's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Company has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income ("FVTOCI"). The contractual cash flows of the Fund's debt securities are solely payments of principal and interest ("SPPI"), however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Company's business model's objective. Consequently, all investments are measured at FVTPL.

Liabilities

Derivative contracts that have a negative fair value are presented as financial liabilities at FVTPL.

As such, the Company classifies all of its investment portfolio as financial assets or liabilities at FVTPL.

The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level I – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. The type of investment which would generally be included would include equities, certain exchange traded funds and derivatives listed on a securities exchange.
- Level II – Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly (including quoted prices for similar investments in active markets, interest rates and yield curves, credit risk, etc.). The type of investments which would generally be included in this category would include corporate bonds, certain investment funds, bank debt and certain over-the-counter derivatives.
- Level III – Price or valuations that require inputs that are both significant to the fair value measurement and unobservable (including the Investment Manager's own assumptions and assumptions used by the Board of Directors about what market participants would use in determining the fair value of investments). The type of investments which would generally be included in this category would include private or debt securities issued by private entities. The inputs or methodology used for valuing securities are not necessarily an indication of the risks associated with investing in those securities.

If any of the Funds hold level 3 investment at the year end date, these will be recognised as at the year end date.

Recognition and Measurement

The Company recognises financial assets and financial liabilities on the date it becomes party to the contractual provisions of the instrument. Transactions are recognised using trade date accounting.

Financial assets and liabilities categorised as at FVTPL, are measured initially at fair value, with transaction costs for such instruments being recognised directly in the Statement of Comprehensive Income.

Subsequent changes in the fair value of financial instruments at FVTPL, are recognised in the Statement of Comprehensive Income.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the financial year ended 31 March 2024

2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

Subsequent Measurement

After initial measurement, the Company measures financial instruments which are classified as at FVTPL, at their fair values. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial instruments is based on their quoted market prices on a recognised exchange or sourced from a reputable broker/counterparty, in the case of non-exchange traded instruments, at the Statement of Financial Position date without any deduction for estimated future selling costs.

Assets listed or traded on a recognised exchange for which market quotations are readily available shall be valued for financial reporting purposes at the last traded price on the relevant exchange, taking into account any premium or discount where the asset was acquired or trades at an off-market premium or discount if appropriate.

The value of any security which is not quoted, listed or dealt in on a recognised exchange, or which is so quoted, listed or dealt but for which no such quotation or value is available, or for which the available quotation or value is not representative of the fair market value, shall be the probable realisation value at the year end date as estimated with care and good faith by (a) the Directors or (b) a competent person, firm or corporation (including the Investment Manager) selected by the Directors and approved for the purpose by the Depositary or (c) any other means provided that the value is approved by the Depositary.

Cash in hand or on deposit will be valued at its nominal or face value plus accrued interest or less debit interest, where applicable, to the end of the relevant day on which the Valuation Point occurs. The Valuation Point is the time at which all the securities are valued and exchanged rates are used to convert foreign currencies and cash.

Exchange-traded derivative instruments will be valued based on the settlement price as determined by the market where the instrument is traded. If such settlement price is not available, such value shall be calculated in accordance with valuating a security which is not quoted, listed or dealt in or on a recognised exchange as outlined previously.

Forward foreign currency contract may be valued by reference to freely available market quotations or, if such quotations are not available, in accordance with the provisions in respect of Over The Counter ("OTC") derivatives.

For listed investments in investment funds the fair value is based on their quoted market prices from a recognized stock exchange. For investments in investment funds which are not quoted on a recognised stock exchange the market price used is the unaudited net asset value provided by the administrator of the funds. Please refer to pages 70 and 71 for the financial instruments classed as level 1, level 2 and level 3 during the financial year.

Notwithstanding the above provisions the Directors may: (a) adjust the valuation of any particular asset; or (b) permit some other method of valuation approved by the Depositary, which approval shall not be unreasonably withheld or delayed, to be used in respect of any particular asset if, having regard to exchange rate, applicable rate of interest, maturity, marketability and/or such other considerations as they deem relevant, they consider that, in the case of (a) above, such adjustment or, in the case of (b) above, the use of such other method of valuation is required to reflect more fairly the value of such assets. The rationale for adjusting the value of any asset must be clearly documented.

Financial assets and liabilities at Amortised cost:

Classification

Financial assets that are classified as measured at amortised cost include Cash deposits, Subscriptions receivable, Securities sold receivable, Interest and dividends receivable and Other assets.

Financial liabilities that are classified as measured at amortised cost include Bank overdraft, Redemptions payable, Securities purchased payable, Investment Management fee payable, Management Company fee payable and Other liabilities.

Subsequent Measurement

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- They are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows; and
- The contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These financial assets and liabilities are subsequently measured at amortised cost using the effective interest method.

Amortised cost measurement principles

The 'amortised cost' of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured on initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the financial year ended 31 March 2024

2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

Impairment

IFRS 9's impairment requirements use forward-looking information to recognise expected credit losses – the 'expected credit loss (ECL) model'. Instruments within the scope of the requirements included financial assets measured at amortised cost.

The Company considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

- Financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk ('Stage 1'); and
- Financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low ('Stage 2').

'Stage 3' would cover financial assets that have objective evidence of impairment at the reporting date.

'12-month expected credit losses' are recognised for the first category (ie Stage 1) while 'lifetime expected credit losses' are recognised for the second category (ie Stage 2).

Measurement of the expected credit losses is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

The Company have assessed that impairment does not apply to financial assets classified as fair value through profit or loss. The Company considers the probability of default of amortised cost assets to be close to zero, as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised in the financial statements based on 12-month expected credit losses as any such impairment would be wholly insignificant to the Company.

Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expired or it has transferred substantially all the risks and rewards of ownership. The Company derecognises a financial liability when the obligation specified in the contract is discharged, cancelled or expired.

Forward foreign currency contracts

Forward foreign currency contracts are valued at the forward rate at the closing date through the residual term of the contracts. Realised and unrealised gains and losses resulting from forward foreign currency contracts are recognised in the Statement of Comprehensive Income.

