**SUB-FUND SUITABILITY**

<p><b>WHO IS THE SUB-FUND SUITABLE FOR?</b></p> <p>The ILP Sub-Fund is only suitable for investors who aim to generate a long-term total return. Investors should be aware that their capital is at risk and that there is no guarantee that the positive total returns will be achieved over any time period.</p> <p>It is important to remember that, as with most investments, the value of your investments are not guaranteed and can go down as well as up. Therefore we suggest that you only invest money that can be committed for the medium to long term. You should also bear in mind that securities held within a fund may not be denominated in the currency of that fund, so unit prices may fall purely on account of exchange rate fluctuations.</p> <p>Please note that Friends Provident International Limited ('FPIL') investment products are intended for medium to long term investment and are not therefore designed for early surrender. If you do surrender early, a product surrender charge may be applied. Please note that the earlier you terminate your plan, the more you may lose.</p>	<p><b>Further Information</b></p> <p>-Refer to the section on 'Fees and Charges' in the relevant Product Summary.</p> <p>-Refer to the 'Quilter Cheviot International Growth Portfolio' supplement of the underlying fund's prospectus for further information on the suitability of the Sub-Fund.</p>

We endeavour to maintain a cash balance limit of up to 0.75%.</p> <p>The underlying fund of the ILP Sub-Fund is an accumulation fund, which means the fund will automatically reinvest any dividends.</p> <p>*This is a fund constituted in the form of an umbrella type open-ended investment company with variable capital and segregated liability between sub-funds and incorporated with limited liability under the laws of Ireland with registered number 271517, authorised by the Central Bank on 10 October 1997 as a UCITS, pursuant to the UCITS Regulations.</p>	<p>-Refer to the 'Quilter Cheviot International Growth Portfolio' supplement - 'Investment Objective and Policies' section of the underlying fund's prospectus for further information on the features of the Fund.</p>

KEY RISKS	
<p><b>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</b></p> <p>-The value of an investment is not guaranteed and can go up and down depending on performance. You could get back less than you have paid in. At times, the ILP Sub-Fund may (subject to the Appointed Actuary's agreement and provisions allowed for in the Policy Conditions) need to change the way its price is calculated, to ensure that those moving in and out of the ILP Sub-Fund are treated fairly. This can have a negative effect on the ILP Sub-Fund's price and performance.</p> <p>-Fund managers have the ability, in exceptional circumstances, to suspend trading in their Funds for as long as necessary. When this occurs we will need to delay the redeeming or switching of units in the relevant Fund. You may not be able to access your money during this period.</p> <p><b>These risk factors may cause you to lose some or all of your investment:</b></p>	<p><b>Further Information</b></p> <p>-Refer to the 'Valuations and Pricing' section of your Policy Conditions for further information.</p> <p>-Refer to the 'Risk Factors' section of the underlying fund's prospectus for further information on the risks of the Fund.</p>
Market and Credit Risks	
<p><b>Investment risk:</b> There is no guarantee that the Fund will achieve its objective. A capital loss of some or all of the amount invested may occur.</p> <p><b>Credit risk:</b> The issuer of a bond or similar investment within the Fund may not pay income or repay capital to the Fund when due. Bonds which are rated below investment grade are considered to have a high risk exposure with respect to meeting their payment obligations.</p> <p><b>Interest Rate risk:</b> Investments in bonds are affected by interest rates and inflation trends which may affect the value of the Fund.</p> <p><b>Emerging Markets risk:</b> Less developed countries may face more political, economic or structural challenges than developed countries.</p> <p><b>Currency risk:</b> The hedging process may not give a precise hedge and some currency risk may remain. In addition, where the Fund holds assets denominated in currencies other than US Dollars, the value of your shares may rise and fall as a result of the exchange rate movements.</p>	

**Liquidity Risks**

**Liquidity risks:** There may be occasions when the manager is unable to sell some or all of the shares within the Fund, which could delay payment or redemption of proceeds.

**Product-Specific Risks**

**Derivatives risks:** The Fund uses derivatives to generate returns and/or to reduce costs and the overall risk of the Fund. Using derivatives can involve a higher level of risk. A small movement in the price of an underlying investment may result in a disproportionately large movement in the price of the derivative investment. Derivatives also involve counterparty risk where the institutions acting as counterparty to derivatives may not meet its contractual obligations.

**Strategy risk:** As the Fund primarily invests in other collective investment schemes, which themselves invest in assets such as bonds, company shares, cash and currencies, it will be subject to the collective risks of these other funds. This may include Emerging Markets risk and sub-investment grade credit risk.

**Capital Erosion risk:** The Fund takes charges from capital of the Fund. Investors should be aware that there is potential for capital erosion if insufficient capital growth is achieved by the Fund to cover the charges. Capital erosion may have the effect of reducing the level of income generated.

**FEES AND CHARGES**

**WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?**

Charges are deducted by both FPIL and the underlying investment managers at each valuation point before calculating the unit price, as set out below.

If you decide to exit the policy during this time you should complete the Cancellation Form (enclosed with your Policy Documents) and send this back to the address provided, together with the original Policy Documents. If you elect to exit your policy after the cooling off period has expired, penalties may be applied.

-If you no longer wish to invest in this FPIL ILP Sub-Fund you have selected, you may switch all or part of your holdings into an alternative Fund(s) by sending us a completed Switch/Redirection Request form, signed. Switching from one Fund to another is done on a bid to bid basis, without charge (although we do reserve the right to charge). If you are switching between currencies, the relevant exchange rates will be applied and shown on your switch confirmation.

The sale proceeds that you will receive will be the realisation price multiplied by the number of units sold, less any charges. An example (assuming a redemption charge of 4%) is as follows\*:

Realisation price proceeds	Number of units sold	Gross Realisation
S\$0.93	x 100,000	= S\$93,000

  

Gross Realisation price proceeds	Realisation Fee	Net Realisation
S\$93,000	- S\$3,720	= S\$89,280
