SUB-FUND SUITABILITY

WHO IS THE SUB-FUND SUITABLE FOR?

The Sub-Fund is only suitable for investors who have a long-term investment horizon, and who are seeking exposure to shares of companies on a global basis.

It is important to remember that, as with most investments, the value of your investments are not guaranteed and can go down as well as up. Therefore, we suggest that you only invest money that can be committed for the medium to long term. You should also bear in mind that securities held within a fund may not be denominated in the currency of that fund, so unit prices may fall purely on account of exchange rate fluctuations.

Please note that Friends Provident International Limited ('FPIL') investment products are intended for medium to long-term investment and are not therefore designed for early surrender. If you do surrender early, a product surrender charge may be applied. Please note that the earlier you terminate your plan, the more you may lose.

KEY FEATURES OF THE SUB-FUND

WHAT ARE YOU INVESTING IN?

You are investing in an ILP Sub-Fund that invests in the Fundsmith Equity Fund* ('the Fund' or 'underlying fund'), apart from a proportionately small amount which may be held in cash to optimise dealing efficiencies in the underlying fund. We endeavour to maintain a cash balance limit of up to 0.75%.

The underlying fund of the ILP Sub-Fund is an accumulation fund, which means the fund will automatically reinvest any dividends

*The Fund is a sub-fund of the Fundsmith Equity Fund, incorporated in England and Wales as an Open-Ended Investment Company with variable capital, whose effective date of authorisation by the FCA was 19th October 2010.

-Refer to the 'Investment Objectives and Policy' section of the underlying fund's prospectus for further information on the suitability of the ILP Sub-Fund.

¹ For an ILP sub-fund that feeds 100% into an underlying fund, some information provided below could be similar to the underlying fund. In this instance, this ILP sub-fund will at minimum feed 99.25% into the underlying fund, Fundsmith Equity Fund.

Investment Strategy	
<p>-The Fund's objective is to achieve long-term (over 5 years) growth in value, investing in shares of companies on a global basis. The Fund's approach is to be a long-term investor in its chosen Stocks and it will not adopt short-term trading strategies.</p> <p>-The Fund aims to invest in businesses:</p> <ul style="list-style-type: none"> • that can sustain a high return on operating capital employed; • whose advantages are difficult to replicate; • which do not require significant borrowing to generate returns; • with a high degree of certainty of growth from reinvestment of their cash flows at high rates of return; • that are resilient to change, particularly technological innovation; and • whose valuation is considered attractive. <p>-The Fund will not invest in units of other UCITS or other collective investment schemes.</p> <p>-The Company will not invest in derivatives and will not hedge any currency exposure arising from within the operations of an investee business nor from the holding of an investment denominated in a currency other than sterling.</p> <p>-The application of these investment criteria significantly limits the number of potential investments that the ACD and the Investment Manager will consider to be appropriate investments for the Company's portfolio. It is envisaged that the investment portfolio of the Company will be concentrated, generally comprising between 20 and 30 Stocks.</p>	<p>Refer to the 'Investment Objectives and Policy' section of the underlying fund's prospectus for further information on the investment strategy of the Fund.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <p>Authorised Corporate Director ("ACD") of the underlying fund: Fundsmith LLP</p> <p>Investment Manager of the underlying fund: Fundsmith Investment Services Ltd</p> <p>Depository of the underlying fund: State Street Trustees Limited</p>	<p>-Refer to the "Management and administration" section of the underlying fund's prospectus, for further information on the roles and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>-The value of an investment is not guaranteed and can go up and down depending on performance. You could get back less than you have paid in. At times, the ILP Sub-Fund may (subject to the Appointed Actuary's agreement and provisions allowed for in the Policy Conditions) need to change the way its price is calculated, to ensure that those moving into and out of the ILP Sub-Fund are treated fairly. This can have a negative effect on the ILP Sub-Fund's price and performance.</p> <p>-Fund managers have the ability, in exceptional circumstances, to suspend trading in their funds for as long as necessary. When this occurs we will need to delay the 'cashing in' or switching of units in the relevant fund. You may not be able to access your money during this period.</p> <p>These risk factors may cause you to lose some or all of your investment:</p>	<p><u>Further Information</u></p> <p>-Refer to the 'Valuations and Pricing' section of your Policy Conditions for further information.</p> <p>-Refer to the 'Risk Factors' section of the underlying fund's prospectus for further information on the risks of the Fund.</p>

Market and Credit Risks

Investment risk: There is no guarantee that the Fund will achieve its objective. A capital loss of some or all of the amount invested may occur.

Political and/or environmental risks: The investee companies may operate in countries where the ownership rights may be uncertain and development of the resources of investee companies may be subject to disruption due to factors including civil disturbances, industrial action, interruption of power supplies, as well as adverse climatic conditions.

Currency risk: The values, in pounds sterling terms, of investments that are not denominated in pounds sterling may rise and fall purely on account of exchange rate fluctuations, which will have a related effect on the price of Shares. The Company will not hedge currency exposures.

Liquidity Risks

Liquidity risks: There may be occasions when the manager is unable to sell some or all of the shares within the Fund, which could delay payment or redemption of proceeds.

Product-Specific Risks

Concentration risk: The Fund's investment approach is to invest in a relatively small number of securities. This may result in portfolio concentration in sectors, countries, or other groupings. These potential concentrations mean that a loss arising in a single investment may cause a proportionately greater loss to the Company than if a larger number of investments were made.