Income

Investment income is reported gross of irrecoverable withholding tax. Dividends are recognised as income on the dates the securities are first quoted "ex-dividend". In certain situations dividends are accounted for on a cash receipts basis where this is more appropriate. Bond interest is accounted for on an effective interest basis. Deposit interest and other income are accounted for on an accruals basis.

Operating expenses

The Company is responsible for all normal operating expenses including audit fees, stamp and other duties and charges incurred on the acquisition and realisation of investments. All operating expenses are charged to the Statement of Comprehensive Income on an accruals basis.

Net realised gain/(loss) on investments

The computation of realised gains and losses on sales of investments is made on a first in first out basis for all Funds with the exception of Canaccord Genuity Global Equity Fund which is calculated on the average book cost.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the financial year ended 31 March 2024

2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

Functional currency

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates (the 'functional currency'). The functional and presentation currency of the Company is Sterling. The functional and presentation currency for each Fund is Sterling with the exception of Canaccord Genuity Balanced Fund, Canaccord Genuity Growth Fund, Canaccord Genuity Opportunity Fund, Canaccord Genuity Global Equity Fund, Canaccord Genuity Thematic ESG Fund, Canaccord Genuity 60% Equity Passive Selector Fund and Canaccord Genuity 97.5% Equity Passive Selector Fund where the functional and presentation currency is US Dollar. To calculate the total Company figures, US Dollar assets and liabilities in the Statement of Financial Position have been translated to Sterling at the financial year end rate of exchange for the financial year ended 31 March 2024 and the US Dollar income, expenses, gains and losses have been translated at the average rate of exchange on the Statement of Comprehensive Income. The foreign exchange adjustment on aggregation arising from the translation of the opening net assets is shown in the Statement of Changes in Net Assets attributable to holders of redeemable shares. The foreign exchange adjustment on aggregation in the Statement of Cash Flows arises from the difference between the average rates used in the Statement of Comprehensive Income and the financial year end rate used for the Statement of Financial Position cash balances. The method of translation has no effect on the Net Asset Value per share attributable to the individual Funds.

Foreign currencies

Transactions which occurred during the period are translated into the functional currency of the Fund at the exchange rate prevailing on the transaction date. Assets and liabilities in foreign currencies are translated into the Fund's functional currency at exchange rates prevailing at the Statement of Financial Position date. Resulting gains or losses are reported in the Statement of Comprehensive Income.

Cash

Cash includes cash in hand, broker cash and deposits held at call with banks and bank overdrafts.

Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or liability.

Transaction costs on the purchase and sale of bonds, forward foreign currency contracts, swaps and futures are included in the purchase and sale price of the investment. Transaction costs shown separately on the Statement of Comprehensive Income comprise fees and agent charges by the depositary or any sub-custodian.

Offsetting financial assets and financial liabilities

Financial assets and financial liabilities are offset when a current legal right of offset exists and there is intent to realise the asset and settle the liability simultaneously or on a net basis.

Income equalisation

Income equalisation is a process by which accrued income included in the price of shares purchased and redeemed during the accounting period is reported to Shareholders. The subscription price of Shares is deemed to include an equalisation payment calculated by reference to the accrued income of the relevant Fund and the first distribution in respect of any Share will include a payment of income usually equal to or greater than the amount of such equalisation payment. The redemption price of each Share will also include an equalisation payment in respect of the accrued income of the relevant Fund up to the date of redemption. Income equalisation is classified as finance costs in the Statement of Comprehensive Income.

Subscriptions receivable and redemptions payable

Subscriptions receivable and redemptions payable relate to receivables on share subscriptions and payables on share redemptions that have been contracted for but not yet settled or delivered on the reporting date, respectively. These are recorded initially at fair value and subsequently measured at amortised cost.

Redeemable participating shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities. The income distributed on these shares is recognised in the Statement of Comprehensive Income as a finance cost.

Subscriptions for shares not yet allocated

Subscriptions for shares not yet allocated are proceeds for Subscriptions received in advance by the Fund.

Securities sold receivable

Securities sold receivable are investments which are no longer held on the portfolio at the year end date but which the Company is yet to receive payment for.

Securities purchased payable

Securities purchase payable are investments which are held on the portfolio at the year end date which the Company has not yet made a payment for.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the financial year ended 31 March 2024

2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

Net asset value per redeemable participating share

The net asset value per redeemable participating share disclosed on the face of the Statement of Financial Position is calculated in accordance with the Articles of Association and the Prospectus by dividing the net assets included in Note 14, by the number of redeemable participating shares outstanding at the financial year end, also included in Note 14.

Distributions

For “Distribution” Shares of Canaccord Genuity Growth Fund and Canaccord Genuity Opportunity Fund, it is the intention of the Directors to distribute income on an annual basis. Distributions will be declared based on the NAV of the last business day of December. Distributions will be paid within one month of the declaration date. To date, none of the aforementioned funds have made any distributions.

For “Distribution” Shares of Canaccord Genuity Balanced Fund, the Directors have discretion to distribute any income on a semi-annual basis. Distributions will be declared based on the NAV of the last business day in June and December each year. Distributions will be paid within one month of the declaration date.

For “Distribution” Shares of Canaccord Genuity Cautious Fund, Canaccord Genuity Bond Fund and Canaccord Genuity Global Equity Fund it is the intention of the Directors to distribute income on a quarterly basis. Distributions will be declared based on the NAV of the last business day of March, June, September and December of each year and paid within one month of the declaration date.

Distributions made during the current year and prior financial period are disclosed in Note 13.

No distributions are declared for share classes classified as “Accumulation”.

Structured Entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

A structured entity often has some or all of the following features or attributes; (a) restricted activities, (b) a narrow and well-defined objective, such as to provide investment opportunities for investors by passing on risks and rewards associated with the assets of the structured entity to investors, (c) insufficient equity to permit the structured entity to finance its activities without subordinated financial support and (d) financing in the form of multiple contractually linked instruments to investors that create concentrations of credit or other risks (tranches).

