

# Global mirror fund guide

Singapore – November 2020

---

# Friends Provident International Limited Singapore Branch (Friends Provident International) has prepared this guide to help you choose the mirror funds that can be accessed via our investment-linked products.

Friends Provident International operates a range of funds known as mirror funds (also referred to as investment-linked product sub-funds). The concept is simple: agreements have been set up with investment houses worldwide allowing us to link to specially selected funds chosen on the basis of performance and investment expertise. These mirror funds can only be accessed using Friends Provident International investment products.

This guide has been produced to help you choose the mirror funds you would like to include as investments in your savings plan. It should be read in conjunction with the relevant product literature, together with our fund fact sheets, which will give you access to the information necessary to help you with your investment decisions. The product literature, product highlights sheets and fund fact sheets can be found on our website at <http://www.fpinternational.sg>.

Each investment-linked product sub-fund offered through the investment-linked products is a Specified Investment Product (SIP). A SIP is a class of investment products defined by the Monetary Authority of Singapore (MAS). Generally, although not in all instances, financial advisers have to carry out more due diligence, including customer knowledge assessment, when advising about a SIP.

**This document is not intended as an offer to invest and we recommend that you seek professional advice from your financial adviser before making any final decisions.**

# The mirror funds

## Key features of the fund range

- Specialist expertise from some of the world's leading investment houses – investment management by specialists in specific areas, creating the potential to achieve even higher capital growth.
- Easy access to top performing funds at low investment levels not normally available to individual investors.
- Flexibility to construct a portfolio tailored to your individual risk profile.
- The investment marketplace and our range of funds are continually monitored to identify new investment opportunities.

Fund prices may go down and up depending upon investment performance so you may lose some or all of your investment. Past performance should not be viewed as a reliable guide of future performance.

Please note that securities held within a fund may not be denominated in the currency of that fund and, as a result, fund prices may rise and fall purely on account of exchange rate fluctuations. You may get back less than you have paid in.

## Valuation frequency and availability of unit prices

Valuations are carried out on all business days in the UK as appropriate for the individual fund. Unit prices are issued daily at approximately 5pm (UK time) and are available on our website. Units in the mirror funds are bought and sold using the 'bid' (selling) price.

**Please note that some mirror funds do not price on a daily basis – any affected funds have been clearly marked on the individual fund factsheets, available on our website at <http://www.fpinternational.sg>.**

## Charges

Charges are deducted by both Friends Provident International and the underlying investment managers at each valuation point before calculating the unit price.

## Friends Provident International charges (payable directly by you)

- You will need to pay a mirror fund administration charge of 1.2%.
- There is no charge for switching funds, although switching to a fund whose currency differs from the currency of your plan, may involve a cost associated with currency exchange. However, we reserve the right to charge for switches under certain conditions. **Please refer to the policy conditions for further details.**
- Any sales and/or redemption charges will be determined by the terms of your policy conditions.

## Underlying investment managers' charges

(These charges are payable by the mirror fund from invested proceeds.)

- **These charges can be found in the table on the following pages. Please refer to the Annual Management Charge (AMC) column.**

## Risk profiles

Each mirror fund has been carefully assessed and a risk profile allocated:

- **Grade 1** – Funds offering a conservative return similar to money market rates.
- **Grade 2** – Low risk funds which aim to offer security and potential growth.
- **Grade 3** – These funds take a balanced approach to investment by holding a diverse portfolio of assets.
- **Grade 4** – A more focused asset exposure which provides good growth potential, but with the risk of short-term volatility.
- **Grade 5** – These aggressive funds balance the risk of high volatility with the potential for high capital growth.

## Product Highlights Sheet (PHS)

Friends Provident International has produced a PHS for each of the mirror funds which are available to investors in Singapore. The PHS provides full details of the funds available, including charges, risks, investment objectives and policies. You can access them at <http://www.fpinternational.sg/fund-centre/product-highlight-sheets.jsp>.

## Footnotes to mirror funds

\* The Annual Management Charge (AMC) is charged by the underlying investment manager annually to cover the costs of running the fund. This charge is payable by the mirror fund. It is deducted from the return achieved by the fund.

<sup>1</sup> Investors should note that the underlying fund of JPM Emerging Markets Small Cap is constituted in Luxembourg and hence the mechanism used to calculate the performance fees may not be similar or identical to the performance fees methodologies set out in MAS Notice 307 (Part II – Non-Mandatory Standards) issued by the Monetary Authority of Singapore (MAS).

## Important information

The information given in this document is based on the understanding of Friends Provident International of current Singapore law and taxation practice, which may change in the future. No liability can be accepted for any personal tax consequences of this plan or for the effect of future tax or legislative changes.

Loans against the value of your plan are not available.

Should Friends Provident International become unable to meet its liabilities to its policyholders, they will receive the protection of the Life Assurance (Compensation of Policyholders) Regulations 1991 of the Isle of Man.

Investors should be aware that specific investor protection and compensation schemes that may exist in relation to collective investments and deposit accounts are unlikely to apply in the event of such an investment held within insurance contracts.

Complaints we cannot settle may be referred to the Financial Insurance Disputes Resolution Centre Limited ('FIDReC') for assistance within six months from the date you failed to reach an agreement with Friends Provident International. You can contact FIDReC at 36 Robinson Road, #15-01 City House, Singapore 068877.
