Capital Guaranteed	No	Dealing Frequency	Every UK Business Day
Name of Guarantor	N/A	Expense Ratio for the underlying fund	1.05% (as at 31/03/2021)

SUB-FUND SUITABILITY

WHO IS THE SUB-FUND SUITABLE FOR?

The ILP Sub-Fund is only suitable for investors who have a long term investment horizon and are prepared to accept a moderate level of volatility. Please note the ILP Sub-Fund does not distribute income and where applicable will re-invest any income received from the underlying fund.

It is important to remember that, as with most investments, the value of your investments are not guaranteed and can go down as well as up. Therefore we suggest that you only invest money that can be committed for the medium to long term. You should also bear in mind that securities held within a fund may not be denominated in the currency of that fund, so unit prices may fall purely on account of exchange rate fluctuations.

Please note that Friends Provident International Limited ('FPIL') investment products are intended for medium to long term investment and are not therefore designed for early surrender. If you do surrender early, a product surrender charge may be applied. Please note that the earlier you terminate your plan, the more you may lose.

Additional Information

For details of surrender charges please refer to the section on 'Fees and Charges' in the relevant Product Summary. Please refer to the underlying fund's prospectus for further information on the suitability of the Sub-Fund.

KEY FEATURES OF THE SUB-FUND

WHAT ARE YOU INVESTING IN?

You are investing in an ILP Sub-Fund that invests in the Fidelity Funds – US Dollar Bond Fund* ('the Fund' or 'underlying fund'), apart from a proportionately small amount which may be held as a cash balance to optimise dealing efficiencies in the underlying fund. We endeavour to maintain a cash balance limit of up to 0.75%. The underlying fund is an accumulation fund, which means the fund will automatically reinvest any dividends.

*This is a fund constituted in the form of an open-ended investment company established in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier.

Please refer to the 'Investment Objective' section of the underlying fund's Singapore prospectus for further information on the features of the Fund.

Investment Strategy

¹ For ILP sub-fund that feeds 100% into an underlying CIS fund, some information provided below could be similar to the underlying CIS fund. In this instance this ILP sub-fund will be at minimum feed 99.25% into the underlying CIS fund.

<p>The Sub-Fund invests principally in US Dollar denominated debt securities. The Sub-Fund is actively managed.</p> <p>The Investment Manager will, when selecting investments for the Sub-Fund and for the purposes of monitoring risk, consider the ICE BofAML US Large Cap Corporate & Government Index (the “Benchmark”) as the Benchmark constituents best represent the characteristics the Sub-Fund is seeking to gain exposure to. When monitoring risk, the Investment Manager references the Benchmark for the purpose of setting internal guidelines. These guidelines represent overall levels of exposure relative to the Benchmark and do not imply that the Sub-Fund will invest in the Benchmark’s constituents. Where the Sub-Fund invests in securities that are included in the Benchmark its allocation to those securities is likely to differ from the Benchmark allocation.</p> <p>The Investment Manager has a wide degree of freedom relative to the Benchmark with regards to investment selection and it may invest in issuers, sectors, countries and security types not included in the Benchmark in order to take advantage of investment opportunities. It is expected that over long time periods, the Sub-Fund’s performance will differ from the Benchmark. However, over short time periods, the Sub-Fund’s performance may be close to the Benchmark, depending on market conditions.</p> <p>The Sub-Fund’s performance can be compared to the Benchmark.</p>	<p>Please refer to the ‘Investment Objectives’ section of the underlying fund’s Singapore prospectus for further information on the features of the Fund.</p>
---	---

Parties Involved

<p>WHO ARE YOU INVESTING WITH?</p> <p>Management Company of the underlying fund: FIL Investment Management (Luxembourg) S.A.</p> <p>Investment Manager of the underlying fund: FIL Fund Management Limited</p> <p>Sub-Manager of the underlying fund: FIL Investment Management (Singapore) Limited</p> <p>Depository of the underlying fund: Brown Brothers Harriman (Luxembourg) S.C.A.</p> <p>Singapore Representative: FIL Investment Management (Singapore) Limited</p>	<p>Please refer to the ‘Management and Administration’ section of the underlying fund’s Singapore prospectus for further information on the roles and responsibilities of these entities and what happens if they become insolvent.</p>
--	---