The Company considers all of its investments in funds to be investments in unconsolidated structured entities on the basis that they hold a number of features similar to that of a structured entity, such as:

- the voting rights in the funds are not dominant rights in deciding who controls them because the rights relate to administrative tasks only;
- each fund’s activities are restricted by its prospectus; and
- the funds have narrow and well-defined objectives to provide investment opportunities to investors.

3. RELATED PARTY DISCLOSURES

Waystone Management Company (IE) Limited (“WMC”) as “Manager” earned fees of EUR107,314 (31 March 2023: EUR103,192) for the year ended 31 March 2024. For the year ended 31 March 2024, Canaccord Genuity Management Company Limited were not paid fees (31 March 2023: EUR68,500). Please see pages 27 and 28 for the payable balance as at 31 March 2024.

The Manager has entered into an Investment Management Agreement and a Marketing and Distribution Agreement with Canaccord Genuity Wealth (International) Limited. Andrew Finch and Grahame Lovett are both directors of the Manager and the Company and employees of Canaccord Genuity Wealth (International) Limited. As such, the staff pension scheme of Canaccord Genuity Wealth (International) Ltd, of which they are members, may from time to time hold shares in the Company.

All fees received by the Investment Manager are disclosed separately in the Statement of Comprehensive Income on pages 31 to 32. The amounts due to the Investment Manager are disclosed on the face of the Statement of Financial Position and the rate of Investment Management fee is disclosed in Note 11.

Brian McDermott a Director of the Company, was a Partner in A&L Goodbody until 31 December 2023, who are the Legal Adviser of the Company. Fees of EUR76,804 (31 March 2023: EUR206,233) were paid to A&L Goodbody during the financial year. Brian McDermott was until 31 December 2023 also a director of A&L Listing, who are the Sponsoring Broker to the Company. Fees of EUR4,650 (31 March 2023: EUR19,680) were paid to A&L Listing during the financial year. Brian McDermott was until 31 December 2023 also a director of Goodbody Secretarial Limited, who are the Company Secretary. Fees of EUR8,810 (31 March 2023: EUR16,058) were paid to Goodbody Secretarial Limited during the financial year.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the financial year ended 31 March 2024

3. RELATED PARTY DISCLOSURES (CONTINUED)

Directors' Interests in Shares of the Company

No Director, nor the Company Secretary, had any beneficial interest in the shares or any significant contracts with the Company during the financial year or in the prior financial period.

Directors' Fees

The total Directors' fees payable in any one year will not exceed GBP100,000 or such higher amount agreed by the Shareholders. Directors' fees charged for the financial year ended 31 March 2024 amounted to GBP51,749 (31 March 2023: GBP49,777). Andrew Finch and Grahame Lovett waived their Director's fee.

The billed amounts stated above differ from those included in the Statement of Comprehensive Income due to under/over accruals and foreign exchange rate fluctuations.

Shareholding of Related Parties

Canaccord Genuity Wealth (International) Limited had an interest in the shares of the Company in the financial year end. During the year ended 31 March 2024, Canaccord Genuity Wealth (International) Limited holds 1,000 shares of Canaccord Genuity 60% Equity Passive Selector Fund (31 March 2023: Nil shares), 1,000 shares of Canaccord Genuity 97.5% Equity Passive Selector Fund (31 March 2023: Nil shares), 1 share of Canaccord Genuity Bond Fund (31 March 2023: Nil shares), 1 share of Canaccord Genuity Cautious Fund (31 March 2023: Nil shares) and 1 share of Canaccord Genuity Global Equity Fund (31 March 2023: 1 share).

4. CASH DEPOSITS AND BANK OVERDRAFT

At 31 March 2024, the Company held cash deposits of GBP16,525,028 (31 March 2023: GBP36,578,841) and bank overdraft of GBP891 (31 March 2023: Nil) with The Northern Trust Company ("TNTC"). TNTC is a wholly owned subsidiary of Northern Trust Corporation. As at 31 March 2024, Northern Trust Corporation had a long term credit rating from Standard & Poor's of A+ (31 March 2023: A+).

A credit facility with TNTC is in operation. Each Fund may borrow up to 10% of its Net Asset Value provided this borrowing is on a temporary basis. Credit balances (i.e. cash) may not be offset against borrowings when determining the percentage of borrowings outstanding. The Company on behalf of each Fund grants TNTC a continuing lien on all assets held in relation to the credit facility and that lien may be exercised for the purposes of securing any sum due and payable by the Funds to TNTC under this facility.

5. SHARE CAPITAL

The authorised share capital of the Company is 500,000,000,000 shares of no par value initially designated as unclassified shares available for issue as shares; the issued subscriber share capital of the Company is GBP7 represented by 7 subscriber shares (issued for the purposes of the incorporation of the Company). Five shares are held by Canaccord Genuity Wealth (International) Limited and the other two are held by Forest Nominees Limited. At the discretion of the Directors, the subscriber shares may be repurchased at their issue price.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the financial year ended 31 March 2024

6. FINANCIAL RISK MANAGEMENT

Global Exposure

The commitment approach is the method used to calculate global exposure on all Funds. As at 31 March 2024, Canaccord Genuity Cautious Fund, Canaccord Genuity Balanced Fund, Canaccord Genuity Growth Fund, Canaccord Genuity Opportunity Fund, Canaccord Genuity Bond Fund, Canaccord Genuity Global Equity Fund and Canaccord Genuity Thematic ESG Fund held forward foreign currency contracts for hedging purposes, except for Canaccord Genuity 60% Equity Passive Selector Fund and Canaccord Genuity 97.5% Equity Passive Selector Fund.

Strategy in Using Financial Instruments

The Funds are indirectly exposed to the inherent risks by virtue of the Funds' investments in underlying investment funds.

All Funds are exposed to a variety of financial risks in pursuing their stated investment objective and policy. These risks include market risk (which in turn includes but not limited to, currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The Funds take exposure to a certain amount of these risks to generate investment returns on a portfolio, although these risks can also potentially result in a reduction in a Fund's net assets. The Investment Manager uses its best endeavours to minimise the potentially adverse effects of these risks to a Fund's performance where it can do so, while still managing the investments of each Fund in a way that is consistent with each Fund's investment objective and policy.

The risks, and the measures adopted by the Funds for managing these risks, are detailed below.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: market price risk, foreign currency risk and interest rate risk.

The Investment Manager moderates market risk through a careful selection of securities and other financial instruments within specified limits, as set out in the Prospectus. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments, possible losses from short positions of derivatives and securities can be unlimited. The Funds' overall market positions are monitored by the Investment Manager and are reported regularly to the Board of Directors.

At 31 March 2024, the Company's market risk is affected by three main components:

- (a) changes in actual market prices ("market price risk");
- (b) foreign currency movements ("foreign currency risk"); and
- (c) interest rate movements ("interest rate risk").

Market Price Risk

Market price risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices.

The values of certain securities held by the Funds are determined by market forces and there is accordingly a risk that market prices can change in a way that is adverse to a Fund's performance. The Funds have adopted a number of investment restrictions which are set out in the Prospectus which limit the exposure of the Fund to adverse changes in the price of any individual financial asset. The Investment Manager monitors Fund positions and reports regularly to the Board of Directors.

For the purposes of valuing underlying investment funds, the Funds do not independently calculate these prices but rely on third party pricing sources.

The maximum risk arising from an investment in a financial instrument is determined by the fair value of the financial instruments, except for short positions in derivatives and securities where the loss may potentially be unlimited.

Effect of -1% change	(69,527)

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the financial year ended 31 March 2024

6. FINANCIAL RISK MANAGEMENT (CONTINUED)

Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Funds are exposed to currency risk as assets and liabilities of a Fund may be denominated in a currency other than the functional currency of the Fund. Whilst additional currency hedging is carried out at a share class level for hedged share classes, this does not change the currency exposure at a Fund level and has therefore, not been included in the tables below.

The currency risk exposure of the Funds (with the exception of Canaccord Genuity 60% Equity Passive Selector Fund and Canaccord Genuity 97.5% Equity Passive Selector Fund), net of hedging at 31 March 2024 and at 31 March 2023 is detailed in the table below.

The fluctuations in the rate of exchange between the currency in which the asset or liability is denominated and the functional currency could result in an appreciation or depreciation in the fair value of that asset. The Investment Manager may attempt to mitigate this risk by using financial derivative instruments.

The Investment Manager monitors currency exposures daily and reports on the overall performance of the Funds quarterly to the Board of Directors.

If the exchange rate of each of the currencies to which the Funds had exposure at 31 March 2024 and at 31 March 2023 had increased by 1% with all other variables held constant, this would have increased net assets attributable to holders of redeemable shares as follows:

Canaccord Genuity Cautious Fund

As at March 31 2024, Canaccord Genuity 60% Equity Passive Selector Fund and Canaccord Genuity 97.5% Equity Passive Selector Fund had no exposure to currency risk.

Interest Rate Risk

As at 31 March 2024, the Funds holding interest bearing assets are shown in the tables overleaf. As a result, they are subject to the risk of potentially adverse movements in the prevailing levels of market interest rates. The Investment Manager may from time to time enter into contracts on behalf of the Funds that seek to mitigate the effects of these movements.

All of the Funds hold cash at bank, which is subject to interest rate risk however, this risk is minimal.

Interest-bearing financial assets are monitored by the Investment Manager as part of the overall Fund portfolio; issues are reported to the Board of Directors on an exception basis.

Credit Risk, Custody and Title Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

As at 31 March 2024, Canaccord Genuity Opportunity Fund and Canaccord Genuity Bond Fund have credit risk exposure to issuers of debt securities held as part of the Funds' investment portfolio.

The Canaccord Genuity Cautious Fund, Canaccord Genuity Balanced Fund, Canaccord Genuity Growth Fund, Canaccord Genuity Opportunity Fund, Canaccord Genuity Bond Fund, Canaccord Genuity Global Equity Fund and Canaccord Genuity Thematic ESG Fund, except for Canaccord Genuity 60% Equity Passive Selector Fund and Canaccord Genuity 97.5% Equity Passive Selector Fund, also have credit risk exposure to counterparties of derivative contracts entered into by each of these Funds for the purpose of currency hedging.

Each Fund limits its exposure to individual issuers of debt securities and counterparties to Over the Counter ("OTC") derivatives in accordance with the investment restrictions set out in the Company's Prospectus. Transactions in securities are generally settled or paid for on delivery, or cleared through the appropriate clearing system for the market on which the securities are traded. The risk of default is not considered to be material, as delivery of securities sold is only made once the Fund's depository has received confirmation of payment. Payment is also only made on a purchase once confirmation of delivery of the securities has been received by the depository. The trade will fail if either party fails to deliver the required confirmations.

Northern Trust Fiduciary Services (Ireland) Limited ("NTFSIL") is the appointed Depository of the Company, and is responsible for the safe-keeping of assets. NTFSIL has appointed The Northern Trust Company ("TNTC") as its global sub-custodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation ("NTC"). As at year-end date 31 March 2024, NTC had a long term credit rating from Standard & Poor's of A+ (31 March 2023: A+).

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the financial year ended 31 March 2024

6. FINANCIAL RISK MANAGEMENT (CONTINUED)

Credit Risk, Custody and Title Risk (Continued)

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland, Canada, Belgium, France, Germany, Netherlands and Saudi Arabia. However, in all other markets, TNTC appoints local external sub-custodians.

NTFSIL, in the discharge of its depositary duties, verifies the Company's ownership of Other Assets, as defined under Art 22(5) of UCITS V Directive 2014/91/EU ("Other Assets"), by assessing whether the Company holds the ownership based on information or documents provided by the Company or where available, on external evidence.

TNTC, in the discharge of its delegated depositary duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the Company, clearly identifiable as belonging to the Company, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition TNTC, as banker, holds cash of the Company on deposit. Such cash is held on the balance sheet of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Company will rank as an unsecured creditor of TNTC in respect of any cash deposits.

Insolvency of NTFSIL and or one of its agents or affiliates may cause the Company's rights with respect to its assets to be delayed.