KEY RISKS

<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>-The value of an investment is not guaranteed and can go up and down depending on performance. You could get back less than you have paid in. At times, the ILP Sub-Fund may, subject to the Appointed Actuary’s agreement and provisions allowed for in the Policy Conditions, need to change the way its price is calculated, to ensure that those moving into and out of the ILP Sub-Fund are treated fairly. This can have a negative effect on the ILP Sub-Fund’s price and performance.</p> <p>-Fund managers have the ability, in exceptional circumstances, to suspend trading in their funds for as long as necessary. When this occurs we will need to delay the ‘cashing in’ or switching of units in the relevant fund. You may not be able to access your money during this period.</p> <p>These risk factors may cause you to lose some or all of your investment:</p>	<p><u>Additional Information</u> Please refer to the ‘Valuations and Pricing’ section of your Policy Conditions for further information. Please refer to the ‘Risk Factors’ section of the underlying fund’s prospectus for further information on the risks of the Fund.</p>
---	--

Market and Credit Risks

<p>You are exposed to investment risk -There is no guarantee that the Fund will achieve its objective. A capital loss of some or all of the amount invested may occur.</p> <p>You are exposed to foreign currency risk</p>	
--	--

<p>-The Fund's total return and balance sheet can be significantly affected by foreign exchange rate movements if the Fund's assets and income are denominated in currencies other than the base currency of the Fund and this means that currency movements may significantly affect the value of the Fund's share price.</p> <p>You are exposed to interest rate risk -Investments in bonds are affected by interest rates and inflation trends which may affect the value of the Fund.</p> <p>You are exposed to Country Concentration Risk. -The Sub-Fund's concentrated investment in a single or small number of countries may increase its volatility due to the greater exposure to market, political, policy, foreign exchange, liquidity, tax, legal, regulatory, economic and social risks of those countries.</p>	
Liquidity Risks	
<p>You are exposed to liquidity risks -There may be occasions when the manager is unable to sell some or all of the shares within the Fund, which could delay payment or redemption of proceeds.</p>	
Product-Specific Risks	
<p>You are exposed to Bonds and other Debt Instruments, downgrading risk, credit/default risk and credit rating risk and valuation risk. -The value of bonds and debt instruments will fluctuate depending on e.g. market interest rates, issuer's credit quality, and liquidity considerations, and there are risks of downgrading, credit/default, credit rating and valuation associated with such investment.</p> <p>You are exposed to Sovereign Debt Risk. -Investments in securities issued or guaranteed by governments may involve political, social and economic risks. The Sub-Fund may suffer significant losses if issuers default or restructure such debts.</p> <p>You are exposed to Stock/Issuer Concentration Risk. -The Sub-Fund's NAV may be more volatile due to the concentration of investments in a relatively small number of investments or issuers compared to a more diversified portfolio.</p> <p>You are exposed to FDIs Risk. FDIs may involve liquidity, counterparty credit, volatility, valuations and OTC transaction risks, and may cause losses significantly greater than the amount invested in FDI by the Sub-Fund due to leverage.</p> <p>You are exposed to Income-producing Securities Risk. There is no guarantee that the Sub-Fund's investments will generate income.</p>	
FEES AND CHARGES	
<p>WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?</p> <p>Charges are deducted by both FPIL and the underlying investment managers at each valuation point before calculating the unit price, as set out below.</p> <p>FPIL charges (payable directly by you)</p>	<p>For full details of the charges that may apply please refer to the section on 'Fees and Charges' in the relevant Product Summary.</p>

You will need to pay an ILP Sub-Fund administration charge of 1.2%.
 There is currently no charge for switching funds although switching to a fund which differs from your plan currency may involve a cost associated with currency exchange. However, we reserve the right to charge for switches under certain conditions.
 Any sales and/or redemption charges will be determined by the terms of your Policy Conditions.

Please refer to the 'Charges' section of your Policy Conditions for further information.

Underlying investment managers' charges (these charges are as at 31/03/21 and are payable by the ILP Sub-Fund from invested proceeds)

Annual Management Charge (AMC)	0.75%
Additional Expenses	0.30%
Expense Ratio *	1.05%
Performance Fee	Nil

*The Expense Ratio above is quoted in the underlying fund prospectus as the Ongoing Charges Figure ("OCF").