The Investment Manager monitors the credit quality and financial position of the Depositary and such risk is further managed by the Depositary monitoring the credit quality and financial positions of sub-custodian appointments.

The Investment Manager monitors the Funds' credit exposures in accordance with the requirements of the Company Prospectus and Supplements and advises the Board of Directors on a regular basis on the overall performance of the Funds and associated risks. At 31 March 2024 and at 31 March 2023, the Funds' exposure to credit risk from investments in debt securities was as follows:

Canaccord Genuity Opportunity Fund

	As at 31 March 2024 USD	As at 31 March 2023 USD
Financial assets neither past due nor impaired		
By rating category		
AAA	—	54,034,334
AA+	17,542,140	—
	17,542,140	54,034,334

Canaccord Genuity Bond Fund

	As at 31 March 2024 GBP	As at 31 March 2023 GBP
Financial assets neither past due nor impaired		
By rating category		
AAA	3,724,456	4,239,705
AA+	1,910,736	3,229,120
AA	1,443,285	2,890,961
A	2,710,092	1,432,828
A-	3,505,865	4,141,859
BBB+	3,500,304	3,500,003
BBB	—	1,925,102
	16,794,738	21,359,578

Where relevant please note the following currencies, Jordanian Dinar, Saudi Riyal, cash in the onshore China market (principally the currency of Chinese Yuan Renminbi, and any other currencies remitted into accounts in the onshore China market), are no longer held on the Balance Sheet of TNTC. For these off-book currencies, clients' cash exposure is directly to the relevant local sub-custodian / financial institution in the market.

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities as they fall due.

The Funds are exposed to daily cash redemptions of redeemable shares. The Funds invest the majority of their assets in securities and other instruments that are traded on an active market and which are considered to be liquid as they can be readily disposed of in the event that cash needs to be raised to meet redemptions or to pay expenses.

The Investment Manager monitors liquidity and reports regularly to the Board of Directors.

At 31 March 2024 and at 31 March 2023, the Company's financial liabilities were all due within one month.

US Dollar	0.8088	1.0000

8. SOFT COMMISSION AND DIRECT BROKERAGE ARRANGEMENTS

There were no soft commission or direct brokerage arrangements during the financial year or in the preceding financial year.

9. TAXATION

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. It is not chargeable to Irish tax on its income or capital gains. However, the Company is obliged to apply withholding tax on the happening of a "chargeable event" including any distribution payments to Irish resident Shareholders or to Shareholders that are ordinarily resident in Ireland or on any encashment, redemption or transfer or deemed disposal of Shares by Irish resident Shareholders or by Shareholders that are ordinarily resident in Ireland, unless the Shareholder is exempted under Section 739D of the Taxes Consolidation Act, 1997, as amended. No tax will be required to be withheld by the Company in respect of chargeable events in respect of Shareholders who complete a relevant declaration confirming that they are neither Irish resident nor ordinarily resident in Ireland.

If the Company fails to deduct the tax or fails to collect the appropriate signed declaration from any non-resident or exempted Shareholders, the Company will remain liable for the tax. In these circumstances, the Company would seek to recover the tax paid from the relevant Shareholder.

Capital gains, dividends and interest received by the Company may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its Shareholders.

10. EFFICIENT PORTFOLIO MANAGEMENT

The Company may, on behalf of certain Funds, employ investment techniques and Financial Derivative Instruments for efficient portfolio management purposes and for currency hedging purposes subject to the conditions and within the limits laid down by the Central Bank. The Company and its relevant Funds may only invest in Financial Derivative Instruments as described in the Prospectus.

The counterparties used during the year included TNTC for over-the-counter derivatives. The realised and unrealised gains and losses arising during the year through the use of efficient portfolio management techniques are disclosed in the Statement of Comprehensive Income.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the financial year ended 31 March 2024

10. EFFICIENT PORTFOLIO MANAGEMENT (CONTINUED)

Open Financial Derivative Instrument contracts at the financial year end are disclosed in the Investment Portfolios which can be seen on pages 98 to 119, including the relevant Counterparty, the underlying securities, currencies or indices, and the market value or unrealised gain/loss on the contract at the financial year end.

11. FEES AND OTHER EXPENSES

Investment Manager

The Investment Manager is entitled to an investment management fee for the launched Share Classes as set out below. Investment Management fees accrue daily and are paid monthly in arrears in the currency of the relevant Fund. Fee rates are based on the Net Asset Value of the Fund attributable to the class shares.

Share class	Investment Management Fee

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the financial year ended 31 March 2024

11. FEES AND OTHER EXPENSES (CONTINUED)

Investment Manager (Continued)

On Canaccord Genuity Cautious Fund and Canaccord Genuity Bond Fund, the Investment Management fees are allocated to capital. On Canaccord Genuity Balanced Fund, 50% of all ongoing Investment Management fees are allocated to capital.

The result of this allocation policy is that the capital growth of the Fund is less than if all Investment Management fees were charged to income. For financial reporting purposes the total fee is charged to the Statement of Comprehensive Income.

Expenses for the Fund are disclosed in the Statement of Comprehensive Income on pages 31 to 32.

Management Company

The fees of the Waystone Management Company (IE) Limited ("Management Company") are up to 0.01% per annum of the Net Asset Value of each Fund. The fees are accrued daily and paid monthly in arrears. The Management Company is entitled to be repaid all of its reasonable agreed upon transaction and other charges (which will be at normal commercial rates) and other out-of-pocket expenses out of the assets of the Fund (plus VAT thereon, if any). For 31 March 2024, the fees of the Waystone Management Company (IE) Limited were 0.07% per annum of the Net Asset Value of each Fund.

Depository

The Depository is entitled to receive out of the assets of the Company, a monthly fee, accrued daily and payable monthly in arrears, based on the number of transactions and the Net Asset Value of each Fund, up to a maximum fee of 0.02% of the Net Asset Value of the Company per annum, subject to a minimum annual fee of GBP67,500 (31 March 2023: GBP57,000) in respect of the Company.

Sub-Custodian

The Depository shall also be entitled to receive out of the assets of each Fund safe-keeping fees and transaction charges. Any sub-custody fees are at normal commercial rates.

Administrator

The Administrator is entitled to receive out of the assets of the Company, a monthly fee, accrued daily and payable monthly in arrears, up to a maximum fee of 0.06% of the Net Asset Value of the Company per annum, subject to a minimum annual fee of GBP165,000 (31 March 2023: GBP138,000) in respect of the Company.

Transaction Costs

Transaction costs incurred by the Funds for the financial year ended 31 March 2024, are shown separately on the Statement of Comprehensive Income and for the financial year amounted to GBP22,158 (31 March 2023: GBP14,380).

Auditor's Remuneration

The independent auditor, Grant Thornton, charged Statutory audit fees of EUR63,900 (excluding VAT) (31 March 2023: EUR47,775). There were no other fees charged by Grant Thornton during the financial year.

The billed amounts stated above differ from those included in the Statement of Comprehensive Income due to under/over accruals and foreign exchange rate fluctuations or out of pocket expenses.

Other Information

Events arising in Ukraine, as a result of military action being undertaken by Russia in Ukraine, may impact on securities directly or indirectly related to companies domiciled in Russia and/or listed on exchanges located in Russia ("Russian Securities"). As at 31 March 2024, none of the Funds, have direct exposure to Russian Securities. The Directors are monitoring developments related to this military action, including current and potential future interventions of foreign governments and economic sanctions.

On 29 September 2023, KBA Consulting Management Limited, the Management Company of the Company, completed its merger with Waystone Management Company (IE) Limited ("WMC"). WMC is the surviving entity post-merger and as such, the Company's Management Company is WMC from this date.

There were no other significant events during the financial year end, which, in the opinion of the Directors of the Company, may have an impact on the financial statements for the financial year ended 31 March 2024.

RISK ITEM (UNAUDITED)

Cybersecurity Risk

Cybersecurity breaches may occur allowing an unauthorized party to gain access to assets of the Funds, Shareholder data, or proprietary information, or may cause the Company, the Investment Manager, the Marketing and Distributing Agents, the Administrator, the Depositary or the UCITS Management Company to suffer data corruption or lose operational functionality.

The Funds may be affected by intentional cybersecurity breaches which include unauthorized access to systems, networks, or devices (such as through “hacking” activity); infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. In addition, unintentional incidents can occur, such as the inadvertent release of confidential information (possibly resulting in the violation of applicable privacy laws). A cybersecurity breach could result in the loss or theft of Shareholder data or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs. Such incidents could cause the Company, the Investment Manager, the UCITS Management Company, the Marketing and Distributing Agents, the Administrator, the Depositary, or other service providers to incur regulatory penalties, reputational damage, additional compliance costs, or financial loss. Consequently, Shareholders may lose some or all of their invested capital. In addition, such incidents could affect issuers in which a Fund invests, and thereby cause a Fund's investments to lose value, as a result of which investors, including the relevant Fund and its Shareholders, could potentially lose all or a portion of their investment with that issuer.

REMUNERATION DISCLOSURE (UNAUDITED)

The Manager has designed and implemented a remuneration policy (the “Policy”) in line with the provisions of S.I. 257 of 2013 European Union (Alternative Investment Fund Managers) Regulations 2013 (the “AIFM Regulations”), S.I. 352 of 2011 European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”) and of the ESMA Guidelines on sound remuneration policies under the UCITS Directive and AIFMD (the “ESMA Guidelines”). The Policy is designed to ensure that the remuneration of key decision makers is aligned with the management of short and long-term risks, including the oversight and where appropriate the management of sustainability risks in line with the Sustainable Finance Disclosure Regulations.

The Manager’s remuneration policy applies to its identified staff whose professional activities might have a material impact on the Company’s risk profile and so covers senior management, risk takers, control functions and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers and whose professional activities have a material impact on the risk profile of the Company. The Manager’s policy is to pay identified staff a fixed component with the potential for identified staff to receive a variable component. It is intended that the fixed component will represent a sufficiently high proportion of the total remuneration of the individual to allow the Manager to operate a fully flexible policy, with the possibility of not paying any variable component. When the Manager pays a variable component as performance related pay certain criteria, as set out in the Manager’s remuneration policy, must be adhered to. The various remuneration components are combined to ensure an appropriate and balanced remuneration package that reflects the relevant staff rank and professional activity as well as best market practice. The Manager’s remuneration policy is consistent with, and promotes, sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile of the funds it manages

These disclosures are made in respect of the remuneration policies of the Manager. The disclosures are made in accordance with the ESMA Guidelines.

Total remuneration (in EUR) paid to the identified staff of the Manager fully or partly involved in the activities of the Company that have a material impact on the Company’s risk profile during the financial year to 31 March 2024 (the Manager’s financial year):

Fixed remuneration	EUR
Senior Management	1,578,804
Other identified staff	-
Variable remuneration	
Senior Management	28,006
Other identified staff	-
Total remuneration paid	1,606,810

No of identified staff – 17.

Neither the Manager nor the Company pays any fixed or variable remuneration to identified staff of the Investment Manager.

On 29 September 2023, KBA Consulting Management Limited, the Manager of the Company, completed its merger with Waystone Management Company (IE) Limited (“WMC”). WMC is the surviving entity post-merger and as such, the Company’s Manager is WMC from this date and the above remuneration figures are the total remuneration for WMC.

There have been no material changes made to the Remuneration Policy or the Manager’s remuneration practices and procedures during the financial year.

SECURITIES FINANCING TRANSACTIONS REGULATION (UNAUDITED)

The Securities Financing Transactions Regulation, as published by the European Securities and Markets Authority, aims to improve the transparency of the securities financing markets. Disclosure regarding exposure to Securities Financing Transactions ("SFTs") is required on all reports and accounts published after 13 January 2017. During the financial year ending 31 March 2024, none of the Funds entered into any Securities Financing Transactions.