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

Every UK Business Day
 Latest fund prices can be obtained from <http://www.fpinternational.sg/fund-centre/>

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

There is a Cooling off period of 14 days from when you receive your Policy Documents. If you decide to exit the policy during this time you should complete the cancellation form and send this back to the address provided, together with the original Policy Documents. We will refund any monies paid, less any shortfall (if any) which may result if the value of your investment falls by the time you tell us of your wish to cancel. If you elect to exit your policy after the Cooling off period has expired, penalties may be applied.

If you no longer wish to invest in this FPIL ILP Sub-fund you have selected, you may switch all or part of your holdings into alternative fund(s) by sending us a completed Fund Transfer Request form, signed. Switching from one fund to another is done on a bid to bid basis, without charge (although we do reserve the right to charge). If you are switching between currencies, the relevant exchange rates will be applied and shown on your switch confirmation.

The sale proceeds that you will receive will be the realisation price multiplied by the number of units sold, less any charges. An example (assuming a redemption charge of 4%) is as follows *:

<u>Realisation price</u>	<u>Number of units sold</u>		<u>Gross Realisation Proceeds</u>
S\$0.93	X 100,000	=	S\$93,000
<u>Gross Realisation Proceeds</u>	<u>Realisation Fee</u>		<u>Net Realisation Proceeds</u>
S\$93,000	- S\$3,720	=	S\$89,280

Additional Information

Please refer to the 'Valuations and Pricing' section of your Policy Conditions for further information.

* For full details of the charges that may apply please refer to the section on 'Fees and Charges' in the relevant Product Summary.

APPENDIX : GLOSSARY OF TERMS

Bond/Fixed Interest Security

A bond is a type of investment that represents a written promise to repay a debt at an agreed time and to pay an agreed rate of interest on that debt. It provides periodic payments (which may be fixed or variable) and the return of capital at maturity. Generally, because these types of assets produce an income and can be less risky than other types of assets they offer a lower return.

Collective Investment Scheme

An arrangement that enables a number of investors to 'pool' their assets and have these professionally managed by an independent manager.

Derivatives

Also known as Financial Derivative Instruments (FDI). Financial contracts whose value is tied to an underlying asset. Derivatives include futures and options.

Equities

Ownership positions in companies that can be traded in public markets. Often produce current income which may be paid in the form of dividends. In the event of the company going bankrupt equity holders' claims are subordinate to the claims of preferred stockholders and bondholders.

Expense Ratio

The Expense ratio provides customers with an indication of the overall costs of investing in a particular fund.

The expense ratio as calculated in accordance with the Investment Management Association of Singapore's guidelines on the disclosure of expense ratios. Different methods of calculation of Expense Ratio can be used, including Total Expense Ratio (TER) and Ongoing Charges Figure (OCF) but these are broadly the same.

Hedge/Hedging

Any transaction with the objective of limiting exposure to risk such as changes in exchange rates or prices.

ILP

Investment-linked policy

ILP Sub-Fund

Investment-linked policy sub-fund refers to each separate sub-fund within an ILP to which a policyholder can choose to allocate his or her premiums under the ILP.

Investment Grade

A rating that indicates that a municipal or corporate bond has a relatively low risk of default.

Ongoing Charges Figure (OCF)

A type of expense ratio. The ongoing charges figure is based on expenses for the previous year and is a ratio of the total ongoing charges to the fund's average net asset value over its last reporting period. This figure may vary from year to year. The charges you pay are used to pay the costs of the underlying ILP sub-fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

For more information about charges, please consult the Prospectus for the underlying fund of the ILP sub-fund invested in, available from <http://www.fpinternational.sg/fund-centre/product-highlight-sheets.jsp>.

Details of the calculation methodology can be found in full at: http://www.esma.europa.eu/system/files/10_674.pdf.

Open-Ended Investment Company

An open-ended collective investment vehicle, structured as an investment company, where new shares are created or redeemed, depending on demand from investors.

Specified Investment Product (SIP)

SIP is a class of investment products defined by the Monetary Authority of Singapore (MAS). Generally, (although not in all instances), financial advisers have to carry out more due diligence, including customer knowledge assessment, when advising about a SIP.

UCITS

Undertaking for Collective investment in Transferable Securities. A type of collective investment (or fund) that allows financial institutions to operate freely throughout the European Union on the basis of a single authorisation from one member state.

Volatility

The relative rate at which the price of a security or fund moves up and down. Volatility is found by calculating the annualised standard deviation of daily change in price. If the price of a stock moves up and down rapidly over short time periods, it has high volatility. If the price almost never changes, it has low volatility.