SUSTAINABLE FINANCE DISCLOSURE REGULATION AND TAXONOMY REGULATION (UNAUDITED)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Canaccord Genuity Thematic ESG Fund Legal entity identifier: 635400I9R32PRTEN3666

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ____%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ____%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met

Reporting Period 1 April 2023 to 31 March 2024

78% of the fund was invested in Article 9 funds which aligned with the environmental and social characteristics of the fund. These funds had a thematic positive impact focus.

The Fund is a 'fund of funds' that pursues its investment objective by investing primarily in a diversified range of thematic funds that deliver competitive returns, mitigate ESG risks, pursue ESG opportunities and focus on measurable impact solutions. All underlying fund holdings are selected by the Investment Manager because they seek to help achieve a defined sustainability challenge.

SUSTAINABLE FINANCE DISCLOSURE REGULATION AND TAXONOMY REGULATION (UNAUDITED) (CONTINUED)

The Fund is actively managed and is not managed or constrained in any way by a benchmark. All underlying holdings are selected by the Investment Manager because they seek to help achieve a defined sustainability challenge, such as those identified by the UN Sustainable Development Goals as having a positive impact on society, see below.

Of the 97% of the portfolio covered we had no companies involved in any activities related to controversial weapons, (b) companies involved in the cultivation and production of tobacco, and (c) companies that benchmark administrators find in violation of the United Nations Global Compact (UNGC) principles

● *How did the sustainability indicators perform?*

Of the 97% of the portfolio covered by Sustainalytics we have 3.33% of the portfolio invested in companies that are exposed to corporations that make any revenue from activities related to fossil fuels.

Of the 97% of the portfolio covered by Sustainalytics none of the portfolio invested in companies that are exposed to corporations that make any revenue from activities related to controversial weapons.

Of the 97% of the portfolio covered by Sustainalytics none of the portfolio invested in that have violations of the United Nations Global Compact (UNGC) principles or Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises.

Of the 98% of the portfolio covered by Sustainalytics 9% of the portfolio was exposed to companies deriving more than 50% of their revenues from products that promote good health and wellbeing (SDG3)

Of the 98% of the portfolio covered by Sustainalytics 5% of the portfolio was exposed to companies deriving more than 50% of their revenues from products that promote clean water and sanitation (SDG6).

Of the 98% of the portfolio covered by Sustainalytics 7% of the portfolio was exposed to companies deriving more than 50% of their revenues from products that promote affordable and clean energy (SDG7)

Of the 98% of the portfolio covered by Sustainalytics 7% of the portfolio was exposed to companies deriving more than 50% of their revenues from products that promote industry, innovation and infrastructure (SDG9)

Of the 98% of the portfolio covered by Sustainalytics 8% of the portfolio was exposed to companies deriving more than 50% of their revenues from products that promote sustainable cities and communities (SDG11)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

SUSTAINABLE FINANCE DISCLOSURE REGULATION AND TAXONOMY REGULATION (UNAUDITED) (CONTINUED)

Of the 98% of the portfolio covered by Sustainalytics 8% of the portfolio was exposed to companies deriving more than 50% of their revenues from products that promote responsible consumption and production (SDG12)

Of the 98% of the portfolio covered by Sustainalytics 5% of the portfolio was exposed to companies deriving more than 50% of their revenues from products that promote climate action (SDG13)

Of the 98% of the portfolio covered by Sustainalytics 2% of the portfolio was exposed to companies deriving more than 50% of their revenues from products that promote life below water (SDG14)

Of the 98% of the portfolio covered by Sustainalytics 1% of the portfolio was exposed to companies deriving more than 50% of their revenues from products that promote life on land (SDG15)

- ***...and compared to previous periods?***

This is the first full reportable period so comparable data is not yet available.

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A – the Fund does not commit to making sustainable investments.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Our strategy avoided exposure to, companies associated with controversial weapons, tobacco, and and thermal coal. The fund fulfills this goal as its investment exposure to each of these activities is zero. The fund avoided companies breaching international norms, including the UN Global Compact or the Universal Declaration of Human Rights.

How were the indicators for adverse impacts on sustainability factors taken into account?

We looked at two main metrics from a quant perspective.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A – the Fund does not commit to making sustainable investments.

SUSTAINABLE FINANCE DISCLOSURE REGULATION AND TAXONOMY REGULATION (UNAUDITED) (CONTINUED)

How did this financial product consider principal adverse impacts on sustainability factors?

Environmental

Of the 87% of the portfolio covered by Sustainalytics we measured the amount in tonnes per million Euro invested for the Greenhouse Gas (GHG) scope 1, 2, and 3 emissions that are attributable to the portfolio. The portfolio carbon footprint is the amount of GHG emissions in tonnes divided by the amount invested in Euros. Calculated by working out for each unique long holding the percentage of that company that the portfolio owns. This equated to 343 Tonnes of CO₂eq/EURmil.

Of the 91% of the portfolio covered by Sustainalytics the weighted average for the portfolio of the underlying holding's Greenhouse Gas (GHG) intensity scope 1, 2, and 3. The average only includes long holdings for which the GHG intensity scope 1, 2, and 3 are known. The GHG intensity for a company is a measure of its emissions per million Euros of revenue. This equated to 419 Tonnes of CO₂eq/EURmil.

Of the 86% of the portfolio covered by Sustainalytics the amount in tonnes of Scope 1, 2, and 3 Greenhouse Gas (GHG) emissions that is attributable to the portfolio. Calculated by working out for each unique holding the percentage of that company that the portfolio owns. Each holding's responsible share of the Scope 1, 2, and 3 Greenhouse Gas (GHG) emissions are summed. This only includes the long portion of the holdings for which the data is available. This equated to 3.51 Tonnes of CO₂eq.

Social

Of the 97% of the portfolio covered by Sustainalytics the percentage of the covered long portfolio holdings invested in corporate securities that are exposed to corporations that make any revenue from controversial weapons was zero.

Of the 97% of the portfolio covered by Sustainalytics the percentage of the covered long portfolio holdings invested in corporate securities that are exposed to corporations that have violations of the United Nations Global Compact (UNGC) principles or Organisation for Economic Co-operation and Development (OECD) Guidelines for Multinational Enterprises was zero.

SUSTAINABLE FINANCE DISCLOSURE REGULATION AND TAXONOMY REGULATION (UNAUDITED) (CONTINUED)

What were the top investments of this financial product?

Weightings provide at fixed point - 31 March 2024.

Largest investments	Sector	% Assets	Country
<i>Impax Environmental</i>	<i>Ecology</i>	<i>10%</i>	<i>Ireland</i>
<i>Ninety One Global</i>	<i>Ecology</i>	<i>9%</i>	<i>Luxembourg</i>
<i>Robeco Capital Growth</i>	<i>Environmental</i>	<i>9%</i>	<i>Luxembourg</i>
<i>Regnan Water & Waste</i>	<i>Ecology</i>	<i>7%</i>	<i>Ireland</i>
<i>Candriam Oncology</i>	<i>Healthcare</i>	<i>9%</i>	<i>Luxembourg</i>

- Candriam Oncology (Article 9)
- Baillie Gifford Positive Change (Article 9)
- Stewart Investors GEM Sustainability (Article 9)

Asset allocation
describes the
share of
investments in
specific assets.

SUSTAINABLE FINANCE DISCLOSURE REGULATION AND TAXONOMY REGULATION (UNAUDITED) (CONTINUED)

Other (c22%)

- Baillie Gifford Responsible Income (Article 8)
- Brown Advisory US Sustainable Growth (Article 8)
- Cash

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● ***In which economic sectors were the investments made?***

- 7% in basic materials
- 10% in consumer goods
- 6% in financial services
- 0.5% in real estate
- 1.4% in communication services
- 23% in industrials
- 30% in technology
- 18% in healthcare
- 4% in utilities

SUSTAINABLE FINANCE DISCLOSURE REGULATION AND TAXONOMY REGULATION (UNAUDITED) (CONTINUED)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Although the Fund has set a minimum of 0% alignment with EU Taxonomy-aligned activities, in practice it had 40% alignment according to data from 91 Global Environment, Impax, Regnan, Pictet, Stewart Investors and Baillie Gifford for the period ending 31 March 2024.

● Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy?

No

● What was the share of investments made in transitional and enabling activities?

N/A – the Fund does not commit to making sustainable investments

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A – the Fund does not commit to making sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – the Fund does not commit to making sustainable investments.

What was the share of socially sustainable investments?

N/A – the Fund does not commit to making sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

- Brown Advisory US sustainable Growth (A8)
- Baillie Gifford Responsible Global Income (A8)

SUSTAINABLE FINANCE DISCLOSURE REGULATION AND TAXONOMY REGULATION (UNAUDITED) (CONTINUED)

These two funds are Article 8 funds that invest in ESG leaders and have an exclusion policy. The managers use their own research and third-party data to assess whether companies are managed and behave responsibly. In making this assessment, they make reference to the ten principles of the United Nations Global Compact for business which cover areas including human rights, labour rights, environmental safeguards and combating bribery and corruption. They will not invest in companies that are, in its judgement, inconsistent with the Principles. In addition, investments in companies operating to a significant degree in certain areas will also be completely excluded. For Baillie Gifford these exclusions are companies which derive a significant degree (being more than 10 per cent) of their annual revenues from (i) the production or sale of tobacco, alcohol, weapons and armaments or adult entertainment, (ii) fossil fuel extraction and production, or (iii) the provision of gambling services.

Brown Advisory take a slightly different approach. They identify companies which positively contribute to identified sustainability characteristics, being one or more of: Affordable Housing, Clean Energy, Clean Water and Sanitation, Diversity, Inclusion and Equality, Economic Mobility and Community Development, Education, Efficient Production and Conservation, Health and Wellness, Sustainable Agriculture and Natural Resource Management, Sustainable Finance, Sustainable Technology Innovation. They exclude knowingly owning equity securities of companies:

- that defy the UNGC Principles and/or
- that directly manufacture controversial weapons (defined as cluster munitions, land mines, and/or depleted uranium); and/or
- that conduct animal testing for non-medical purposes and do not exhibit strong ethical policies and practices; and/or
- whose primary business activities are directly tied to conventional exploration, extraction, production, manufacturing or refining coal, oil or gas; and/or
- whose primary business activities are directly tied to producing electricity derived from fossil fuels; and/or
- with significant assets directly invested in conventional fossil fuel reserves.

The Brown Advisory fund also applies the following investment guidelines in respect of underlying issuers to ensure that a company will not be included if it knowingly has more than:

- 5% of its revenue derived directly from the manufacture of conventional weapons; and/or
- 5% of its revenue derived directly from alcohol products; and/or
- 5% of its revenue derived directly from tobacco products; and/or

SUSTAINABLE FINANCE DISCLOSURE REGULATION AND TAXONOMY REGULATION (UNAUDITED) (CONTINUED)

- 5% of its revenue derived directly from adult entertainment; and/or
- 5% of its revenue derived directly from gambling.
- Cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager executed the following ESG integration methods during the reference period to measure and promote the ESG characteristics described in previous section.

1. The Investment Manager conducted regular meetings with underlying portfolio fund managers to obtain additional research insights, encourage positive change for the ESG characteristics promoted, and to discuss any material controversies. Through regular meetings and discussions with fund managers, the Investment Manager actively seeks increased transparency by encouraging more frequent and robust disclosure and the establishment of tangible ESG goals.

2. Excluded Investments

The Fund applied Revenue Exclusions and the Human Rights Exclusions throughout the Reporting Period and :

- invested no more than 3.33% of its total assets, excluding cash, in issuers that derived any of their annual revenues from fossil fuel
- did not hold investments in any issuers that derived any of their annual revenue from the sale of tobacco;
- did not hold any investments in any issuers that derived any amount of revenue from the production or sale of controversial weapons; and
- did not hold investments in any issuers that were in breach of the principles of the United Nations Global Compact, including those in relation to the use of forced or child labour.

How did this financial product perform compared to the reference benchmark?

N/A – no such reference benchmark has been designated.

- *How does the reference benchmark differ from a broad market index?*

N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
